TRUTH ABOUT RED RUSSIA.

Amazing Series of Articles by Washington Vanderlip in Sunday "Times."

The real truth about Russia as it is today, written by the one English-speaking man in the world qualified to tell it, will be given the readers of The Times by Washington Vanderlip beginning next Sunday.

Vanderlip is the man who went to Russia as the agent of a Los Angeles syndicate of capitalists and came back with the province of Kamchatka, two world naval bases and $3,000,000,000 worth of trade orders, figuratively speaking, in his vest pocket. For the first time he tells here how he got these tremendous concessions from the terrible Lenine, dictator of Red Russia. He got them, he relates, literally by tickling the dictator behind the ears.

The publication of this Vanderlip series is one of the big news events of the year. No one interested in world history in the making can afford to miss a line of his story.

Airmen Will Try to Sink Capital Ship With Bombs

[BY A. P. NIGHT WIRE.]

NEWPORT NEWS (Va.) July 19. The first real test between the aircraft and the capital ship will come off the Virginia Capes tomorrow, with an effort by Army, Navy and Marine Corps aviators to sink the former German battleship Ostfreisland with bombs, ranging in size from twenty-five pounds to 1000 pounds.

Airmen have sunk every ship attacked, but, because of the very superior armor protection, and vastly greater size of the Ostfreisland, many naval officers who have watched the test, expressed doubt tonight that the air attack would be successful.

The principal purpose of bombing the ship, it was explained by these officers, is to study the effect of the explosion on modern naval construction.

DENIES HE GOT CASH.

Mrs. Bergdoll in Accusation.

Says She Gave Army Major $5000 to Help in Son's Escape.

"Lie Out of Whole Cloth," is Answer of Officer Called to Capital.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—The direct charge that $5000 was paid to Maj. Bruce R. Campbell, an officer of the Army, for use among "the higher-ups" to obtain the release of Grover C. Bergdoll, her slacker son, was made today by Mrs. Emma C. Bergdoll of Philadelphia, to a House investigating committee.

The committee developed that on Feb. 10, 1920, about ten days after Mrs. Bergdoll swore the money was paid, Campbell deposited $4500 with Wassermann Bros., members of the New York Exchange, and $3000 more on March 3, all of which, and more, was wiped out by the end of June in market trading. The money was deposited to the joint account of the major and Laura E. Campbell, supposedly his wife.

ORDERED TO CAPITAL.

Maj. Campbell, who served overseas with the Rainbow Division, and who was Bergdoll's counsel in court-martial proceedings, was not present. He previously had testified that he did not get one dollar of Bergdoll money. At the direction of the committee the War Department has ordered him here from Camp Pike, Ark., to answer the charges.

Called back to testify after government agents had picked up the Campbell clew in a renewed effort to fix responsibility for Bergdoll's escape while hunting for a buried tub of gold, Mrs. Bergdoll stood firmly on her constitutional rights and refused to answer questions. But when assured of immunity from prosecution she began her story, declaring Campbell first demanded $100,000:

"I told him to go to hell," she exclaimed. "He had tortured me into believing that my boy would be shot unless the higher-ups were paid."

TELLS OF TRANSACTION.

Questioned by John H. Sherburne of Boston, committee counsel, Mrs. Bergdoll told how she had taken the money to Governor's Island, turned it over to Grover, who met the major and delivered it. Later, she swore, Campbell told her he had received the money, but that under the law he could keep no part of it for himself, and had given it to an officer, whose name she could not remember. It was her understanding, she testified, that it was to go eventually to a member of the court trying her son for evading the draft.

Mrs. Bergdoll said she had not told the committee of the transaction before because she had forgotten it. Grover, she added, recently had urged her to tell of it.

"Have you still got that $150,000 in gold buried?" she was asked.

"I refuse to answer," Mrs. Bergdoll snapped.

Presenting a stack of big ledger sheets, Joseph F. Houlahan, bookkeeper for Wassermann Bros., told the committee the records showed that Campbell had an account with the firm in 1919, which had been closed prior to reopening the larger one in 1920. Of the $7500 placed with the firm last year, all was wiped out, with $415 still due by Campbell.

Campbell, according to testimony of an Army intelligence officer, maintained an account in a New York bank, depositing only his monthly pay check, against which he drew. The monthly balances, it was stated, sometimes ranged as low as $7 and never higher than $60.

LITTLE ROCK (Ark.) July 19.—Maj. Bruce Campbell, director of education at the Camp Pike College, and formerly counsel for prisoners of war at Governor's Island, New York, described statements by Mrs. Emma Bergdoll at Washington today as a "lie out of the whole cloth." Maj. Campbell is under orders to proceed to Washington in connection with the committee hearings.

Discussing Mrs. Bergdoll's assertion that he had demanded $100,000, Maj. Campbell declared:

"I never had such a conversa-

TEMPERATURES IN PRINCIPAL CITIES.

Following were the maximum and minimum temperatures yesterday in various eastern cities compared with Los Angeles:

	Max.	Min.
New York	84	68
Boston	86	70
Philadelphia	88	70
Cincinnati	92	72
Indianapolis	90	74
Omaha	84	70

St. Louis	92	76
Des Moines	86	70
Kansas City	90	76
Winnipeg	82	56
Huron, S. D.	82	58
Los Angeles	83	62

Because of a difference in humidity, there is an actual difference in "heat unpleasantness" of from 5 to 10 deg. in favor of Los Angeles as compared with the East, according to Col. H. B. Hersey, meteorologist for the local station of the United States Weather Bureau.

"BUG CLUB" DEAD, NURSEMAIDS WHEEL BABES WHERE SOAP-BOX ORATORS SPILLED THEORIES.

[EXCLUSIVE DISPATCH.]

CHICAGO, July 19.—The "bug club" is dead and its former temple in Washington Park has been given over to nursemaids who trundle baby carriages over the spot where fiery soap-box orators were wont to spill thousands of words about anything and everything and chiefly nothing.

The "bug club" was made up of a number of soap-box "thinkers" and "orators" who had plenty of time for their own rather nebulous employment to solve all the problems of the universe. They met in the park and raved and stormed and otherwise made that particular part of the great resting spot anything but quiet and restful. The park commissioners finally decided that their speeches were a detriment to good order and the peace of the community, and the park police were ordered to stop the meetings forthwith.

REVIVES OLD MEMORIES.

Senator Watson Extols Southern Drinks in Attack on Antibeer Bill.

[EXCLUSIVE DISPATCH.]

WASHINGTON, July 19.—The old-fashioned mint julep, the toddy and the nightcap were extolled in the Senate today by Senator Tom Watson of Georgia with an eloquence that aroused fond memories and familiar thirsts in many of his colleagues.

It was the first speech of its kind in the Senate since former Senator James E. Martine immortalized the applejack of his native heath. Its effect was so powerful that Wayne B. Wheeler, spokesman for the Anti-Saloon League, who heard it from the gallery, dashed away to his office and returned to the Capitol fifteen minutes later with typewritten statements designed to counteract the damage of Senator Watson's utterances.

Senator Watson has been fighting the saloon since he was "a mere child of 14 years, suh," he told the Senate, but his high-strung Southern blood rebels at the extremes of prohibition.

TEMPERANCE ADVOCATED.

Temperance, rather than prohibition was advocated by the fiery southerner, who shouted at Senator Knute Nelson of Minnesota that "I do not like to have him insinuate that I am a whisky soak, simply because I am not in favor of Congress saying that doctors shall not prescribe beer as medicine."

The Minnesotan had just concluded a prohibition speech in favor of the pending antibeer bill, and had insisted that the opponents of that measure were not real prohibitionists, when Senator Watson leaped to his feet and said he would like to have the date when Senator Nelson began fighting the barroom.

"I began mine when I became a member of the [illegible] 14," said Mr. Watson, "and I never took a drink, not even a drink of lemonade, in a saloon. I joined a temperance society and have never broken its vows, but when it comes to intemperate speeches I will not make them, and when it comes to intemperate votes I will not cast them.

THREE DRINKS A DAY.

"I was raised on a southern plantation, where the owner made his peach brandy, his applejack and his beer. I never saw any drunkenness on the plantations. You might hear of a whisky soak in the neighborhood once in a while, but he was ostracised. The gentleman of the South took his mint julep before breakfast, his toddy before dinner and a nightcap before he went to bed. Three drinks a day.

"When the preacher used to come to the house on Sunday after the church services, he was asked if he would have a toddy from the decanter on the sideboard, and I have never known him to refuse. It seemed to do him good. It genialized him."

Additional evidence of the necessity of beer as medicine was presented by Senator Lodge, Republican leader. He submitted letters from a score of prominent Philadelphia physicians, testifying to the efficacy of malt liquors in the treatment of certain ailments. Among the letters was one from Dr. F. X. Dercum, the specialist, who treated President Wilson during his serious illness, last year.

UNIONS TRY TO GET OUT OF TROUBLE.

Conference Committee is Formed to Devise Means of Ending Strike.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, July 19.—A general conference committee representing, it was announced, the rank and file of more than fifty building trades unions in the San Francisco bay district, was formed today to devise means of bringing about peace in the building trades controversy. An adjustment committee was appointed to draw up a plan of dealing directly with the contractors and avoiding both the Building Trades Council and the Builders' Exchange. More than 400 men were present, representing upwards of fifty unions having a membership said to be about 20,000.

Employment bureaus to bring men here to work on open-shop building jobs have been opened in Seattle, Minneapolis, New Orleans and St. Louis it was announced at a mass meeting of the Builders' Exchange. In cases where crafts are unable to obtain sufficient men by this means to resume work special representatives will be sent East to get workmen, it was said.

OAKLAND, July 19.—By a vote of 425 to 201 the Carmen's Union of Oakland decided early today to accept a wage reduction that will average 6 cents an hour for all platform men of both the Key and Traction divisions of the San Francisco-Oakland Terminal Railway Companies. The result of the balloting was announced in a joint statement issued by W. R. Alberger, general manager of the company, and W. J. Morehead, business agent of the union. The reduced wage will go into effect August 1.

SHOOTS HIS WIFE, THEN KILLS SELF.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, July 19.—Jose Arruzo, 32 years old, met his wife, Aurora, unexpectedly on the street today, after a separation of five years, and, according to the police, shot and seriously wounded her and then shot and killed himself.

The shooting followed a brief quarrel. After the woman was shot Arruzo walked down the street a block, apparently in meditation, and then turned the pistol on himself. The woman's mother was a witness to the tragedy.

NAVY SCANDAL IS AIRED.

Daniels and Roosevelt Accused in Report of Senate Committee.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—Republican majority and Democratic minority members of the Senate naval subcommittee which investigated the war-time scandal among enlisted men at the Newport (R. I.) training station in reports made public today agree in condemning in severe terms the methods used by the Navy in detecting those at the station guilty of immoral practices.

The only outstanding point of difference in the two reports consists in the responsibility of former Secretary Daniels and former Assistant Secretary Roosevelt for the use of naval enlisted men as participants in immoral practices in order to obtain evidence against offenders.

ROOSEVELT ACCUSED.

The majority report holds that the methods used were with the knowledge of both officials, and declares Mr. Roosevelt to be "morally responsible" for instructions issued.

The minority views, presented by Senator King of Utah, contends the matter was conducted without the knowledge of either of the Navy Department chiefs.

With respect to the methods employed, the minority report says: "That the methods employed in securing evidence by some of the enlisted personnel were abhorrent, and call for the severest condemnation, no one can deny. The condemnation of the majority committee of these methods meets my approval."

OFFICERS UNINFORMED.

The record of the subcommittee's investigation is said by the minority to show that the naval officers who

I.W.W. Busy Gang; Out for Members by Talk or Force.

[BY A. P. NIGHT WIRE.]

OMAHA, July 19.—A reporter for the Omaha World-Herald who beat his way on a freight train from Omaha to Sioux City, Iowa, last night to get first-hand information on activities by the I. W. W. was told by an organizer that I. W. W. organizers were out for members and aimed to get them "by talk or with force," according to an article by the reporter, published today. Relative to his conversation with the organizer, the reporter said:

"He told me organizers were working every freight train operating from Texas to Canada, that a man without a card in the Dakotas would be like a man in the desert without water. 'He will face violence of all kinds from radical members of the organization,'" said the delegate.

The reporter said he was compelled to buy an I. W. W. card to keep from being put off the train.

PREMIER TO COME HERE.

Lloyd George is to be Delegate.

Tokio Message Says Japan May Raise Several New Questions for Meet.

Awaits Formal Reply from Washington to Query. Senate to Sit In?

[BY CABLE AND ASSOCIATED PRESS.]

LONDON, July 19. — It is announced as provisionally arranged that Premier Lloyd George will attend the Washington conference on limitation of armaments.

RAMIFICATIONS MANY.
[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—President Harding's move for a disarmament conference is assuming far greater magnitude in world affairs than first indications disclosed. As the preliminary negotiations proceed they are revealing unexpected diplomatic ramifications and leading into fields, which in the beginning had seemed far removed from the purposes of a conference. But officials apparently are confident that the widespread effect on the President's proposal will in the end only prove an aid in accomplishing the frank exchange of ideas for which the conference was called.

One of the principal side issues now occupying the attention of the government is the disposition of Japan to hold out for an exact definition in advance of the subjects to be considered. To thresh out that question now not only would delay the conference, but might also branch into a discussion of the merits of the disputed subjects. It is felt that the program could best be arranged by the conference or at least by negotiation after each of the invited powers has sent in an unconditional acceptance.

MESSAGE INTERESTING.

News dispatches from Tokio reporting Japan might raise such questions as racial equality and abolition of extra-territorial rights in China were read with manifest interest. There was an apparent feeling of satisfaction over other unofficial advices seeming to indicate that the Tokio government proposed to clean the slate of troublesome Far Eastern problems by moving toward a settlement of such questions as Shantung and the occupation of Siberia.

It developed that the explanation given Japan by the State Department relative to the scope of the conference was entirely informal, and that department officials apparently hoped to be able to reach an understanding without a further exchange of formal notes. The information desired by Tokio is understood to have been given the Japanese Ambassador during an informal conversation with Secretary Hughes.

President Harding is understood to be giving some attention to the personnel of the commission that is to represent the United States. It was indicated today that although no actual choice probably would be made for a month or more, the President definitely had decided that the Senate, because of its joint responsibility for foreign affairs, will be represented.

ITALY IS PLEASED.
[BY CABLE AND ASSOCIATED PRESS.]

ROME, July 18 (Delayed.)—Premier Bonomi, in his speech opening the sessions of Parliament today, declared that the moment the United States took the initiative in proposing a conference of the powers on disarmament, Italy, which had approved a similar proposal within the League of Nations and had begun the reduction of her standing army, adhered promptly and cordially to the American initiative.

TO RAISE QUESTIONS?
[BY CABLE AND ASSOCIATED PRESS.]

TOKIO, July 18.—It is intimated in responsible quarters here that Japan, assuming the initiative as the leading Far Eastern power, is likely to submit to the proposed conference over Far East questions the abandonment of extra territoriality in China and also to ask the fixation of emigration rights to countries like Canada, Australia, New Zealand and Indo-China, and in general, raise the question of racial equality.

The impression is growing that an endeavor will be made to accelerate the settlement of matters of interest to America, such as the Yap and Shantung questions, so they may be disposed of before the opening of the conference, and thus be eliminated from the discussions. It was said at the Foreign Office today that a report had been received from Ambassador Shidehara in Washington outlining the views of Secretary Hughes regarding the proposed conference.

AWAIT FORMAL REPLY.

Apparently, however, a formal reply to Japan's request for definition of the scope of the conference is being awaited. The newspapers describe Ambassador Shidehara's report as indefinite, and Japan's policy appears to be to endeavor to obtain a preliminary accord among the powers concerning the agenda of the conference.

Viscount Chinda, former Ambassador to the United States, is mentioned in official circles as the probable choice for Japan's chief delegate to the Washington meeting. He is traveling with Prince Hirohito, the Japanese heir, now about to sail home from his trip to Europe.

ARMY AVIATOR KILLED IN 2500-FOOT FALL.

HOUSTON (Tex.) July 19.—First Lieut. Willard S. Clark of Illinois was killed instantly today at Ellington Field when his plane fell 2500 feet in a tail spin.

MAYOR HAS SICK FRIENDS, ALSO.

Tells Indiana Woman He Would Like to Get Some Beer, Too.

[BY A. P. NIGHT WIRE.]

MILWAUKEE, July 19.—Mayor Daniel W. Hoan received a letter from an Indiana woman today demanding that he "slip" her the information as to where she may obtain beer. "I have a very sick relative," she wrote.

The letter was answered by the Mayor's secretary as follows: "The Mayor also has a lot of sick friends, especially during this hot spell, but I regret to tell you he does not know how you may obtain beer, legally or otherwise."

WARNING TO JAPAN GIVEN IN EDITORIAL.

"London Express" Says Britain Will Stand by United States.

[BY CABLE—EXCLUSIVE DISPATCH.]

LONDON, July 19.—Under the title "Words and Counsel for Japan" the Daily Express, which is owned by Lord Beaverbrook, who is a Canadian and who is in the closest touch with the government, in a leading editorial today warns Japan in the plainest language that Great Britain will refuse to support her in any anti-American policy.

"We are convinced," the editorial says, "that the proposal from the United States for a Pacific conference was made without an ulterior motive and in the sole interest of the world's peace. If Japan refuses frankly to associate herself with us in that view we shall be driven to believe that she harbors designs incompatible with peace.

"We are already agreed the American alarm as to Japanese armaments, is justified. The United States, like ourselves, has given hostages in the shape of a fortune in the Far East. Her vast commercial interests in China and her position in the Philippines stand wide open to attack. Japan has given no such hostages to the West and her expenditures for armaments are altogether out of proportion to the needs of her defense.

"These facts are significant. They compel the suspicion that America stands under the menace of an attack, and if that suspicion hardens into belief, the whole British Empire will be on America's side. In 1916 friends of Great Britain in the United States strove to favor our cause. At the supreme moment they succeeded in bringing the great republic over to our side. The scenes have changed. It now behooves all friends of America, throughout the British Empire, to stand by her."

Slight Decrease in Retail Costs for June Noted.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—The retail cost of food to the average family declined three-tenths of 1 per cent in June, as compared with prices in May, while wholesale food prices declined slightly less than 1 per cent, according to statements today by the Department of Labor. Declines were noted in the retail prices of sugar, plate beef, cheese, butter, rib roast, bacon, canned salmon, fresh milk, bread, macaroni, baked beans, canned tomatoes, coffee and prunes.

Among articles which increased in retail price were potatoes, flour and ham. Wholesale prices of farm products showed a decline of 3½ per cent. Wholesale fuel prices decreased equally, while declines in the wholesale prices of clothing and miscellaneous commodities were less than 1 per cent.

MILLIONS TO BE SAVED.

Dawes Estimate is $112,512,628.

Tells President in Letter that Department Heads Co-operate Nicely.

Pressure to be Exerted on Those in Charge of Cash Appropriated for Work.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—An estimated saving of $112,512,628 can be effected in the appropriations of approximately $4,000,000,000 available for government expenditures during the current fiscal year, President Harding was informed today by Director of the Budget Dawes. Included in the estimate, Director Dawes said, was $22,838,112, pertaining to continuous appropriations for building and construction, which would be postponed for expenditure in future years.

The estimate of government economy possible was contained in a letter directed to the President by Dawes, who presented the amounts by which the expenditures could be reduced in the departments and independent establishments.

Survey of possible economies was begun a few weeks ago by Director Dawes, using the budget machinery, after a meeting at which department heads and bureau chiefs had been directed to reduce expenditures.

EVERY LITTLE HELPS.

"Whatever may be the relation of total expenditure to total revenues at the end of the current year," the director wrote, "which for various reasons, including possible new legislation, the operations of the Shipping Board, the Railroad Administration and fluctuation in current receipts of the Postoffice Department, cannot be predicted at time time, the above amount is that much of a contribution to a more favorable relation.

"This fine response to your request from the heads of departments and independent organizations and bureau chiefs infers the existence in their minds of three principles involving improvement in governmental business.

"First, that the business organization of government hereafter assumes that the minimum amount of money to be expended in any fiscal year is not, of necessity, the sum appropriated in advance by Congress, but the smallest amount upon which the business of the government can be efficiently administered under the program outlined by Congress.

"Second, that the minds of the business administrators of government have been diverted from a too easy reliance upon the custom of deficiency appropriations.

TO EXERT PRESSURE.

"Third, that where Congress has directed the expenditure of certain sums for specific purposes, an executive pressure will now be exerted for more efficient and economical administration in order to produce greater results from the given expenditure, and also wherever possible, to complete the given project for a less amount than the total appropriated for the purpose."

Estimated savings of the more important departments were listed as follows:

State Department: $1,171,982; Treasury Department, $30,342,148; War Risk Bureau, $16,534,528; War Department, $15,000,000; Navy Department, $10,047,891; Interior Department, $19,827,191; Department of Agriculture, $1,687,802; Postoffice Department, $35,500; Postal Service, $14,920,421; Department of Commerce, $2,063,383; Department of Labor, $10,660, and Department of Justice, $94,300.

Completion of the economy estimates by the government organizations within three weeks was regarded by Director Dawes as evidence of increased efficiency. Work would be begun at once by the Budget Bureau, he added, on the budget for the fiscal year ending June 30, 1923, using the new estimates of necessary expenditures as a basis.

PIN HOPE ON GEN. SMUTS.

African Premier May be Called Upon Again to Clear Irish Deadlock.

[BY CABLE AND ASSOCIATED PRESS.]

LONDON, July 19.—Events which had apparently been proceeding smoothly and with fair rapidity toward a common ground upon which the British government, the Irish republicans and the Ulsterites could find a basis for a settlement of the troubles in Ireland have fallen into a lull, and negotiations, official and private, have ceased.

With Sir James Craig, the Ulster Premier, again in Belfast, having before his departure from London delivered a pronouncement which seemed to spell the end of discussions between the three parties, the English are trying to figure out what will eventually happen with respect to Ulster, and more particularly with respect to the whole of Ireland at the next conference between Lloyd George and De Valera, Thursday.

SMUTS TO BELFAST.

Meanwhile Gen. Smuts, the South African Premier, may proceed to Belfast as intermediary, and the fact that the Ulster leader has declared that his services and those of the officials under him "are available at any moment," leads to a hopeful view that the final word of the Ulsterites has not been spoken.

Notwithstanding the attitude of Ulster, as expressed by Premier Craig, the spokesman of the republican delegates today declared they were "still not unhopeful," while another Sinn Fein representative said: "It is not a question of Belfast being subservient to Dublin, or vice versa, but that both must be subservient to Ireland."

The King, deeply interested in the outcome of the Irish discussions, was visited today by the Marquis of Londonderry, Ulster Minister of Education, who, it is understood, gave the King details of the conversations the Marquis had with Premier Lloyd George yesterday. The continued presence of one of the Ulster Cabinet in London is considered significant and of good augury.

Lloyd George is believed to have certain propositions to present to De Valera at Thursday's meeting, which have been approved by the British Cabinet. The republican leader and his colleagues will probably return to Dublin on Friday.

LAUNCHES OPERATE IN FULL.
[BY A. P. DAY WIRE.]

SAN FRANCISCO, July 19.—The Peterson Launch and Towboat Company announced yesterday all its launches are in full operation with nonunion crews. This was the first full revival of activity by such a concern since the recent strike of engineers on these boats was called.

TRIP TO COAST IS POSTPONED.

Extra Work Delays Both Fall and Denby.

Italian General and Party Due Here Soon.

Will Arrive in Los Angeles Last of August.

[EXCLUSIVE DISPATCH.]

WASHINGTON, July 19.—Secretary of the Interior Fall, and Secretary of the Navy Denby, who have been planning to leave Washington this week for a trip to the Pacific Coast to familiarize themselves with important sections of their departments, have been delayed by developments in government activity, and may not be able to get away for some weeks yet.

MUST SHORTEN TRIP.

Secretary Fall, who planned to get away July 15, has now tentatively set his amended time for departure at August 5, and will change some of his plans to compress into his trip of forty days all the national parks and some of the more important reclamation projects. Director Davis of the Reclamation Service, who has already gone to Denver, will make an inspection of some of the projects in the Northwest this week, and will join the Secretary later at some point in the West. Director Mather of the national parks service, who is now in Yosemite, expects to accompany the Secretary through the more important national playgrounds and explain to him what the government is doing.

ITALIAN COMING.

Secretary Denby today wrote to Congressman Osborne, thanking him for the renewed assurances of welcome from Los Angeles and advising him that the length of the bombing tests off the coast at Hampton Roads had made some delay in his program, and that it was still a matter of doubt as to what time he would be able to start for the Pacific. Neither of the Secretaries has abandoned the plan to visit the Coast and the Western States, but neither one has been able to perfect his plans.

In the meantime, however, the War Department has worked out an extensive and elaborate trip for the Italian army representative, Gen. Badoglio and his party. He will visit most of the large cities of the country, going first to Yellowstone Park and the cities of the Northwest. He is due in Los Angeles on August 31 at 10:45 p.m., via the Southern Pacific, and will leave for the Grand Canyon over the Santa Fe on September 4, at 11:30 a.m.

FEUDAL BARONESSES.

"I refer, of course, to women who have approached the masculine type and who are not of the mother type. In olden times feudal barons conducted social evolution. Now it is to be feudal baronesses who are to conduct social evolution for a while.

"Because of the proportion of women with one child, or with no children at all, among the militant feminist leaders, I assume that the twentieth century is to be notable for 'the war of the feudal baronesses'."

"And what about the plaything type?" he was asked.

"The plaything knows how to attract and is not so scrupulous.

"She will affect the slit skirt and alluring adjuncts, her gowns artistically accentuating what they are supposed to conceal," he replied.

"The plaything knows how to attract, and is not so scrupulous in demeanor when attracting as the mother type of woman would be. The instinct of motherhood in the plaything is often lost entirely, and she rarely has more than one or two children. She is a double rose, who wants to be always at the flower show."

prepared the plans for the vice campaign conducted by Lieut. Erasmus N. Hudson of the medical corps, "had no idea that seamen were to employ improper methods in securing evidence of moral delinquencies or other crimes."

"Capt. Leigh (an adviser of Mr. Roosevelt,) and the judge advocate general, approved the organization and prepared the necessary orders for its creation," the minority report asserts.

"I believe the officers referred to erred in approving the use of enlisted personnel, and I also believe that Mr. Roosevelt erred in adopting and approving their recommendation."

The minority report disagrees emphatically with contentions of the majority that Mr. Roosevelt was present at conferences at which the methods to be used were discussed. The minority agrees in substance with the findings of the naval court of inquiry which investigated the scandal.

CHARGES UNFAIRNESS.

Mr. Roosevelt issued a statement declaring that Senators Ball of Delaware, and Keyes of New Hampshire, the two Republicans, who constitute the majority of the investigating committee, had issued their findings without giving him a hearing after promising to do so, which Mr. Roose- "shows a premeditated cmfwypipu velt, in his statement, contended "shows a premeditated and unfair purpose of seeking what they mistakenly believe to be a partisan political advantage."

Most of the details of the scandal, as it is disclosed in the investigation, are of an unprintable nature.

SOUND GERMANY ON PEACE PLANS.

(Continued from First Page.)

Treaty under a degree of compulsion which the United States cannot exert to procure German acceptance of identical terms in a separate treaty. While some believe that Berlin will resist and hold out for concessions, it is contended that Germany will find it advantageous to yield. The United States has $500,000,000 of German property, more than sufficient to satisfy all American war claims against Germany, and can refuse to resume diplomatic and commercial relations until a satisfactory treaty is signed.

If Germany rejects a separate treaty she will drive the United States toward the last resort of ratification of the Versailles Treaty, which would impose the same terms, and moreover, join America formally with the Allies in the enforcement of the terms America accepts. If a separate treaty should be signed the United States would be only informally associated with the Allies, as at present, in the enforcement of such terms as America agrees to impose upon Germany.

The Allies are being sounded on the President's plan not only because a settlement with Germany involves an agreement between the United States and the Allies on the joint interest in German reparations and former German properties, but because the Allies, under the Versailles Treaty, virtually control Germany and have it in their power to veto any additional obligations the Berlin government might undertake.

Breadstuffs and Cotton Seed Oil Exports Greater.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—Exports of breadstuffs, cottonseed oils and mineral oils increased substantially during the last fiscal year over the previous year, while cotton exports fell off by more than 1,500,000 bales, and meat and dairy products declined by more than $300,000,000, according to Department of Commerce figures today.

Breadstuffs exports were $1,071,000,000 against $808,000,000, the previous year.

Cotton exports for the year were 6,409,000 bales worth $600,000,000, against 6,915,000 bales worth $1,381,000,000, and for June 495,000 bales worth $30,519,000, against 241,000 bales worth $50,000,000.

LABOR CRISIS IN JAPAN IS YET GRAVER.

Leaders Decide to Unionize Workers Despite National Laws to Contrary.

[BY CABLE—EXCLUSIVE DISPATCH.]

TOKIO, July 19.—The labor situation in Japan is much more serious due to the refusal of the Tokio directors of Misubishi shipyard to accede to any of the demands presented by a delegation of laborers from Kobe because of the refusal of the War Ministry to treat with the striking arsenal employees and also by the dispatch of troops to Kobe.

Last night the Kobe delegates, local labor leaders and men decided to proceed with nation-wide organization of labor despite national laws to the contrary. A nation-wide campaign of labor versus capital, along semisoviet lines, is planned. There is a possibility of new strikes being called which will involve 200 men in Tokio alone.

The government is handling the situation gingerly, endeavoring to avoid the use of troops and possible bloodshed and apparently regards the widespread movement as being grave.

Peach and Fig Base Price for Year is Given.

[BY A. P. NIGHT WIRE.]

FRESNO, July 19.—The California Peach and Fig Growers,' Inc., which controls more that 90 per cent of the dried peach and fig production of California, today announced opening prices to the trade for 1921 peaches and figs.

The peach prices are on a basis of about nine cents per pound to the grower, or a reduction under the price for 1920 of six cents per pound. The base price for 1920 was fifteen cents per pound.

The fig prices are on a basis of from seven to nine cents per pound to the grower. These prices are somewhat higher than the average prices paid last year. This is the first year that the association has handled figs.

The meeting marked the final session of the feast of tabernacles for this year. More than 3000 of the faithful attended the services and prayed for the success of the new evangelists in their efforts to reform the world.

ABSOLUTELY FRANK NEWS FRESH POLICY

Shipping Board and President to Keep People and Congress Advised.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—A determination to follow a policy of "absolute frankness" in reorganization of the Shipping Board was declared at the White House today to stand behind Chairman Lasker's proposal for a $300,000,000 appropriation for operating expenses of the board.

It was asserted that the administration had no intention of inheriting the complicated liabilities of the board without letting Congress and the American people exactly understand the situation. Should the experiment of an efficiently managed board prove too costly, it was added, it would be time for the country to consider what other means might be adopted to foster an American merchant marine.

Judge Walter D. Meals of Cleveland is understood to be prominently under consideration to head the special court of appeals which is to pass on claims involved in the reorganization of the Shipping Board.

Chairman Lasker declared the books of the board were in a "deplorable condition" and that they "could not have been kept in much different shape had they been kept with a view to cheating and deceiving Congress and the country."

"The ships are being operated on a commission basis, under contracts that cannot be discontinued immediately," he said, and "we must grin and bear that system for some months to come."

"I have heard of a boat turning back in mid-sea to take on a cargo on which the operator made $4000," the chairman remarked, "and the government lost $8000. This boat was half way across the China Sea when they turned her back to get that cargo at Manila. Anybody can see that a system where the operator has nothing at stake, whereby the government loses and he wins, is a system that makes for inefficiency."

ALLEGED EMBEZZLER ARRESTED ON LANDING.

NOTED QUAKER GRAND OLD MAN

Timothy Nicholson, 92, Still Advocating Reforms.

Hopes to Live to See World Disarmament.

Will Preside at Yearly Meeting of Friends in Indiana.

[BY A. P. NIGHT WIRE.]

RICHMOND (Ind.) July 19.—When the Indiana yearly meeting of Friends, the largest body of Quakers in the world, celebrates the one hundredth anniversary of its founding here August 15, Timothy Nicholson, internationally known as the "grand old man" of the Quaker church, will preside.

Ninety-two years old, Nicholson is still as vigorously advocating social reforms as he did when he began his career seventy years ago.

For thirty-four years he was presiding clerk of the Indiana yearly meeting, and during his regime it grew in numbers and influence until today it ranks in importance with the London (Eng.) yearly meeting. He also was the organizer of the five-year meeting of Friends, with which almost every yearly meeting in America is affiliated.

HOPES FOR WORLD PEACE.

Nicholson firmly believes he will see the day of universal disarmament and international peace before he is laid to rest in the Friends cemetery here.

"Universal peace will be the greatest accomplishment since Jesus Christ lived and His disciples preached His word," he declared today. "But never shall we have it until the professing Christians accept the basis of Christian faith and stay there."

Nicholson has been president of the Indiana Anti-Saloon League since its organization, and league leaders say he will hold the post until death. He has been an avowed opponent of the liquor traffic since his early youth. His first reform efforts culminated in the closing of several grog shops in North Carolina. When Indiana was declared dry by statutory legislation, Nicholson said he had hardly hoped to live to see that day. He feels sure that international prohibition will come soon.

Early becoming interested in prison reform, Nicholson succeeded in having the Indiana General Assembly pass laws putting the correctional institutions of the State on a high level. Last year the Imperial Commission of India, which was in America studying prison methods, complimented him for his long work in connection with this problem.

He brought about the establishment of the Indiana prison for women and the reform school for girls. He was president of the National Conference of Charities and Corrections at its meeting in Detroit nineteen years ago. The National Conference of Social Work at its meeting in Milwaukee in June sent him an affectionate greeting. He served on the Indiana Board of Charities from 1887 to 1908, when he withdrew voluntarily.

Patience, says Nicholson, is one of the prime requisites for the attainment of a reform.

WOULD TAKE HALF-LOAF.

"If you keep your mind on the ideal, there's very little chance of your losing it," he said. "The trouble with the long prohibition campaign in this country was that too much was wanted at once. It is impossible to take a moral question out of the jaws of politics in one effort. In the more than seventy years of my career, I would take half a loaf if I could not get a whole loaf."

Although he does not wear the old regulation attire of the Quaker—broad-brimmed beaver hat and shad-bellied coat—Nicholson has not departed from the manner of speech of the Quakers and still uses "thee" and "thou." Timothy "Mr." Nich

Cantilever Shoe *for Men & Women*

Weariness Is a Warning

Do you walk on your spine? Weariness, recurrent pain at the back of the neck, aching legs and feet—all these are evidence that the jolt of every step is falling on your spine. It proves that your weight is all "dead weight" on your arches. That your footwear is wrong.

Cantilever Shoes have a natural inner sole line that encourages correct poise. In ordinary shoes all the weight falls on the inside, the weak side, of the arch. But in Cantilevers the weight is distributed properly over the heel, the ball and the outside of the foot. There is no muscular strain, no distortion of the foot.

KILOWATT HOURS IS VALUE AGREED ON.

POWER COMPANIES SET MEASURE FOR PURCHASE OF WATER DISTRICTS.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, July 19.—Kilowatt hours instead of dollars is the measure of value agreed on by the Pacific Gas and Electric Company, the Sierra and San Francisco Power Company with the Modesto and Turlock irrigation districts for the purchase by the districts of the LaGrange power-house and other neighboring property owned by the utilities. Confirmation of the agreement was asked of the Railroad Commission today.

The Sierra company, which has been leased by the Pacific Gas and Electric Company, proposes to sell the property involved to the districts for 10,000,000 kilowatt hours of electrical energy per annum for twenty-five years. This electricity will be developed, it was stated, by a power plant to be built by the districts at the Don Pedro dam on the Tuolumne River. The Don Pedro reservoir will submerge the LaGrange power-house completely.

Ratification of the agreement, the petition declared, will lead to the dismissal of condemnation proceedings begun by the districts and avoid the possibility of costly litigation.

TO DEPEND ON CITIZEN ARMY.

Peacetime Force to Give Way to National Guard.

Secretary Weeks Issues Orders to Pershing.

New Law Releases Officers to Train Militia.

[EXCLUSIVE DISPATCH.]

WASHINGTON, July 19.—Secretary of War Weeks in a memorandum to Gen. Pershing, Chief of Staff, embodied into a general order, to the corps commanders of the Army today, emphasizes the fact that the Army Reorganization Act of 1920 requires that the United States must depend largely in future for its land defenses on the citizen soldiers of the National Guard and organized reserves.

This being the intent of Congress, Secretary Weeks has, with the approval of the President, directed that the units of the reduced Regular Army be reduced and that as many Regular Army officers as possible in each corps area be left free for the work of training the Nation Guard and organized reserves.

After describing the requirements of the new law, the Secretary's memorandum said:

CITIZEN FIGHTERS.

"An examination of the statute shows that the new law is based on the idea that in the future, as in the past, great wars are to be fought in the main by armies composed of citizen soldiers temporarily drawn into active military service. We will have the conception of a small Regular Army in time of peace, reinforced upon the outbreak of war by such additional citizen forces as the particular emergency may require. This is our traditional mode of military expansion and this method is clearly contemplated in the act of Congress.

"It is with the requirements of this larger war establishment in view that the peace organization of the Regular Army must be determined. The law provides a limited number of regular enlisted men and a number of regular officers in excess of the number required for service with the Regular Army proper. This provision shows clearly the intent of Congress that a portion of the officers authorized are to be employed in the organization, administration and development of the National Guard, the organized reserves, the Reserve Officers' Training Corps, and the citizens' training camps. It is the President's desire that the Regular Army shall be so organized as to carry out this intent of Congress to the fullest extent. The Regular Army, should, therefore, be formed in a limited number of organizations, each at effective military strength, with the view of releasing the maximum number of selected officers and enlisted men for service with these other branches of the Army of the United States.

OUT OF COMMISSION.

"As the Regular Army now contains more regiments and other units than can be maintained at effective strength with the authorized enlisted personnel, you are directed to retain a suitable number of units at an enlisted strength effective for immediate military service and to place the units thus rendered surplus 'out of commission' until such time as Congress shall authorize an increase in the enlisted strength of the Regular Army. You will assign to the organizations retained in 'commission' a sufficient number of officers to make them effective for immediate military service, leaving officers not required for service with regular organizations or elsewhere to be employed, under your direction, in the development of the National Guard, the organized reserves and the Reserve Officers' Training Corps. As the law provides for a military expansion by reinforcement of the Regular Army from the organized citizen forces, the President directs that these forces shall be developed to the fullest extent."

SECRETARIES ARE TO DISCUSS FORD'S OFFER.

ALABAMA PLANT PROPOSITION IS BEING SERIOUSLY CONSIDERED.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—Government action on Henry Ford's offer to take over the nitrate plant at Muscle Shoals, Ala., for conversion into a fertilizer plant, may await conferences between Secretaries Weeks and Mellon, it was said today. Mr. Mellon, officials said, is regarded as an authority on hydraulic power, adding that Mr. Weeks would probably ask Congress for general authority to lease the Muscle Shoals plant, in order to facilitate negotiations with Mr. Ford or others from whom offers might be received. There are reports that the Dupont interests and other chemical concerns, are considering submitting offers for the plant.

Mr. Ford's scheme for providing fertilizer cheaply to farmers, it was said, would be of weight in determining the government's attitude. It has been estimated that about $12,000,000 would be needed to convert the plant. Ford also offered today $1,500,000 annually for 100 years, and $5,000,000 in cash.

EMBRYO POSTMASTERS TO TAKE EXAMINATION.

[EXCLUSIVE DISPATCH.]

WASHINGTON, July 19.—Notice was given tonight that examinations for postmaster at San Diego and Redlands will be held on August 16. The first named office pays $4200 and the latter $3200. Education and training will count 20 per cent in the test and business experience and fitness will count 80 per cent.

The three candidates who have the highest qualifications will be certified to the Postmaster-General, and from these he will make his selection with the aid and guidance of the Congressman from the district the Congressman from the district where the office is located.

ARCTIC EXPEDITION FINALLY LEAVES.

[BY A. P. NIGHT WIRE.]

BOOTH BAY (Me.) July 19.—The McMillan Arctic expedition took final departure from American shores yesterday. The explorers' auxiliary schooner, Bowdoin, which came here Saturday night after formal godspeed from Gov. Baxter, at Wiscasset, went away at dawn cheered by townspeople. The Bowdoin will make a short stop at Sydney, N.S., on her way north.

WASHINGTON NEWS IN BRIEF.

[EXCLUSIVE DISPATCH.]

WASHINGTON, July 19.—Through Ellis Dresel, American commissioner at Berlin, the administration is sounding the German government in regard to the possible negotiation of a separate treaty with Germany, incorporating only those sections of the Versailles Treaty acceptable to the United States.

Following conversations between Secretary of State Hughes and the Japanese Ambassador, Mr. Shidehara, designed to satisfy Japan that her apprehensions against participation in discussion of eastern questions at the forthcoming Washington conference are unwarranted, administration officials reiterated their confidence that Japan would come in on the armament limitation discussions.

Secretary of War Weeks has issued an order to the Army through Gen. Pershing, Chief of Staff, directing that Regular Army units be reduced and that as many officers as possible be left detached to be assigned to the important duty of training the National Guard and organized reserves.

The House voted to place asphalt on the free list as a means of avoiding any increase in the cost of road construction.

Representative Madden of Illinois was named by the Republican Committee on Committees of the House for the chairmanship of the Appropriations Committee, succeeding former Representative Good of Iowa.

The Sweet bill to provide more adequate relief for disabled veterans will be reported to the Senate tomorrow and brought to a vote at the earliest possible date.

Recalled by the House investigating committee, Mrs. Emma C. Bergdoll testified today that she paid $5000 to Maj. Brice Campbell, then a captain, who acted as counsel for her son Grover at his court-martial at Governor's Island prior to his escape.

ENGLISH PEER WEDS AMERICAN GIRL.

MARRIAGE OF LORD QUEENBOROUGH AND MISS EDITH MILLER A SURPRISE.

[EXCLUSIVE DISPATCH.]

NEW YORK, July 19.—The wedding of Lord Queenborough to Miss Edith Starr Miller was quietly solemnized this afternoon at the home of the bride's parents here. The first intimation of the engagement became known when Lord Queenbrough and Miss Miller took out their marriage license last Saturday.

Lord Queenborough, as Almerio Hugh Paget, married Miss Pauline Whitney, daughter of the late William C. Whitney, who died two years before her husband was raised to the peerage. He is a son of Lord Alfred Paget and Cecelia Wyndham.

Miss Miller, who made her debut some years ago, is a niece of George Henry Warren, Whitney Warren, Mrs. Robert Goelet, and is a granddaughter of the late Mr. and Mrs. George Henry Warren.

APPORTIONMENT FOR SCHOOL FUNDS MADE.

LOS ANGELES COUNTY WILL GET LARGEST SUM IN WHOLE STATE.

[BY A. P. NIGHT WIRE.]

SACRAMENTO, July 19.—The last apportionment of school funds for the fiscal year ending June 30 has been made, it was announced today by Job Wood, Jr., Deputy Superintendent of Public Instruction. The unapportioned funds totaled $231,860.41, and were distributed to the counties on a basis of $17.50 per pupil in average daily attendance.

Los Angeles county will receive the largest amount, its allotment being $56,207.53, computed on an average daily attendance of 95,267. San Francisco county, with an attendance of 42,779, will receive $25,239.61; Alameda county, with an attendance of 28,194, will receive $22,534.46. The next apportionment will be made on the basis of $30 a pupil, it was stated.

NOTED SWINDLER IS RECALLED BY ARREST.

[EXCLUSIVE DISPATCH.]

NEW YORK, July 19.—Mrs. Anna Richardson Burkett of Hillsdale, Ind., who pleaded not guilty before Justice Talley today to forging the name of the late Theodore Roosevelt to a promissory note for $69,000, was identified by old court attaches as formerly employed as a maid by Ann O'Delia Diss Debar, notorious woman swindler of a generation ago, with a "record" in Chicago.

The last record of Ann O'Delia Diss Debar was of her release on ticket-of-leave from an English prison, in August, 1906. She was, in reality, the daughter of Prof. John C. F. Saloman, once of Washington and later of Kentucky, but she claimed King Louis I of Bavaria as her father, and the famous actress Lola Montez, as her mother. She traveled about the country, claiming occult powers, and to reveal hidden truths.

She was convicted of defrauding rich men and served a prison term. On her release she went to Europe, but returned and shortly afterward was sent to the Illinois penitentiary for two years, under the name of Vera P. Ava. After her release she married in 1895, at Chicago, William J. McGowan. In 1899 she was run out of New Orleans, together with Theodore Jackson, then posing as her husband, and they next appeared in Capetown, South Africa, where she called herself Helen. Jackson was known as Horos. A third man of wealth became her victim there and contributed largely to establish a colony of brotherly love.

LOS ANGELES LEADS IN LABOR PLACEMENTS.

[BY A. P. NIGHT WIRE.]

SACRAMENTO, July 19.—A report made public here today by John P. McLaughlin, State Labor Commissioner, for the fiscal year ending June 30, 1921, shows a total of 180,525 positions filled by the public employment bureaus of the State during the year. Of this number 149,529 were male placements and the balance of 30,906 were women.

This is a decrease of 26 per cent over the previous year, the report adds. A total of 243,866 were placed during 1920. In placements for the past year, Los Angeles led, with San Francisco second and Oakland third.

Huge Oil Fire Under Control.

[BY A. P. NIGHT WIRE.]

CASPER (Wyo.) July 19.—Fire caused by lightning which yesterday threatened to destroy two huge oil tanks on the Midwest Oil Company's tank farm near here was brought under control in one of the tanks early today and firemen were fighting desperately to extinguish the flames of the other. Loss today was estimated by company officials at $100,000.

MADDEN WILL HEAD APPROPRIATION BODY.

SUCCEEDS REPRESENTATIVE GOOD, WHO RECENTLY QUIT THE HOUSE.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—Representative Martin B. Madden, Republican, today was elected chairman of the Committee on Appropriations of the House, succeeding Representative Good, who recently resigned from the House.

Immediately after his selection as committee chairman, Madden introduced a joint resolution proposing an amendment to the Constitution giving the President power to veto any provision or item in an appropriation bill. In a statement he said the operation of the budget system would make the Appropriations Committee of still greater importance.

NIGHT RIDING BAND IN OKLAHOMA CITY?

[BY A. P. NIGHT WIRE.]

OKLAHOMA CITY, July 19.—Investigation of an alleged branch of a secret night riding organization which he declared is in existence here was ordered today by Mayor Walton in a communication to Carl Glitsch, Chief of Police.

Mayor Walton submitted the names of twenty-five prominent citizens who he declared, are active in the organization.

The Saxophone section of Sousa's Band, under the leadership of the world-renowned Bennie Henton, is equipped with C. G. Conn Saxophones (with the single exception of one tenor saxophone)—conclusive proof of Conn's unquestioned supremacy.

SILVERWOOD'S BOYS DEPT.

To be placed on sale at Silverwood's, Thursday, July 21st, at 9 a.m. sharp—

Regular $10 Ball Bearing
Coaster Wagons
$3.95

We feel pretty sure that there's hardly a boy in this town that wouldn't walk miles to get one! You can have a lot of fun with one of these sturdy wagons and can make money with it—you can start a neighborhood "fast delivery"—your folks and your neighbors will pay you well to run errands for them—carrying groceries, suit cases, bundles, etc. We're giving them to the boys of Los Angeles at this greatly reduced price while they last—you'll have to hurry—we've got only 1000 of 'em! We're selling these at less than manufacturer's cost—just to advertise our boys' department—just to get all the boys of Los Angeles acquainted with us.

About the Wagon—

Size 16x36 in.; removable box; two rows of ball bearings in each wheel; heavy steel axles; extra heavy steel-braced bolsters; extra strong wheels with welded iron tires; coasting brake; easy-turning steering gear; steel-bolted construction throughout. The best wagon we can find in the country.

Conditions of the Sale—

Registered, numbered coupon certificates will be given each purchaser upon payment of $3.95 (beginning Thursday July 21, at 9:00) until the 1000 certificates are gone. Then Monday morning, July 25th, from 9:00 to 12 we'll redeem those certificates, giving the $10 coaster wagon in exchange for each certificate presented at that time. Note: Come yourself or send someone for the wagon; none delivered; none C. O. D.; no phone orders. (Each wagon packed complete in cardboard carton.)

Murder of Czar's Daughters Fatal Mistake.

Even Blood-Thirsty Believe Crime Was Wrong.

Effort to Wipe Out Blot on Soviet is Made.

BY HARRY CARR.

[EXCLUSIVE DISPATCH.]

NEW YORK, July 18.—The greatest revolution ever attempted in the history of the world is likely to fail because of the death of two young girls. That is the true explanation of a brand new variety of propaganda which is pouring into New York. Lenine and Trotzky have come to a realization that a fatal mistake was made in murdering the young daughters of the czar.

They are now trying to undo the damage by a yarn to the effect that the young girls of the imperial family were not really killed at all; but escaped into India, where they are in concealment.

Propagandists whose efforts are thinly and inadequately veiled are making an effort to persuade some of the big motion-picture producers to put on a motion picture based upon this supposed escape. They are trying to sell or give away the rights to a diary, alleged to be the personal memorandum of a Cossack officer who helped the imperial princesses to escape.

SEE THEIR DOOM.

Writers connected with the soviet movement have told me frankly that both Lenine and Trotzky feel that their government is doomed to destruction, and that the chief reason is the horror felt all over the world for the wanton slaughter of these innocent young girls.

Until now the soviets have always unblushingly defended the killing. Their contention was that, to have allowed these girls to live, would have only brought on a continual series of counter revolutions in which hundreds and thousands of persons would have been killed. Therefore it was better to sacrifice the children of the Czar than afterwards to sacrifice the lives of hundreds of other young girls.

Their American advisers—of whom my informant is one—have told them that the soviets—to their dismay, never got the American people to take this view of the killing, America not being very philosophical in regard to the murder of young girls. To their equal dismay they have found sentiment in Russia itself to be quite as unphilosophical toward the massacre.

In line with its effort to try to stem this tide of condemnation, the soviet government has invited several American journalists to visit the forbidden country. One of these is Miss Bessie Beatty, formerly of Los Angeles, whose book, "Red Russia," showed considerable sympathy with the revolutionary movement. Miss Beatty has given up her editorial position and is sailing for Russia.

AFGHANISTAN VISITOR.

The visit of an ambassador from Afghanistan to New York and Washington has in this connection a significance not recognized by the press of New York. This little mountain country, lying across the threshold of India, is perhaps the most important spot on the map just at present.

Until now, and for many years back, Great Britain has had a treaty with the Ameer of Afghanistan whereby the latter great power paid an annual tribute of $500,000 on condition of being allowed to manage the foreign policy of Afghanistan. Upon the death of the Ameer three or four years ago, a new regime came into power. The treaty with England was not renewed. The new Ameer began a dangerous flirtation with the soviet government which, if carried through to a real treaty, would place the British empire in a dangerous position. It looks very much as though the United States were about to take a hand to prevent such a world-wide catastrophe.

A delegation of English business men is visiting New York for the purpose of studying American business methods. They say that British methods are to be completely overhauled in the realization that the toughest kind of battle is to begin in industrial Germany and the rest of Europe.

The coal strike has proved a fearful handicap against England in this contest. It gave Germany an opportunity to make a jump forward at a very critical time, industrially.

What especially interests the British business men are the small engines of efficiency; they say that England realizes that it is in the minutia of business that they lose out. For instance they are making a special study of patent ticket sellers for theaters and subways. No country, they say, can equal America in apparatus of this kind.

WIFE SHOT THROUGH HEART; MAN DYING.

MARE ISLAND COUPLE FOUND IN HOME; NO REASON GIVEN FOR ACT.

[BY A. P. NIGHT WIRE.]

VALLEJO, July 19.—Mrs. George Dudzilks, wife of an employee of the Mare Island navy yard, was found dead in the kitchen of her home today with a bullet wound through her heart, and her husband was found in an adjoining room with five bullet wounds in his body. He is not expected to live.

Although conscious when found, Dudzilks could give no account of the tragedy. Felix, 17-year-old son of the couple, who notified the police, was so hysterical that he could not make a statement.

Dudzilks arose and dressed after being shot, according to the police. Dr. D. J. Crotz, Coroner, expressed the belief that the woman shot Dudzilks and then herself.

NEW SCHOOLS COST MILLION.

Ambitious Building Program in Salt River Valley.

Tubercular Patients Will Get Desert Air.

Guaymas Celebrates Recapture from Filibuster.

[EXCLUSIVE DISPATCH.]

PHOENIX, July 19.—More than $1,000,000 is being spent in the Salt River Valley on school construction. In Phoenix are being completed a high school liberal arts building, costing $200,000, a high school industrial arts building, $147,000, and three city district schools, in the eastern, northeastern and southwestern sections, each to cost $65,000.

At Chandler are being completed a $170,000 high school building and a $50,000 grammar school. At Peoria work has been started on a $170,000 high school and three units of the common school group that will cost $25,000. At Washington, north of Phoenix, a new school building will cost $50,000 and one at Alhambra is contracted for at $30,000.

Summer quarters, known as "St. Luke's in the Mountains," have been provided in the pines near Prescott for thirty inmates of St. Luke's Home at Phoenix and St. Luke's in the desert near Tucson. The patients, nearly all tubercular, will be returned in the fall to Phoenix and Tucson. The institution is one maintained by the Episcopal church.

A tabernacle, with offices, Sunday-school rooms and baptistry, is to be erected in the northeastern part of the city by the newly organized First Southern Baptist Church of Phoenix.

CELEBRATE RECAPTURE.

[EXCLUSIVE DISPATCH.]

HERMOSILLO (Son.) July 10. The population of Guaymas has just concluded celebration of the sixty-seventh anniversary of the recapture of the city from the filibuster, Count Raousset de Boulbon, who took possession of the port in July, 1854, at the head of a schoonerload of filibusters, mainly French, recruited in San Francisco. He was captured and executed by Gen. Jose Maria Yanez, who led a strong military force to the relief of the city.

Boulbon had been in Sonora before, leading a force of California Frenchmen to the establishment of a colony near the old Arizonac ranch, from which the territory of Arizona later was named. He captured Hermosillo in a daring assault and, till sickness overcame him and many of his men, appeared in a fair way to conquer the State.

It is assumed his plans sought annexation of the province to France, which, only a few years later, backed Maximilian in his attempt to rule Mexico. Extant are many letters from the invader, in one of which Northern Sonora is described as "a land of ruined houses and weeping women."

SCHOOL YARDS ARE IMPORTANT ADJUNCT.

SHOULD BE CONVERTED INTO RECOGNIZED PLAYGROUNDS SAYS EDUCATOR.

[BY A. P. NIGHT WIRE.]

OAKLAND, July 19.—The school yard is an educational institution which needs to be converted into a recognized playground as the community center for child life, Dr. Clarke W. Hetherington, State director of physical education, told the twenty-eighth annual convention of American Physical Education Association here today.

That the nation had failed to give right play laboratories was charged by Miss Charlotte Stewart of Salt Lake City, who said the play spirit must be carried over into the monotony of specialized fields if people are to be saved from insane asylums.

Other speakers were Miss Signe Hagelthorn, San Francisco; Dr. Lela Beebe, Stanford University; C. B. Raitt, Los Angeles; C. S. Botsford, Stanford University.

A pageant and demonstration were given this afternoon.

Dr. Dudley Breed, University of Chicago, national president, will give his annual address in Wheeler Hall, University of California, tonight.

STILLMAN CASE PUT OVER UNTIL AUTUMN.

[BY A. P. NIGHT WIRE.]

YONKERS (N. Y.) July 19.—Hearings in the divorce proceedings instituted by James A. Stillman, which were to be resumed at Poughkeepsie, next Monday, probably will be postponed until fall. Associates of John F. Brennan, chief counsel for Mrs. Stillman, have written the banker's counsel suggesting that the trial be deferred until October 11 because of Mr. Brennan's illness. Mr. Stillman's attorneys are expected to assent.

FRANCE IS OUT OF DAVIS CUP.

[BY CABLE AND ASSOCIATED PRESS.]

PARIS, July 19.—France was eliminated from this year's Davis cup lawn tennis competition in the match with India here today. In the singles Sleem of India defeated Jean Samazeuilh of France, 6-1, 6-3, 6-3. India had previously won the doubles and one of the singles matches.

The elimination of the French team through the defeat of Samazeuilh means the cancellation of the proposed trip of the team to the United States. The plans of Mlle. Lenglen, women's singles champion of France and Great Britain, remain unchanged.

The India team will meet the Japanese team in the semifinal round in Chicago August 11 and 13.

Tennis Experts Continue Way to the Finals.

[BY A. P. NIGHT WIRE.]

PROVIDENCE (R. I.) July 19.—World's Champion William T. Tilden, II, former national champion Norris Williams, II, C. S. Garland, Pittsburg; S. Howard Voshell, New York, and N. W. Niles, Boston, continued their triumphant march toward the finals of the Rhode Island singles tennis championship today.

Five new stars, Zenso Shimidzu and Ichiya Kumagae, Japan; Vincent Richards, New York; M. Washburn, Philadelphia, and Intercollegiate Champion Philip Neer, California, made their debut and played through the early rounds with equal success. Kumagae teamed successfully with Shimidzu.

The woman stars played through their first two rounds today without upsets. National Claycourt Champion Mrs. B. C. Cole of Boston, former Claycourt Champion Mrs. Marion Zinderstein Jessup, Wilmington, Del.; Miss Helen Wills, 15, California; Miss Edith Sigourney, internationalist, and Mrs. N. W. Niles, both of Boston, and Miss Leslie Bancroft, Philadelphia, all came through.

Killefer's Lads Put Up Punk Article of Ball.

Angels Go All to Pieces in the Ninth Inning.

BY HARRY A. WILLIAMS.

Our ball team's homecoming would have been simply delightful had not the league squaw, meaning the Siwashes, been squatting just inside the front door with a rolling pin in one hand and a flat-iron in the other.

Seattle's club from Washington seemed to think Washington Park some kind of annex to the old home State, took complete charge of the premises, walloped our nice young Angels, 11 to 3; in short, stopped only at burning Red Killefer at the stake. This was not done because the Siwashes desire Mr. Killefer's scalp for a pen wiper.

EASY SAILING.

Jacobs found it easy sailing in the birch canoe, with Seattle throwing harpoons into George Lyons's from fourteen different directions, and Gawge's support cracking like an over-ripe watermelon.

Those who witnessed the first eight innings didn't think it possible for the Angels to go from bad to worse. That's how bad they looked. But they did in the ninth, when the Siwashes amassed almost half their runs, meaning five. Nick Dumovich was the unhappy centerpiece of this turmoil. In the eighth, Los Angeles had amassed its third run on hits by Crawford and Baldwin, and McCabe was sent in to bat for Lyons with two gone. Mac whiffed after what appeared to be a couple of very punk strikes had been called by Bill Byron.

PRAISES UMP.

Mr. McCabe thereupon reached out and patted Mr. Byron on his shoulder in mock approval of his excellent umpiring. Mr. Byron's hand at once dropped to his watch pocket. Not for the purpose of pulling in on anybody, but because he suddenly recalled how Charley Graham tried to frisk his Ingersoll last Sunday. This cost Mr. Graham fifty smackers. Graham would have been $49 loser if he had been successful in grabbing the watch.

But the watch is a thing of sentiment with Mr. Byron. It is said to have been given to him by a very dear porch-climber, and he prizes it because of this hallowed association. Pickpockets among our players and managers may lawfully remove Mr. Byron's roll, but they should lay off the watch. It would be safe on his wrist, but is too large to wear there. Mr. Byron should wear the watch strapped to his leg.

GUMMED UP.

This incident closed, things immediately became gummed up for Dumovich. Billy Lane, who was a thorn in the sensitive sides of our pitchers all the afternoon, opened the ninth with a single, his fourth consecutive swat. Middleton dumped a bunt, and Red Baldwin lost a finger nail trying to pick it up. So it goes. Sandow Griggs has nothing but hang nails and Baldwin's nails won't hang. Thus we are handicapped all around, and no blond manicurist on the club pay roll. Might compromise by buying Trainer Frank Snyder a pair of scissors and a peroxide wig.

Anyway, when the nail, slipped off the finger the finger slipped off the ball, and Lane slipped to second with Roxy on first. Rod Murphy mauled one too high for even Dumovich to stop, and this filled the bases. Brick Eldred popped to Lindimore for the first out. Kenworthy up.

IS OVERAWED.

Dumovich was completely overawed by the Iron Duke, and passed him. He even offered to spread his shirt out on the ground, so that the Duke could walk on it and keep his

A Pair of Favorites in the Open Golf Championships.

On the left is Jock Hutchinson, surrounded by a bunch of youthful caddies, all intent on packing the champion's sticks. Jock had a poor day in the qualifying round of the national open tournament at Washington yesterday and had to be content with a 76. He's still in the running, however, and will be dangerous till the finish. Right (inset,) Walter C. Hagen, twice open champ of the United States and who tied with Jack Burke and J. J. Farrell for second honors in the opening round yesterday. Hagen turned in a 74 for the course. O'Hara and Whitney, with 73's, led the field.

SHADE AND GEORGE DRAW.

Main Scrap at Doyle's Sort of Give and Take Fight; Marks Beats Macy.

It was generally feared that Young George would never weather George Shade in the main event at Jack Doyle's fistic emporium last night, but he did. Shade opened the first round with some stuff that seemed to presage sudden death and destruction for his opponent, but at the end of the final gong both men were on their feet and going comparatively strong. Harry Lee satisfied the cash customers by calling the bout a draw.

Shade is a husky young man built somewhat along the lines of a flat-top desk and about as easy to knock down. He started after Young George in the first session and landed several wicked wallops that apparently had a real kick. George had his famous right in readiness all the time, but never managed to get it across.

ABOUT EVEN.

In the second George began to give as well as take. From then on things were about even, with George getting several not-too-hard rights across in the final round.

The real main event of the evening was between Casey Smith and Kid Layman. These youngsters fought at 125 pounds, at each other, always, and to the last gong. Smith won, after four whirl-wind heats and there wasn't a quiet minute in the entire affair.

SOME SCRAP.

Layman looked to have a little the best of the weight, and he had scrap enough to go with it. But Casey was simply a wild man and landed blows going and coming, up and down, and in all directions. There was scarcely a clinch in the four rounds, and the fighters did their darndest to kill each other, and only failed to succeed because they were both too good. The two would make a main event any old day.

In the semi-wind-up George Marks outpointed Eddie Macy, after a rattling good four-round tilt. Macy surprised the natives by putting up a high-powered scrap, and Marks didn't have it soft at any point in the battle.

Marks is a remarkably clever young man, and it is not the easiest thing in the world to hit him. But Casey successfully solved the combination and landed frequently, and with considerable force. But in the long run Marks had the best of it and walked away with the honors.

Tommy Richards had his well-known left in good working order last night, and kept it planted in Al McManus's face during their argument. Tommy has a wicked little snap to that left of his, which makes it quite unpleasant if taken in too large quantities. McManus took too much, and early in the first session his face took on a brilliant red hue. He bled all the way through four rounds. The crowd yelled for the referee to stop the fight, but McManus wanted to go on. Tommy couldn't quite put his man away in the time allotted, but he did plenty to him.

Mike Doll and Eddie Huse succeeded in convincing the populace that they were both intended for the ash can long ago. They pattered around at great length, and the few gloves that hit the mark hit lightly, indeed. Doll won, but there is little reason for writing home about it.

SENSATIONAL.

Sailor Burrows and Jack Martin put on a sensational tilt. The sensation was that they both didn't drop dead in their tracks before the final gong. Martin rapped Burrows with a pair of stiff ones in the first round and knocked him to the mat a couple of times. It looked like the Sailor was going to drop any minute, but he didn't. He came back in the second and had Martin in bad shape. From then on it was a question of which one would drop out first or would they both do it together. By some strange freak they both stuck it out and had to be carted from the ring by their seconds. It was a draw.

Al Biddle and Jack Spar furnished the opening excitement. They fought to a draw, both doing their best all the time, but not knowing enough to cause any trouble.

WILSON VS. GREB.

[BY A. P. NIGHT WIRE.]

TO SEEK FOR TREASURE.

Crew of Yacht Galliano is Preparing for Mysterious Voyage.

The crew of the gallant sloop Galliano is preparing to leave shortly on a treasure hunt with a new twist to it. These adventurers are not on the trail of Spanish doubloons or pieces-of-eight, nor have they a mysterious chart, marked with skulls and crosses. Their destination is that portion of the Pacific Ocean surrounnding the Santa Cruz Islands, and the object of their search is merely seaweed, nothing more.

Doug MacKinnon, first mate on the ship, is a chemist in the time he can spare from the important business of yachting, and in a recent cruise around the Santa Cruz Islands he discovered a peculiar weed in the briny which, he declares, will be of untold value to the boating world. The function of this marine vegetable is to make yachts slip through the water with the minimum of riction, after it has been chemically treated and applied to the bottoms of said yachts.

The Galliano, skippered by Capt. Owen Churchill, will participate in the Southern California yachting regatta at Santa Barbara early next month, and will make the "treasure hunt' at the same time. Capt. Churchill plans to set sail about August 1, and locate the seaweed gardens en route to Santa Barbara.

Yachtmen hereabouts declare that the Galliano has an excellent chance of garnering the honors in the sloop division at the big regatta. The sloop has the largest sail area of any craft of her type on the Pacific Coast, and demonstrated her speed last season by capturing an array of trophies at various meets. Doug MacKinnon and Hap O'Connor will help skipper Churchill pilot the Galliano in the races as first and second mates, respectively.

"TEX" TESTIFIES IN SUIT.

[BY A. P. NIGHT WIRE.]

NEW YORK, July 19.—Tex Rickard, testifying today in a $100,000 contract suit brought by J. Frank Spellman against Jack Dempsey and his manager, Jack Kearns, said he paid Dempsey's $300,000 share of the receipts of his recent fight with Georges Carpentier to one James Woods. Rickard exhibited the canceled check with Woods's indorsement. He paid Carpentier's $200,000 share to Robert Edgren as stakeholder.

No reason was given for making Dempsey's check payable to Woods and the examination was temporarily adjourned.

In his search for Dempsey's assets, Spellman has attached the champion's automobile.

Janowski is Leading the Chess Stars.

[BY A. P. NIGHT WIRE.]

ATLANTIC CITY (N. J.) July 19. David Janowski, chess champion of France, retained his half-game lead in the chess masters' tournament in the tenth round today, by defeating Stasch Mlotkowski, of Los Angeles, after twenty-nine moves. The final round will be played tomorrow.

The standings are:

Janowski, 7½; N. T. Whitaker, Washington, 7; M. D. Hago, New York; 6½; Charles Jaffe, New York, 6; Samuel Factor, Chicago; S. T. Sharp, Philadelphia, and L. S. FAVORITES NOSED OUT IN FIRST GOLF ROUND.

O'Hara and Whitney Turn in Highest Scores for Qualifying Lap of Open Championships.

BY W. D. RICHARDSON.
[EXCLUSIVE DISPATCH.]

WASHINGTON, July 19.—With the honor of Old Erin at stake Paddy O'Hara of the Richmond County Country Club, Staten Island, former holder of the Irish open championship and member of a famous golfing family, raced in ahead of the other professionals who played in the first division of the qualifying round for the national open golf championship over the sun-parched links of the Columbia Country Club here today.

Paddy did not have all of the glory for his own consumption however, for an amateur, Nelson Whitney of the Audubon Golf Club, New Orleans, shared the day's honors with him. Each had identical scores for the eighteen-hole journey, thirty-six going out and thirty-seven coming home, for a grand total of seventy-three which was a stroke in advance of their nearest competitors.

SAME OBJECTIVE.

Considering the fact that such able marksmen as Jock Hutchison, British open champion; Abe Mitchell, the hard-hitting Englishman; Walter Hagen, former open champion, and Joseph Kirkwood, the Australian monarch, were shooting at the same objective, the achievement of Messrs. O'Hara and Whitney in topping the field of 125 has a considerable amount of merit.

Finishing in the stretch just a stroke behind were J. J. Farrell of Quaker Ridge, Mamaroneck; Walter Hagen, who has shifted his allegiance from Detroit to New York; Jack Burke, of Town and Country, St. Paul, and W. H. Trovinger of Bloomfield Hills, Mich., the latter a newcomer in the tournament world. They were followed in turn by three players with seventy-five, Abe Mitchell, Freddie McLeod of the Columbia Country Club, and H. L. Finkenstaedt, an amateur representing the home club.

IN 76 CLASS.

Jock Hutchinson, by dint of hard labor, got into the 76 class which also included John Cowan of Oakley, Mass., Eddie Loos of Ravisloe, John Bredemus of San Felipi, Tex., Charles P. Betschler, of Maryland, Arlington; Robert A. Cruickshank, former Scottish amateur star, who has come to the Essex country club recently; Al Watrous of Red Run, Mich., James Donnachie of Hagerstown, and Fred C. Canausa of West Point, N. Y.

Following them in the 77 division which included eight were Emmet French of Youngstown, Pa., captain of the American team that made the recent visit to St. Andrews; Robert T. Barnett of Tredyffrin, Pa.; T. J. Rajoppi of Maplewood, N. J.; Captain Charles Clarke of the engineers, Roslyn, L. I.; Louis Tellier of Brae Burn; Tom Kerrigan, the Siwanoy professional; Alex Campbell of Losantiville, and J. B. Rose, an amateur of Allegheny.

ONE OF FAVORITES.

In the last division, the 78-ers appeared Jos. Kirkwood, one of the favorites for the title; John A. Park of Maidstone, N. Y.; Isaac MacKie of Canoe Brook; Alex Smith of Shennecossett; Frank Coltart of the Philadelphia country club; J. J. Rowe of the Stenton country club; James C. Ferguson of Spring Lake, N. J.; Wilfred Thomson of Richmond, Va.; A. J. Sanderson of Sleepy Hollow; George T. Sayers of the Merion golf club; Tom Boyd of Fox Hills; Jack Forrester of Meadowbrook, Westbury, L. I.; Frank Bellwood of Garden City; W. C. Sherwood of Newark, O.; Fred Baroni of Montour Heights; Louis Chiappetta of Woodway, Conn., and Joe Sylvester of St. Albans.

This gives a total of three amateurs and forty professionals left for the championship rounds which will start on Thursday.

NO UPSETS.

There were no upsets today—a condition which has not obtained in many golf tournaments thus far this year. All of those who were picked to qualify did so although there were a few who had a troublesome time of it. So far as the favorites for the title are concerned all of them—Hagen, Mitchell, Hutchison, McLeod, Loos, French, Tellier, Kerrigan and Kirkwood—survived, which is as it should be—and if the starters for the golden fleece of golf fare as well tomorrow a merry scramble is the forecast for the championship proper.

True, some of those who generally enjoy the honor of being listed in the ranks of competitors instead of spectators, fell by the wayside.

ROBERTS IS TO SWING RACKET.

San Francisco Tennis Crack to Perform Here.

Five to Represent Bay City in Local Net Tourney.

Los Angeles Club Matches to Begin on July 25.

As a result of an announcement recently made that Roland Roberts of San Francisco would be on hand to compete for the Southern California men's singles title on the Los Angeles Tennis Club's courts next week, the stock of local entrants in the tournament has taken a decided slump. Roberts won the national clay court singles title last year, and is considered the strongest man in the running for the honors in the sectional championship.

FROM THE NORTH.

With Roberts a team of five will represent the Bay City in Southern California's net fiesta, Ray Greenberg, William Parker, Miss Helen Wills, and Miss Helen Baker having signed up to enter the tournament. Players from the south are out to avenge the indignity of allowing the Pacific Coast Men's doubles title to go to a northern team, and the rivalry will make competition fierce and fast.

Harvey Snodgrass, winner of the men's singles title at the Southern California championships last year, will undoubtedly have to fight it out with Roberts in the finals. Both men play a smashing overhead game, and if they get together on the court the fur will fly freely. Snodgrass and Roberts will have to scrap their way through some formidable opposition to reach the finals, for strong competition will be furnished by such net stars as Maurice McLaughlin, Tom Bundy, Nat Brown, Simpson Sinsabaugh, Ken Hawkes, and several other nifty racket handlers.

IN THE AIR.

As the famous Kinsey brothers are now in the East preparing for the national championships the men's doubles title is not cinched by any combination entered. Fred Alexander, former holder of the national championship in men's doubles with H. H. Hackett will take a crack at the sectional title with William De Mille as his partner, and the pair seems to be about the best in the running. However the Rainke-Warren team will have something exciting to say about this matter, and the Reed-Reynolds duet will also be on deck to try for the laurels.

Several new champions are forthcoming in the junior division, for the players who have had the honors on ice for the past three or four years are otherwise engaged. Godshall and Coffin, Harvard Military Academy wonders, are on the Atlantic Coast tuning up for the national junior affair, while several of last year's stars have passed the age limit.

ON WAY EAST.

Mary Browne and Mrs. May Sutton Bundy, either of whom could take the women's singles title without much effort, are on their way to Forest Hills and the national championships, so Mrs. Henry, Helen Wills, Marion Williams, Helen Baker and Mrs. Bruce will have to argue it out.

From all indications this year's tournament should be the most successful ever staged. Entries are still pouring in, and a record number of tennis enthusiasts will compete. Without a doubt the Los Angeles Tennis Club will be the scene of some high-powered matches during the week of July 25 to August 1.

royal feet clean. Under the gentle pressure of this pass, Lane oozed over the plate. Bill Stumpf, who had home-runned over the left-field fence with none on, in the sixth, proved that it is possible to do greater execution with a single when the bases are loaded. So Bill cracked a spiffy single to right, and three came in, when Crawford allowed the ball to escape. Stumpf ran to third and was wild-pitched across.

Seattle scored twice, back in the third. Jack Adams singled, and Jacobs sacrificed. Lane singled Adams to third, and he was held there while Middleton was being retired on a wishbone stop by Lindimore. Murphy filled the remaining base by walking, and Eldred, with a single, counted two.

FULL AGAIN.

The bases became full some more when Lyons's hit struck the Iron Duke on the regal seat of his royal pants. It sounded like hitting a coal scuttle with a chunk of anthracite. This plebian sound given off by a Duke took all the sap out of the Siwashes for the moment, and Stumpf flied to Carroll.

Los Angeles flattened the ball for two runs in the third, when Carroll doubled, Griggs tripled and Crawford sacrificed, by the air route. Flattened is correct. The balls with which Carroll singled and Griggs tripled, were both thrown out, and will be donated to the freezing Bolsheviks of Siberia, for pin cushions, next winter.

Mr. Byron caused a scandal by wearing a silk coat with his work pants.

MAKE RECORD.

Boots Weber issued a statement to the effect that the Angels made a record in Salt Lake, when seven of their pitchers lasted seven games. It is believed the climate is changing up there, or a new tonic has been placed on the market.

Just before the game Johnny Powers, Hen Berry, Frank Chance and Jim Morley held a reunion of baseball magnates, active and passive.

Seattle players are now wearing a black Indian head on their shirts. This is supposed to portray a badly sun-burned Siwash, but at a distance it looks like a profile of Sam Langford. The score:

BASEBALL NOTES.

Third Baseman Patterson, sitting in at the difficult corner for Seattle, is a younger brother of Ham Patterson, former Coast Leaguer. The newcomer is almost a dead ringer for Jack Knight, and apparently a promising player.

• • •

Seattle must have played entirely different ball against the Oaks to drop six out of seven. The Siwashes are given to those sinking spells. Had one against Los Angeles first week of the season, and later against the Seals.

• • •

Bill Stumpf, with no assists, putouts or errors, had a soft day at short. This may explain why he was so busy at the bat.

• • •

Frank Chance, who was inclined to favor Seattle for the flag, is not certain what effect the loss of Geary and Cunningham will have.

WASHINGTON STATE WINNER WITH RIFLE.

[BY A. P. NIGHT WIRE.]

TACOMA (Wash.) July 19.—The Washington State College team, standing first in a field of fourteen competitors, will represent the R.O.T.C. of the Ninth Corps area in the national rifle matches at Camp Perry, O., this fall, it was announced tonight by Maj. W. J. McCaughey, in charge of firing at the reserve officers' camp at Camp Lewis.

Oregon Agricultural College was second, thirteen points behind the winners, whose score was given as 1249 out of a possible 1500.

The University of California was third with G. R. McMaster of the California team making the highest individual score on all ranges with 227 out of a possible 250.

Tabulation of the scores was completed today after the teams of six men each representing colleges or universities in all States of the Ninth Corps area had completed shooting over the 200, 300 and 600-yard ranges, using 85,000 rounds of ammunition during the preliminary firing last week.

Nothing to Compare With Cadillac in Value—
Even from the Angle of Price

There has never been a time in its history when the Cadillac was not plainly the greatest value in America, or, indeed, in the entire world—*even if you approach it from the angle of price.*

In America no car is comparable with it in point of long and honorable history, or demonstrated performance-value over a long period.

No car that assumes or aspires to comparison with Cadillac is *known* in anything like the same measure for undeviating reliability, and dollar-for-dollar return in uninterrupted long-service.

No other car has ever won anything like the same overwhelming admission on the part of the public that it gives back dividends of unbroken satisfaction for every mile of use, whether the distance traveled be one or one hundred thousand miles.

Value expresses itself in the Cadillac not merely in countless miles of freedom from overhauling, adjustment, or repair, but—as a result of that freedom—in lower cost of maintenance which lesser cars cannot equal.

Expert opinion in Great Britian has pronounced the Cadillac the greatest car in the world *regardless of price.*

American opinion unanimously echoes that conviction—and both nations are right.

... features of the meet, ... arranged, will be two ... one of 600 yards and ... 1320 yards in which picked ... of Hawaiians compete with picked teams from among all the visiting swimmers. In addition there will be a regular swimming program covering all the usual distances.

Pitting a team of Hawaiians against practically the remainder of the world in the relays would appear to be a large contract for these islands, but the list of possibilities for places on the Hawaiian team presents a strong line-up. These include Duke Kahanamoku, world's champion sprint swimmer and Olympic winner at Stockholm and Antwerp; Pua and Warren Kealoha, both world and Olympic champions; William Harris, Jr., another world and Olympic winner; Ludy Langer, still another globe beater and Olympiad hero; Harold (Stubby) Kruger, a sixth holder of similar honors; Clarence Lane, former title holder; John Kelii and George Cunha, both prominent Hawaiian swimmers.

Among the girls who would contest for titles with such champions as Ethelda Bleibtrey, Charlotte Boyle and other mainland stars, would be Mariechen Wehselau, who recently swam Miss Bleibtrey to a dead heat in a fifty-yard race; Helen Moses, who was a member of the American Olympic team; Miss Estelle Cassidy an Outrigger Club star of Honolulu, and the Kelilpio sisters of Hilo, both island champions.

FAVORITES ARE NOSED OUT.

(Continued from First Page.)

Among them were a few of the stars of the Metropolitan district—such men as Paddy Doyle of Deal, Willis MacFarlane of Oak Ridge, Frank McNamara of Cherry Valley; George Kerrigan of White Beeches, Archie Reid of Ardsley, Chris Shea of Trenton, who have sad recollections of having taken one or two many somewhere along the journey. But as a general run the fittest survived in spite of the gloomy forecasts of woe, to the short distance schedule laid out for the qualifying round.

IS CONSISTENT.

In outstripping the other members of the profraternity O'Hara shot consistent golf. There was nothing sensational about his game. He maintained a steady gait from beginning to end, religiously avoiding trouble and seldom wasting any opportunities. The Richmond county pro got away to a good start by a birdie three on the second hole, but that was the only time that he was under the par figures. And there were only four occasions in which he was over them. His card:

Out ....4 3 4 3 5 4 5 3 5—36
In ....5 4 5 4 4 4 3 4 4—37—73

Whitney, who is a four-time winner of the southern amateur championship, was aided by an eagle three on the 502-yard twelfth hole, which offset his errors in the eleventh, where he took a six, two over the par figures. He was also assisted by a birdie 3 on the 332-yard seventh. His card:

THE BIG MATCH.

The feature match of the day and the one that had the biggest gallery following it was that in which Hutchinson and Mitchell were paired. Jock was finding trouble in places where he least expected it and to make matters worse he was taking three putts on the fast, tricky greens. It was only by making the homeward journey in even fours that the Scot was able to get under the wire with any margin of safety.

Mitchell, on the other hand, was playing steadily and had it not been for a lapse of the seventeenth, the English star would have finished in at least a tie with the two leaders or in first place. Here he tried to hold the green with a drive, but hooked to the adjoining tee and his ball caromed off to the railroad tracks and out of bounds. Before he got through he had amassed a total of six strokes, two over par. He was out in 38 to Hutchinson's 40 and home in 37, as against a 36 for his partner.

Leading qualifiers in the first half of the championship qualifying round, with their scores, are as follows:

BURNS TELLS SORDID STORY.

(Continued from First Page.)

jury that the man pointed out was his client, David Zelser.

Burns will finish his direct testimony some time tomorrow morning, then he will be turned over to the defense for cross-examination. A stormy session is expected, as the attorneys must break down his story if they are to destroy the web of evidence already woven around their clients by the State. His testimony is expected to take up th ewhole day.

SILENT ON JOE.

The other high lights of the sessions today were the failure of Burns to mention Joe Jackson, former Sox outfielder, who made a confession last fall as one of the players present when the conspiracy was formed, and a ruling by Judge Friend that evidence of meetings between the gamblers and players in New York City prior to the Cincinnati meetings could not be entered as evidence.

Attorneys Prindeville and Tyrrell for the State declared that the omission of Jackson's name had little significance, as other witnesses would forge his name together with the other conspirators. They were jubilant at the end of today's session, declaring that Burns's testimony was a crushing blow for the defense.

IS NERVOUS.

Burns, dressed in a dark-green checkered suit, and wearing a lavender shirt, soft collar and bow tie, took the stand at 2.30 o'clock. He appeared nervous at first, wiping his face repeatedly with a white handkerchief and rubbing his hands over the bald spot on his head.

When he began talking, however, he leaned forward with his chin resting on his right hand, and talked in a low voice that only constant prompting made audible half way across the courtroom. He discarded his coat a few minutes after his examination began.

GIVES DETAILS.

Attorney Gorman delayed only a few moments placing Burns's record as a baseball player, contractor and oil operator before the jury, then he plunged into the details of the conspiracy. In spite of countless objections he ruthlessly bared details of the whole plot.

Intimation that the players were double-crossed out of much of the money promised them was given by Burns. He said Abe Attell had termed Rothstein a "walking bank" who would pay all he promised, but that after the first game Attell refused to give him (Burns) any money, saying he could not pay the players until he collected the bets made.

The players were to get $20,000 after each game lost, Burns said. He explained that when he offered to put up a lease on 12,000 acres of oil land in Texas as security, Maharg refused to let him do so, saying Rothstein might not pay the men.

Part of Burns's testimony follows:

Question: Did anyone come in while you talked with Cicotte?

Answer: Billy Maharg and Gandil.

Q.: You introduced Maharg to Gandil and Cicotte?

A.: Yes.

Q.: What did they say?

A.: They wanted to know who he was. I said he was O.K.

Q.: How long had you known Maharg?

A.: A long time. He spent a year with me in Texas.

Q.: What was the date of this conversation?

A.: September, 1919. The day of the last game the White Sox played in New York.

Q.: Did Gandil and Cicotte give you the address where you could reach them after they left New York?

A.: Yes, the Warner Hotel in Chicago.

Q.: When and where did you meet Cicotte and Gandil after that?

A.: In Cincinnati.

Q.: Who did you meet before that?

A.: Abe Attell, Hal Chase and a man named Bennett introduced to me by Chase.

Q.: Who did you and Maharg go to see after your talk with Gandil and Cicotte?

The defense objected and was sustained.

Q.: What did you and Maharg do after that talk?

A.: Went to see Arnold Rothstein at a race-track.

Q.: Did you meet Rothstein after that?

A.: Yes.

Q.: "Where did you talk to Rothstein after going to the race track?

A.: At the hotel in New York.

Q.: Who was there?

A.: Maharg.

Q.: You three had a talk?

A.: Yes.

Q.: What was the subject?

The defense objected to this and was sustained.

Q.: After this talk, who next did you talk with?

A.: Hal Chase.

Q.: Where?

A.: At the Polo Grounds in New York.

Q.: Had you ever met Abe Attell?

A.: Yes, in 1900, one time; he was a prize fighter.

Q.: You saw him after seeing Chase at the Polo Grounds.

A.: Yes, with Chase and Bennett the day before the world's series.

Q.: Did you get in touch with Maharg?

A.: Yes, I telegraphed him to meet me on a train.

Q.: Where did you go then?

A.: I went to Cincinnati for the series. Christy Mathewson, the baseball pitcher, Bud Fisher and some sport writers were riding on the same train.

Q.: When you reached Cincinnati where did you go?

A.: Sinton Hotel. I met Abe Attell at the Gibson Hotel and then went to see the players in room 708. Cicotte, Gandil, Risberg, McMullin, Williams, Felsch, Weaver were there. I don't recall anyone else.

Q.: What did you say?

A.: I said that I had $100,000.

COAST BATTING AVERAGES.

BY LEO MORIARTY.

Hack Miller, the hard-hitting Oakland left fielder, again leads all Coast League players who have participated in more than seventy games this season. Miller has a mark of .372 and has played in every game. Jim Caveney, Seal shortstop, is second of the regulars with a mark of .357. Brown, Salt Lake third baseman, holds third place with a mark of .355.

The leading batters of the other Coast League teams follow: Kenworthy, Seattle, .352; Crawford, Los Angeles, .345; Ryan, Sacramento, .342; Schneider, Vernon, .336; Poole, Portland, .325.

Duffy Lewis Salt Lake outfielder, is batting .453 in the twenty-two games he has played. He has not missed making one or more hits in each game. Lewis was formerly of the famous Red Sox trio—Speaker, Harper and Lewis—one of the greatest outfields in baseball history.

The leading averages up to Tuesday follow:

KEEFE PLAYING AGAIN.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, July 19.—Bobbie Keefe, who pitched in the Coast League seventeen years ago and later played with several big league clubs, has been added to the San Francisco Coast League club team. He was on the field today in uniform, but did not play. Recently he has been playing semipro ball at Folsom.

CATCHER WINGO HURT.

[BY A. P. NIGHT WIRE.]

PHILADELPHIA, July 19.—Red Wingo, veteran Cincinnati catcher, will be out of the game for nearly a month, it was announced today. The third finger of his throwing hand was fractured in the first game of the double-header on Monday, an X-ray disclosed.

UNCLE SAM COINS FARTHINGS.

Most persons do not know that Uncle Sam coins farthings, but he does, and millions of them. They represent half a cent. Oddly enough, while made of exactly the same material as the bronze cent—95 per cent copper and 5 per cent tin and zinc—they are much larger that the 1-cent piece. The latter weighs forty-eight grains, the farthing eighty grains. All the farthings, however, are made for circulation, not in this country, where they are not acceptable as money, but in the Philippines. They are called "centavos," and the reason they are of a bigger size than the 1-cent piece is to be found in the fact that the Filipinos are accustomed to good sized coppers and like them better.—[Christian Science Monitor.

To Raise Rabbits for Wool.

There is a possibility of an Angora woolen industry being started on Vancouver Island, utilizing the wool from the Angora rabbit, which, it is asserted, can be spun into the finest and softest wool. The rabbits from which the test was made were bred at Prospect Lake, a short distance from Victoria, B. C.—[Indianapolis News.

FAVORITES ARE DUMPED.

[BY A. P. NIGHT WIRE.]

KALAMAZOO (Mich.) July 19.—The feature of the opening day at the Grand Circuit races was the dumping of the two favorites, Jim B. and Prince Loree, outside the distance flag in the American Hotel purse for 2:11 pacers, the big event of the day's racing. Jimmy McKeron won the race in straight heats, while the favorites went to smash. Jim B. broke at the first quarter in the first heat and was given the flag, while Prince Loree received the same treatment in the second.

Peter Bieler, the favorite in the 2:08 trot, had no difficulty in winning that event in straight heats with Alicola and Princess Nedena trailing. Tommy Murphy piloted Brookworthy to victory in the 2:07 trot. In the opening heat, the field was bunched, coming under the wire, but the Brook horse had the edge. In the following heats the favorites had no difficulty in finishing ahead of Wiwiki.

Kokomo George won the first two heats of the 2:07 pace and finished second to Logan Hedgewood in the third from a field of four starters.

SELF-ADJUSTING BALLAST.

A snail that is placed on an inclined plane always crawls toward the highest part. Georges Dombreval, the French aviator, once placed on the upper plane of his airplane eighty-eight pounds of snails, two-thirds of which were the large snow snails of Bourgogne. After rising to a height of perhaps 1500 feet he was able to take his hands off the controls for the rest of the two hours of flight. Whenever the machine dipped, either laterally or longitudinally, the snails moved in a mass toward the upper part of the plane and re-established the equilibrium.—[Youth's Companion.

NO TROUBLE ABOUT THAT.

"There is something I must tell you, dear," she said, looking up from the shoulder where her curly head was resting.

"What is it, my precious?"

"I'm afraid you won't want to marry be when I tell you."

His eyes widened, but he drew her a little closer. "Don't believe that," he said.

"But, John, dear. I'm—I'm a somnambulist."

There was a puzzled little pause, and then he said: "It's all right, darling; if there isn't a church of that kind in the village, we can be married before a justice of the peace."—[Cincinnati Enquirer.

BOXING NOTES.

[EXCLUSIVE DISPATCH.]

CHICAGO, July 19.—Freddie Welsh, ex-lightweight champion, who intends staging a come-back, has been signed for a ten-round bout by the Elks' Club of Calgary for August 15. Bert Forbes of Seattle and Billy Cole of St. Louis have been mentioned as opponents.

Billy Cole, St. Louis lightweight, and Babe Asher, leave tomorrow for a week's vacation at Pawpaw, Mich. Asher has no alibi to bake over his defeat by Danny Hill. He wants another battle.

Jim Mullen, the Tex Rickard of Aurora, has started making plans for his next fistic entertainment, which will be on July 29. Sammy Mandell will probably clash with Pal Moore and Jimmy Kelly may repeat with Babe Asher in ten-round bouts. Three other eight-round bouts will be added to the program.

Close to 12,000 fans witnessed the Bob Martin-Frank Moran bout in New York last week. The gross receipts, including the government tax of 10 per cent, brought the total up to $45,598.50. The five contests costs the club $31,000. The State received $3,072.75.

GIANTS PLAY TWO.

Two more fast independent ball games have been carded for the Alexander Giants this coming week-end, both to take place at the home grounds, Thirty-second street and Long Beach avenue. Saturday's battle will be against the L. A. Shipyards, and on Sunday the second game of a series with the strong Standard Oil club of El Segundo. Independent ball is to be played by the Giants the rest of the season.

GRAUMAN'S PLANS.

NEW THEATERS TO REVEAL UNIQUE FEATURES.

By Grace Kingsley.

Faithful patrons of the Grauman theaters, than whom there are none faithfuller among picture fans, will be thrilled to learn that the new Grauman theaters, both the local house being built at Sixth and Hill, and the Hollywood theater on Sunset Boulevard, will be ready to open inside of seven months, which, if you stop to count up, brings the date around Feb. 1, 1922. Two shifts of workmen are now laboring on the Hill-street house, and a third shift is shortly to be added.

The enterprising Sid Grauman made some highly interesting announcements in regard to these theaters yesterday, some features of which indeed are entirely new to theatrical enterprise. In the first place, just to show that his heart is in the right place, and that he is as usual a step ahead of the times, Mr. Grauman is going to install a roof garden atop his Hill-street theater, which may be used by theater patrons awaiting admission to the show, as well as by the general public. This will be glassed in, and will therefore make a brilliant showing from adjacent streets in the evenings, as well as revealing to those within a wondrous view of the city and environs. Here dancing may be indulged in, and a large orchestra will furnish music for this, as well as giving special concerts. Musical and cabaret acts will also furnish entertainment. The roof service will also include a cafe, so that one may eat and drink as well as dance. Special elevator service will be given this roof garden.

Another unique feature of his Hill-street theater will be a school for the usherettes, who will not only be trained as regards their own business of ushering to a high degree of courtesy and efficiency, but who will also be trained in any artistic line in which they show unusual aptitude. For instance, a young girl who shows an aptitude for playing the violin will be given lessons by an expert teacher, while a young dancer will also be taught in that line. The schools will last two hours, and will be held three nights a week. Mr. Grauman feels that he is not entirely altruistic in this work, as he expects thus to furnish his house with a superior quality of usherette, and one who can also be called upon to serve in acts in an emergency.

"A home grown girls' orchestra and ballet should prove a great attraction, I believe," explained Mr Grauman.

Lighting effects are to be of the most novel. For instance, any time Mr. Grauman wants to order up a storm or a sunset effect he will be able to do so by means of a lighting apparatus which will flood the ceiling.

The house will seat 4400 people, and the stage will be the largest in any local picture house, its dimensions being 60x45. There is also to be a tank under the stage, so that water effects may be used on occasions. Ballets and other spectacular forms of entertainment, as well as picturesque prologues, will be given on this large stage.

The loges, which will be in the first balcony, will be in the form of chariots. They will be furnished with electric bell service, so that one may sit in his booth and ring a bell which will call a page to attend to telephone messages or for any similar uses.

The orchestra is to consist of sixty-five pieces, and the musicians will be accommodated by an elevator stage, made so as to raise or lower the players as occasion demands.

For the opening bill, a Cecil De Mille picture will be the picture attraction, and an augmented orchestra of 100 pieces, with special spectacular dances and prologue to the picture will furnish additional features. Only Paramount pictures will be shown.

The Hollywood theater will furnish entertainment similar to that found at Grauman's first theater, where, as in the Rialto, a special organ and special lighting effects will be introduced.

John Davidson Departs.

John Davidson, well-known picture actor, is going to leave us flat. He leaves for New York this morning on a visit, ostensibly to see his mother, but there are many whispers in the air that when Mr. Davidson returns it won't be alone, but will be in company of a young wife.

He answered cryptically when asked in regard to the matter:

"Yes, now that Ann May has thrown me down, I may come back with another girl!"

Betty Is Busy.

No matter what pretty picture actresses are these days anxiously listening for phone calls from the studios, Betty Ross Clark is a busy lady. No sooner had she finished her work at the Lasky studio than she was called over to Vitagraph to play opposite Earl Williams in his next picture. She has only three days to get her costumes for the picture, so she's rushing about madly these days, despite the inclemency of the weather.

Bryant Washburn Home From Tour.

Having spent some three months on tour, and having fairly gotten calloused palms shaking hands so much, while he has made so many speeches he can hardly stop himself from saying, "Ladies and gentlemen," even when he greets a friend on the street, Bryant Washburn, well-known picture star, has come home to Hollywood.

Mr. Washburn was accompanied during the last few weeks of his trip by Mrs. Washburn, who vouches for all his statements regarding the trip, and even offers photographs as corroborative evidence on most of them.

Included in Washburn's adventures abroad was an automobile accident, which happened in Indianapolis, in course of which the machine in which he was driving overturned at a sharp turn in the road and rolled over twice, severely injuring the driver, but leaving Washburn without a scratch. His new straw hat was ruined, however, and ornamented with splashes of blood from the driver, it forms a rather dreay keepsake of the trip. Another accident occurred, this time to an airplane in which Washburn and his wife were flying, up in Toronto, when, making a forced landing in a rough field, the airship's tires were torn off while one wing rammed the ground. Nobody was hurt, but everybody was badly shaken up.

Speaking in churches is something new for motion-picture actors, but that's exactly what Washburn did back in Kansas City, when on a Sunday evening he addressed a Congregational church audience. That's where he got a chance to tell the church folks that actors aren't all as bad as they are painted; and also to exhort them to not only ask for clean pictures, but to patronize them when they get them. But this isn't all. During the trip, Washburn became a member of divers noted organizations, including the Kiwanis, and he also spoke before various women's organizations and schools.

His picture, "On the Road to London," made in England, did an immense business when shown at the leading theater in Cleveland, O., and in Indianapolis. These were the only cities in which the picture has been exhibited.

Lew Cody to Flit.

After all, Lew Cody, high-power fascinator of the gentler sex, isn't to remain in our midst very long. He is going to finish out his week at the Symphony, where he is making two personal appearances daily, and then is to leave at once for New York, where he will begin work on a new picture.

The name of the new picture and also the director are matters of deep, dark secrecy at present, but he promises to let us know within a week or two all about the matter. However, he has let us know that certain scenes of the picture will be made in London and Paris, though in the main the picture is an American one.

Grace Darmond,

Who has the leading feminine role in a Peter B. Kyne story, "The Beautiful Gambler," showing in its picture form at the Superba.

Roscoe Arbuckle in Chicago.

Roscoe Arbuckle has gone to Chicago to make scenes for his current Lasky picture, "Handle with Care," which James Cruze is directing. Bidding us all a tearful farewell, the other day, Arbuckle explained:

"Think of the heat back there! I'm awfully afraid I'm going to lose my figure!"

Elliott Dexter Among Us.

Elliott Dexter has returned from New York, where he has been working in Paramount Pictures for some time past. He is going to take a short vacation before beginning work in a new feature.

Jackie Coogan Out of Hospital.

There wasn't a happier youngster in Hollywood yesterday than Jackie Coogan, when he came home from the Glendale Hospital, where he went to undergo the fashionable operation of having his tonsils and adenoids removed. Incidentally Jackie has lost two more teeth.

"Oh, dear!" sighed Jackie, "With my adnoids and' tonsils an' teeth gone, there isn't much of me left, is there?"

A switch has occurred in Jackie's directors. Victor Schertzinger isn't going to direct, after all. Instead, Victor Herman's voice will be the one to guide Jackie on his famous way. Herman's most recent work has been with Owen Moore.

John Blackwood, well-known playwright, is writing the script for Jackie's first independent production, which will be a five-reeler.

Sara Sothern Has Adventure.

The fellow who said that the pen is mightier than the sword spoke a mouthful, according to Sara Sothern, Majestic ingenue. Anyhow, the pen is just as good sometimes as the pistol.

Miss Sothern found that out, she says, the other night when she was turning a rather dark corner leading to her apartment-house. As luck would have it, somebody had given her a silver pen, that day, and she had it in her handbag. As she turned the corner, a man stepped out from the shadows. He started to speak to her, she reached into her handbag, on an inspiration, and seizing the shiny pen, pointed it straight at her assailant. He fled. And now Sara is more than ever grateful to the giver of the pen, and she's writing to him today with it to tell him so.

Helen Eddy Buys Lot.

Who says Helen Jerome Eddy can't own an "estate" as well as any other picture star? The young lady has just purchased a lot in Beverly Hills, where she plans to erect a bungalow for her own use.

Miss Eddy is, just at present, playing the role of the stenographer in "The Ten Dollar Raise," at the California.

Trixie Friganza in Films.

It looks as though the picture colony were to be substantially enlarged by the addition of no less plump a person than Trixie Friganza, Orpheum star.

Miss Friganza's Orpheum contract will prevent her doing anything in this line until next year, but when her present tour closes, she has an opportunity to put "Poor Mamma," Elmer Harris's play, into the deathless drama of the celluloids, and it looks now as though nothing could stop her from doing it.

"Peter" Coming to Majestic.

"Parlor, Bedroom and Bath" is being shown for the last times at the Majestic this week. This peppy farce has lost none of its drawing power, but Thomas Wilkes is anxious to present a new play he has secured of Marian Wightman, in which Robert Edeson is to appear in the leading role.

The new play, "Peter," is a comedy of American life and if results justify it Mr. Wilkes plans to send it and Edeson to New York to open there in the fall. Mr. Edeson's appearance will, no doubt, be of great interest to theater goers of this city because of the high reputation he has attained as an actor.

Mary Newcomb, who has made herself such a favorite with patrons of the Majestic, will play opposite him.

Personal Appearance.

Something special in the way of an "added attraction" is scheduled for the Superba this evening, when Grace Darmond, star of "The Beautiful Gambler," William Worthington, director of the picture, Jack Moyer, leading man in the story, Harry Van Meter, who plays one of the principal roles, and Harry Penbrook will all appear in person.

And announcement is made by the manager of the Superba that the "personal appearance" will offer the audiences something very different from the customary conventional "I am glad to meet you folks" which characterizes the average film star's bow from the stage.

It's going to be a real surprise and an unusually interesting adjunct to the program.

"Life" at Grauman's.

It's a case of Roman meeting Roman when "Life," William A. Brady's Paramount production, comes to Grauman's next Monday, for Thomas Buchanan until becoming a playwright, was a newspaper man and a prominent dramatic critic in the East. Considering these facts, "Life" should measure up to everything the public wants, because the dramatic critic is the voice of the public and Buchanan is a dramatic critic.

"Life" scored a record for continuous performances on the New York legitimate stage.

RADIOS.

HAIL TO THE BRAVE!

INDIAN FIGHTERS FROM SAWTELLE GUEST OF KINEMA.

An unusual honor is to be paid to the National Indian War Veterans, now stationed at the Soldiers' Home in Sawtelle, when tomorrow almost 100 old soldiers will be brought to Los Angeles as guests of the Kinema Theater, where they will witness Marshall Neilan's production, "Bob Hampton of Placer," which has as its climax a graphic picturization of Custer's Last Stand on that memorable June 25, 1876.

Practically every one of the old Indian fighters, stationed in California under Commander L. E. Hinckley of the Gen. O. O. Howard Post, No. 7, were, during the Custer massacre, members of Gen. Reno's detachment. This is the corps of the famous Seventh Infantry which, while trying to join Custer, ran into a trap and was flung back by Sitting Bull's Sioux, twenty-five miles into the hills, near Glencaid, where Reno then was unable to advance to render assistance to Gen. Custer.

Every one of the veterans who tomorrow will see the "Bob Hampton" picture at the Kinema has a wealth of interesting memories. The old fighters will be brought to Los Angeles by special automobiles, and, before their arrival at the theater, parade through the streets, accompanied by their fife and drum corps.

Commander L. E. Hinckley and Edward A. Smith, managing director of the theater, made the arrangements for the honor guests. Included in the line-up of veterans are those who held top ranks down to the humble private, and it is believed that the opportunity to witness their memories of June 25, 1876, on the Kinema screen will afford them a few hours of real visualization of their own history.

WEST COASTERS TO BUILD NEW THEATER.

Announcement is made today of a deal closed by the officials of the West Coast Theaters, Inc., for the immediate construction of a neighborhood house with a seating capacity of 1100 on the southwest corner of Sixtieth and Moneta avenue, on a lot 115x135 feet. The Lily Fletcher Company will begin the groundwork within a few days so that the plans which call for the opening of the new house during the fall season may be carried through.

The last word in modern motion-picture equipment is to be given the new theater, a $30,000 Robert Morton orchestral organ is included in the specifications. The operating room is to be equipped with "remote control" (which will interest electrical engineers) and be made equal to any large house projection room in the country. The theater is also to have several rows of luxurious loge chairs. The estimated cost of the entire project is $150,000. Stores are to front the entrance on both sides.

When completed the house will be under the personal direction of Ralph Grunauer.

FILM STARS TO PLAY POLO AT RIVERSIDE.

A polo match between two teams, one of which is composed principally of prominent film stars, is the extraordinary sporting event which is to be staged next Saturday at the Chemawa Park Polo Club near Riverside.

The local Beverly Hills club and the Chemawa Park club are the contestants. The former includes Jack Holt, Wallace Reid and Elliott Dexter, famous Paramount stars, and Reggie Wise, Carleton Burke and John B. Miller, Jr. The Chemawa club is composed of Frank Winship, Teddie Miller, Dr. Z. T. Malaby and Thomas Mangan, owner of the Chemawa field.

Southern California polo enthusiasts will also have an opportunity to see how motion pictures are made, as, following the game, scenes will be made under the direction of Sam Wood for the Paramount picture, "The Rainbow's End," in which the above-named stars and Gloria Swanson will appear. The scenes, which will be filmed right on the field during and after the game, will include two thrilling falls from the polo ponies by the players.

The game, which is open to the public generally, will be held promptly at 2 p.m.

NEW PANTAGES HAS BILL OF VARIETY.

The fan is sure to find something that he wants, if not everything that he wants, at New Pantages, whose programs are always made up with an eye to variety.

This week, as usual, the bill starts things happily going with a blare of lively music from the orchestra, which is immediately followed by the you-could-hear-a-pin-drop silence that falls over an audience when a motion picture begins to unreel its 5000 feet of film. This time it's a pleasing western story whose setting is the neighborhood of Santa Anita, Cal., and of course there are many beautiful outdoor shots. Its title is "Penny of Top Hill Trail," and Bessie Love plays Penny very charmingly.

Harry Bender and Barney Heer do athletic stunts that require simian agility as well as the muscles of a superman. Bender has more muscle than a Samson or an Atlas. A clean and interesting act. Very different is the offering of Dobbs, Clark and Dare, "Vaudeville Remnants," though they, too, are of an amazing agility, especially as tumblers.

From Martha Hamilton and company comes a rapid-fire farce called "Oh, You Woman," which brings many laughs, and which, of course, lays bare some of the weaknesses of the daughters of Eve. Noodles Fagan and Elsie offer us "A Paprika Ginger Jar" that is as snappy as its title indicates. Noodles is a howl of mirth, who kids his audience so cleverly that he almost wrecks the show; little daughter Elsie dances with spirit and art—she is as bright as her papa, and almost as plump.

The program ends with Eddie Vogt's musical comedy show, "Dan Cupid, Ltd.," described, correctly, as "a rhapsody in velvet, silks and laces." Here we have feminine pulchritude and sartorial beauty in full measure, and overflowing. The whole affair is rich, racy and colorful, with much clever fun thrown in.

George Walsh At the Hip.

The new show starting today at the Hippodrome promises to be one of the best all-round bills ever seen there.

George Walsh, the virile and athletic Fox star, will be seen in "Dynamite Allen," a red-blooded tale of fast action and thrills galore, just the sort of entertainment for hot weather. Buster Keaton, in "The High Sign," is the photoplay comedy.

A six-act vaudeville show is topped by Lewis and Thornton, a pair of clever funmakers who style themselves "The Great Lovers." Joe Paramo offers Spanish musical selections, and will prove a big hit with his music. The Leach Wallin Trio give a spectacular series of balancing versatilities.

"Breakfast for Three" is the title of a humorous comedy presented by Lynne Sherlock and Company, and Gulfport and Brown are a pair of colored comedians par excellence.

Sabtry and Norton, in an artistic series of dances, end the show.

"One Wild, Wild Night."

"One Wild, Wild Night," which "Oklahoma Bob" Albright is presenting at Broadway Pantages this week, with Henry Sherr in the leading role, sets a laugh record that will stand for some time at the Broadway house.

The musical numbers, which are presented under the direction of Joe Kemper, are very pleasing and stand out as one of the bright features of the show. "Oklahoma Bob" continues to stop the show at each performance with his specialties, and, assisted by Aleen Thompson, they put over numbers that never fail to bring them rounds of applause.

Picture Men Join the All-Year.

The motion picture industry has planted itself squarely behind the All-Year Club of Southern California in the drive for a $300,000 fund to advertise the Southland to the rest of America, it is announced today.

Producers, distributors and exhibitors of motion pictures unite in a pledge made through the Affiliated Picture Interests, Inc., in whose membership every distinct group of the industry is represented.

At a meeting of the board of directors of the film organization, held at the Los Angeles Athletic Club, the following committee was appointed by the executive chairman, Frank A. Garbutt, to apportion a quota of $7400 among the various interests.

W. J. Reynolds, producers; Frank E. Woods, authors; Reginald Barker, directors; Ralph Lewis, actors; J. H. Goldberg, exchanges; Harry Lustig, theater owners; Frances R. E. Woodward, theater managers.

Charles Chaplin's Latest.

A preview showing of Charles Chaplin's latest feature, "The Idle Class," was given at the Raymond Theater in Pasadena, before a gathering consisting of Mr. Chaplin, Mary Pickford, Douglas Fairbanks, Rob Wagner, John McCormick, western representative of Associated First National Pictures, Inc., the staff of the Chaplin studio and friends.

Mr. Chaplin has been working on "The Idle Class" for the past twenty-two weeks. Besides Mr. Chaplin the cast consists of Edna Purviance, Loyal Underwood, Harry Bergman, Rex Storey, John Rand, Lelita Parker and Allan Garcia.

In many of the scenes Mr. Chaplin plays it "straight" with the exception of his moustache. And in au fait evening clothes trying to conduct himself as a Lord Chesterfield should, Charlie almost splits one's sides. Then, just to pile on the agony, he shifts back to the familiar bedraggled afternoon coat, dented derby and leaky shoes.

Those who saw "The Idle Class" in Pasadena staggered out of the theater into their cars still laughing insanely, such was the effect of the latest Chaplin comedy. Charlie emerged gaping and looking extremely bored.

"Ships that Pass."

Somewhere between London and Paris about now William D. Taylor passes Elsie Ferguson, whom he has not seen since he produced "Sacred and Profane Love" for the screen. The director is returning from the leave of absence Jesse Lasky granted him to recover his health after a strenuous year of film work. The star is on what she terms her "second honeymoon" with Thomas B. Clarke, preparatory to her stage appearance in "Varying Shores," by Zoe Akins, next season.

HAD TO RETURN IT.

Mary came in from recess chewing gum for dear life. The teacher noticed her and said, sharply:

"Mary, come here and put your gum in the waste basket."

Mary took the gum from her mouth, but did not put it in the waste basket. And again the teacher said:

"Mary, I told you to put that gum in the waste basket."

This time Mary started to cry and replied:

"Miss J., I won't chew the gum any more, but I can't put it in the waste basket. It's my sister's gum and I have to give it back at noon."—[Indianapolis News.

Queer Cures of Middle Ages.

Alchemy and medicine, as it was practiced in the early part of the fifteenth century, had many strange beliefs.

Among them was that a roasted mouse would cure cannon ball wounds if it was bound tightly to the fracture, and old blood could be made young again by transfusion. Every star beam was thought to be a thread of light that ran directly to the head of some living man. His fate was determined by its action.

It was also believed that rock crystal was ice that had been buried a thousand years, and that gold was once lead, that after being buried 200 years, changed to red arsenic and 200 years after that, was changed to tin and then to silver and last to gold.

A favorite treatment for gout was a tea of daisy petals and cures were many, although the real secret was in the fact that physicians put the patient on a diet and a rest cure went with the flowers.—[Tit-Bits.

A Cheerful Send-off.

SPORT IN JAPAN.

Tokio Elite Rise at Dawn to Hear Lotus Blossoms Pop Open.

One of the most refined amusements of the Tokio elite in the torrid season, says a correspondent in the London Post, is to rise at dawn and go to hear the big blossoms open with a pop in the lotus ponds, of which there are so many in the capital. A pond in some great park forms a favorite haunt for lovers of this pleasure, for there the stillness of the early morning for the most part remains unbroken, and the peculiar and enchanting echo of the newly opening flowers is the more easily caught by the ear.

The Japanese lotus is a thing of beauty and a joy forever, and while the Japanese are not exactly so happy-go-lucky a folk as Tennyson's lotus eaters, one still may say with truth that in lotus time it is always afternoon. As Buddhism is a religion of dreams, no one can wonder that the lotus is a favorite blossom with the devotees of that religion, the numerous statues of Amida throughout the land frequently rising above a pedestal of the flower.

Nor is this gay big blossom of summer without some utilitarian significance in Japanese economy; for its roots are a source of valuable food, while lotus seed is a favorite relish, and becomes ripe in September. The Japanese have a belief that the lotus has a spirit of its own, and is possessed of the power to keep away evil spirits, a reason why it is so often found adorning the water of ancient castle moats.—[Exchange.

STEPHENS ASKS FOUR-CENT WALNUT TARIFF.

GOVERNOR WIRES FORDNEY TO SAVE INDUSTRY OF SOUTHLAND.

In a telegram sent from his Los Angeles office yesterday, Gov. Stephens appealed to Chairman Fordney of the Ways and Means Committee of the House of Representatives for a 4-cent-per-pound tariff on walnuts, adding that unless it is secured the industry will be jeopardized and perhaps ruined.

The message sets forth that $125,000,000 is invested in the industry in this State, that China, Italy, France and Chile are threatening a market which California could and should supply, and that "all California" joins in this appeal for adequate protection. The appeal was made at the request of C. C. Teague, president of the Walnut Growers' Association.

REPUBLICAN SENATOR HITS AT NORRIS BILL.

SAYS MEASURE IS CLASS LEGISLATION. CAMPAIGN PLEDGE BROKEN.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—Senator Edge, Republican, attacked today in the Senate the Norris bill to create a $100,000,000 Federal corporation to finance farm exports. He denounced the measure as class legislation and a violation of the Republican campaign pledges to "less government in business."

"This bill means direct government rivalry with private business and that is governmental oppression," he said.

Senator Norris declared the bill would increase prices of farm products. Farmers, he said, were "bankrupt," but Senator Reed, Democrat, Missouri, challenged the statement, and Senator Norris said that he was "almost justified" in using the term.

Assertions by Senator Reed that wheat, corn, rice and other agricultural products had been exported during the last year far above the average volume were supported by Senator Norris, but he said that American farmers still had a surplus which depressed prices.

FOREST FIRE STILL IS BEYOND CONTROL.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, July 19.—A fire in the Sequoia National Forest in the vicinity of Havilah, Kern county, still is beyond control today after having started yesterday, but it is hoped to have it extinguished by tonight or tomorrow morning, the United States Forest Service here reported. More than 2000 acres had been burned over, according to the last report reaching here.

A fire in the Sierra National Forest in the vicinity of Grabners, Fresno county, was brought under control today after having burned eleven miles along the San Joaquin River.

Mr. and Mrs. Ray Wagner and family are motoring to Lake Okoboji, where they have taken a cottage.

Mrs. Charles Kountze and daughter, Eleanor, leave Thursday for a motor trip to Cape Cod, Mass.

DES MOINES.

DES MOINES, July 19.—Following the arrest of three 15-year-old boys yesterday, detectives visited their homes and recovered hundreds of dollars' worth of property said to have been stolen by the trio during the past few days.

A new ten-story concrete and steel office building to be known as the Insurance Exchange Building, will be erected at Fifth street and Grand avenue it was announced yesterday by George B. Peak, president and founder of the Central Life Assurance Society.

Mr. and Mrs. A. Goings, left yesterday for Omaha, where they will visit the latter's sister before proceeding to Denver. They will visit friends in Salt Lake City and another sister in Portland, Or.

MINNEAPOLIS.

MINNEAPOLIS, July 19.—Capt. Lewis C. Bisbee, 87 years old, Minneapolis architect, who constructed many of the city's land marks is dead.

Citizens of Minneapolis represented by their different civic, fraternal, political and religious organizations will be called on within the next few weeks to determine what changes shall be made in Minneapolis form of city government through the agency of the home rule charter.

INDIANAPOLIS.

INDIANAPOLIS, July 19.—An army of chinch bugs has invaded Elkhart county and threatens to do considerable damage to the corn crop, according to a warning issued yesterday.

A possibility that one of the nine City Councilmen will accompany James P. Tretton, superintendent of the Indianapolis Street Railway Company and D. E. Matthews, engineer, on their tour of western cities to investigate the effects of jitney bus ordinances and regulatory measures this week was indicated at a special conference of Councilmen.

Mr. and Mrs. Henry C. Thornton left today for Walloon Lake, to attend the wedding of Miss Mary Hogan, and Norman Metzger, which will take place July 21.

DETROIT.

DETROIT, July 19.—George Berg, 66 years old, wealthy Saline township farmer, and his hired man, Henry Vollmer, were shot and killed Saturday, presumably by robbers. Their bodies were found in a barn where they had ben shearing sheep about ten rods from the farm house.

For the summer months, Miss Betty Weinberg will sojourn in Los Angeles.

Fear that Michigan's 1921 highway construction program would have to be greatly curtailed because of the difficulty of marketing both the bonus bonds and $10,000,000 of highway bonds was dispelled when the administrative board sold $3,000,000 of one year 6 per cent highway notes at par and accured interest.

MILWAUKEE.

MILWAUKEE, July 19.—Funeral services for Samuel R. Bell, 78 years old, known as the "father of the Grand-avenue viaduct," were held today.

City officials of Los Angeles have been in Milwaukee for the last two days studying the Milwaukee system of sewage disposal.

John and Harry J. Noyes, Jr., have been visiting Mr. and Mrs. Guido Hansen at Pine Lake. John Noyes is the guest of Norman Ott at the summer home of Mr. and Mrs. Charles W. Ott.

AKRON.

AKRON, July 19.—The city may finance trackless trolley extensions in Akron through the sale of bonds. Legislation designed to place the question of a bond issue for such purpose before the voters of the city may be introduced to the City Council in the near future, if it is discovered that financial support can be legally given to the N.O.T.

Mrs. Robert Wilson and children expect to leave soon for Chicago to make their home. Mr. Wilson has been in Chicago for several months, having been transferred from the main office of the Goodyear to assume management of the western division of the company, with headquarters in Chicago.

KANSAS CITY.

KANSAS CITY, July 19.—More than enough signatures have been obtained to the petitions for submitting the charter amendments necessary for a new city water plant.

Mrs. W. B. Sullivan, who has been visiting in Lawrence, will leave this week for California.

Mrs. M. G. Barny and children, Betty and Jane, left to spend the remainder of the summer in Yellowstone National Park, Seattle, and California.

Mr. and Mrs. J. E. English and Miss Meda English will leave July 30 for California.

DENVER.

DENVER, July 19.—The count at the Colorado State penitentiary shows a prison population of 782, which is the highest for several years, and which is nearing the high-water mark of antiprohibition days.

Wm. Russell Abbott and his daughter Dorothy left today for the Pacific Coast. Mr. Abbott will remain a month and Miss Abbott will return in the fall in time for school.

A State highway, to be known as the North Star Highway, will be constructed from Bristol to Sedgwick, according to articles of incorporation filed by the North Star Highway Association.

ST. LOUIS.

ST. LOUIS, July 19.—By a vote of 191 to 22, the members of the Merchants' Exchange of St. Louis agreed to authorize an appropriation of $5000 to carry on an educational campaign in connection with the national committee of grain exchanges, with a view to combating the prevalent agitation among farmers for a pooling of grain.

A decision to ascertain the sentiment of the membership of the Chamber of Commerce on the question of the open and closed shop was made today, and a referendum vote will be arranged for immediately. The entire membership of the chamber will be circularized and asked to state their preference, so that the organization may be placed on record as regards this question.

Mrs. Edward F. Goltra, accompanied by Mrs. Harrison Steedman, has departed for Santa Barbara to be gone until the autumn.

Mrs. Frederick D. Gardner, with her daughter, Miss Jeanette Gardner, has gone to Long Beach, Cal.

DECK OFFICERS IN GENTLEMAN'S PACT.

WAGE CUT, WORKING RULES CHANGES MADE WITH SHIP OWNERS.

[BY A. P. NIGHT WIRE.]

NEW YORK, July 19.—A gentleman's agreement, embodying a 15 per cent reduction in standard wartime pay for deck officers of American ships, and permitting masters to make their own contracts with shipowners, was formulated today by organizations of deck officers and the American Steamship Owners' Association. The new agreement, subscribed to by representatives of the Shipping Board, will be effective August 1, and will take the place of a signed agreement which expires on that date. Changes in working rules aboard ship were also provided to conform to prewar conditions.

The agreement brought to an end conferences with all branches of steamship employees. Negotiations with engineers, firemen and sailors resulted in a strike last May, and ended five weeks later, when officials of the unions and the Shipping Board signed a six months' contract at Washington. This contract was accepted by the men under protest and they returned to work.

HONOR SCHOOLS NAMED BY WAR DEPARTMENT.

THIRTY - FOUR INSTITUTIONS ARE DISTINGUISHED FOR YEAR 1921.

[BY A. P. NIGHT WIRE.]

WASHINGTON, July 19.—Thirty-four educational institutions in the United States were named by the War Department today as the "distinguished colleges and honor military schools, respectively, for the year 1921."

The recognition gives each college and university the right to appointment virtually without examination, of one student to the Regular Army each year, while each of the honor schools is permitted to maintain one representative candidate at West Point.

The "distinguished institutions" include the Agricultural and Mechanical College of Texas; Colorado Agricultural College; University of California; University of Washington and Oregon Agricultural college. The honor military schools included the New Mexico Military Institute.

SEEK REFERENDUM ON HOUSING LAW.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, July 19.—Petitions to suspend by referendum the recently enacted housing act are being circulated by lumber interests throughout the State because of a construction of the law, which apparently prohibits the use of shingles on the roofs of buildings, representatives of these interests announced here today. Between 30,000 and 40,000 names are necessary to make the petition effective.

While shingles on roofs are not directly barred by the law, it was stated, certain sections of the law, when placed together, act to bar their use.

CANNIBALISM IS FEARED.

[BY CABLE AND ASSOCIATED PRESS.]

PEKING, July 18 (Delayed.)—The National Commission for Famine Prevention today received a report from the province of Kwei-Chow, in the southwestern part of China, that famine conditions in the Province are such that unless immediate help is given, people in thirty districts will be forced to cannibalism.

LIONS CLUBS MEET OPENS.

International Association is in Oakland.

Officers Make Reports for Work of Year.

Los Angeles Man is Speaker on Business Topic.

[EXCLUSIVE DISPATCH.]

OAKLAND, July 19.—The fifth annual convention of the International Association of Lions Clubs, with delegates present from every State in the Union and from Canada and island possessions of the United States, was officially opened here today by Leroy Goodrich, president of the Oakland club.

Dr. C. C. Reid of Denver, president of the International Association, was introduced by Jesse E. Robinson of Oakland, past international president. Dr. Reid delivered his convention address and was followed by Melvin Jones, secretary-general of the organization, who rendered his annual report. The delegates were welcomed to the Pacific Coast and Oakland by Mayor John L. Davie.

"Business Optimism Based on Fundamentals" was the subject of an address by Charles F. Stern, vice-president of the First National Bank of Los Angeles and the Los Angeles Trust and Savings Bank. In part he said:

STERN'S ADDRESS.

"Deflation difficulties, business readjustment, foreign trade slump and credit structure strain have unduly reflected themselves in the morale of our people. We must keep to the forefront the fundamentals which have carried us through this period safely and which guarantee our future business and financial integrity. Our position as a nation is incomparable.

"We emerged from the war with our natural resources, production power, manufacturing facilities, man power and money power unimpaired. As a matter of fact we had geared up industry and finance to a good deal more than normal capacity.

"We have three-fifths of all the gold in the world. We have most of the goods available for market and most of the liquid credit in the world. Our war financing developed an investing capacity among our people, hitherto unknown. The number of investors reached tremendous proportions. In a degree more finance developed a larger thrift. The resiliency of this buying power is strikingly illustrated by the larger aggregate of new financing absorbed by our people the last two years.

"Our banking structure with the Federal Reserve system as its base has withstood every shock and carried us without panic through the sharpest decline in commodity values the business world has ever experienced. Business and finance are going through a delousing period; unpleasant, but inevitable, necessary and desirable. Values had to readjust after the hysteria of war inflation in order that normal business might be resumed. The process is by no means a total liability—we are getting rid of a lot of things that otherwise would be extremely dangerous.

WORK IS SALVATION.

"We are getting away from the silk-shirt sovereignty. We are learning that there is no substitute for work. The so-called menace of the Reds is passing.

"The demonstrations in Russia and in Italy have had a marked cooling effect. The presence of 4,000,000 men who wore the uniform and who now propose to take an active part in the government they defended helps guarantee this situation. What we need now is faith. Let our people take care of their nerves—our banks are safely taking care of their money.

"Focusing on California, our State is in as preferred a condition in the nation as the nation is in the world. Our prosperity is based on essential food production with half the world hungry. Our economic structure has a multitude of foundation—nowhere is production or industry so diversified.

"Consequently we have not suffered in the same measure as the balance of the country the depression of the last year. Two million people are individual depositors in our savings bank with a deposit of a billion dollars, which is phenomenal, and ranks us fifth among the States while we are eighth in population. The increase in savings deposits day by day in the hands of over half our people underwrites our situation.

"Finally, national conventions should mean national union. We are getting rid of the sectional idea in California, realizing that the idea of California is big enough to contain both the north and the south. We must be rid of sectionalism, which is provincialism in national affairs, and face the world and our part in the world's progress as a united nation."

AMNESIA ATTACKS PRETTY YOUNG GIRL.

[BY A. P. NIGHT WIRE.]

DENVER, July 19.—At the Denver City and County Hospital is a pretty young woman, about 19 years old, who apparently does not know who she is or where she lives.

After fainting in the internal revenue office here a week ago today the girl was taken to the hospital. All efforts to identify her have failed.

PAGO PAGO JUDGE BACK IN AMERICA.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, July 19.—Judge A. M. Noble, for the past four years chief judge and Secretary of Native Affairs at Pago Pago, American Samoa, arrived here today en route to his home at Smithfield, N. C.

Judge Noble was succeeded at Pago Pago by Capt. Sydney D. Hall of Detroit.

THEOSOPHICAL SOCIETY SELECTS FRESNO MAN.

[BY A. P. NIGHT WIRE.]

SEATTLE, July 19.— A. G. Frisdee of Fresno, Cal., was the new member of the board of trustees elected by the American section of the Theosophical Society at the closing session of its annual convention here today.

Other trustees re-elected included: C. F. Holland, Los Angeles.

WIFE SAYS HEADLESS BODY HER HUSBAND.

WIFE OF DENTIST ACCUSED OF MURDER DECLARES HE IS DEAD MAN.

[BY A. P. NIGHT WIRE.]

ROSEBURG (Or.) July 19.—Testifying that she believed the headless body found beneath her husband's wrecked and burned automobile last week was that of her husband, the missing dentist, Mrs. R. M. Brumfield today was a witness before the Coroner's jury, which has the task of deciding whether the victim was the dentist or Denis Russell, a laborer whom he is accused of killing.

Mrs. Brumfield identified a ring found on the body as that of her husband. A watch and chain, burned portion of a necktie, scarfpin, leather key case and a knife, found in the wreckage, also were identified.

"I viewed the body in the morgue and it is most certainly my husband," she said. "I know every line, every curve and the general build of the body and the body is like the doctor's—even to the callous the ring made on his finger."

RUSS UNITED STATES IS A POTENTIALITY.

AMBASSADOR DECLARES AMERICA WILL PLAY LEADING PART IN RECONSTRUCTION.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, July 19.—A United States of Russia is a potentiality, as that country can be properly governed only through a Federal organization, Boris Bakhmetieff, Ambassador to the United States of the provisional government of Russia, which preceded the present regime, told a gathering at the Commercial Club today.

"America will play a leading part in the reconstruction," he said. "The refusal of this country to participate in any dismemberment of Russia and to recognize the present government there, has solidified Russia's friendship for America.

"The forthcoming government of Russia will be composed of those peasant groups that maintained their unity during the war," he said. "They will combine in opposition to the Bolshevik regime."

YOUNG CHICAGO MISS SENTENCED FOR THEFT.

[EXCLUSIVE DISPATCH.]

CHICAGO, July 19.—Florence Miller, 19 years old, a girl bandit who used a pistol in her hold-up game, today was sentenced to a year in the House of Correction by Judge Sullivan.

"I hope you will be a better girl when you get out," the judge said.

"I do not believe it will do much good," responded the girl. She pleaded guilty to a charge of robbing Mrs. Jennie Thomas of $10, brandishing a pistol in the face of her victim while relieving her of the cash. Valeria Luchowski, a companion, is now a prisoner in the Geneva Home for Girls. She assisted in the robbery. The Miller girl would have been given a heavier sentence but for a plea for leinency made by her victim.

MEXICAN SHIP LINE OPENS NEW SERVICE.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, July 19.—The Mexican Navigation Company of Mexico is to establish a service between Salina Cruz and San Francisco, operating the steamer Mexico of 3000 gross tonnage, it was announced today by the Anglo-Southern Company. The Mexico will arrive here about August 1 and will sail for Salina Cruz about August 15.

The Mexico will carry both cargo and passengers, and will stop at all important Mexican ports between San Francisco and Salina Cruz.

Who Goes To Work With You ?

One of two companions leaves the breakfast table with you; help or handicap.

The right food gives you a lift with the day's work. The wrong food weights you down.

Grape-Nuts *is a help.*

It gives balanced nourishment without taxing the digestion as heavy, starchy foods do. It *adds* energy without taking energy away.

Grape-Nuts with cream or milk contains the essential elements needed by body and brain.

Crisp, sweet, delightful—Grape-Nuts is an ideal dish for breakfast or lunch.

CASS & JOHANSING
Insurance Brokers

are your "Friends at Court" when you go seeking protection against loss by fire or storm on your factory or other business establishment. They study your requirements and assist you in selecting the policy to fit them.

As Insurance Brokers, they represent YOU—the insured or the one to be insured. Their responsibilities and their service extend further than those of the insurance agent. They make your problems their own, lift the worry and the bother from your shoulders, see that you are protected to the fullest possible extent. Because an up-to-date appraisement of your property is the basis for determination of its insurable or recoverable value in case of loss, CASS & JOHANSING keep your insured property appraised—and without extra cost to you. Wheat Develops Strength After Lunch Hour.

[EXCLUSIVE DISPATCH.]

CHICAGO, July 19.—Wheat developed strength after mid-day, but best prices were not held at the finish. Trade was featured by good buying of futures by commission concerns for seaboard account, indicating export business. This factor caused many shorts to cover and there also was a reinstatement of lines sold out earlier in the day. Resting spots in wheat were at an advance of ⅝@1¼; corn closed ⅝@1¼ higher and oats showed gains of ⅜@⅞. Rye ruled ½@1 lower, being affected by sales of July by cash interests. Provisions showed irregularity. Final shipping sales were placed at 130,000 bushels wheat, including 100,000 bushels to exporters; 190,000 bushels corn, including 150,000 bushels to exporters; 145,000 bushels oats and 5000 bushels barley. Cash wheat premiums were easier, but not much changed and corn and oats basis remained the same. Seaboard reported sales of 500,000 bushels wheat for export and 100,000 bushels corn.

Sentiment in wheat was mixed. Market started out with fair recessions, rallied on subsequent trades only to drop back below yesterday's resting spots. Commission houses had fair buying orders to execute on all dips, while an inclination to sell was noted on the part of locals on any bulge. A good part of the purchases were credited to eastern interests. Seaboard was again after wheat and it was said that additional sales to Germany were made overnight. Harvesting is about completed in Illinois and threshing is under way in Iowa.

Milling demand locally was of excellent character.

Action in corn was much the same as that in wheat. Local pressure was evident early, because of rains overnight in the central portion of the belt. Commission houses supported the market on the break and when wheat had a rally early sellers switched to the buying side. However, additional opposition was encountered on the bulge and prices weakened. Forecast is for generally cool weather. Reports from Illinois and Iowa told of the excellent progress of the corn crop and every indication is for good yields generally. Cash market started out easier, with no change being made in discounts. Receipts were estimated at 150 cars.

Oats dropped at the outset on selling by a prominent commission house. Locals and scattered commission house buying absorbed the offerings on the way down and when wheat rallied oats followed. Offerings came out on the upturn and values sagged. Trade in this grain during the early hours was without much feature and prices were inclined to trail other grains. Country offerings of oats were reported light. Reports of light weight oats are numerous. Missouri message claims that oats in many districts were so poor that they were not even threshed. Cash oats started unchanged. Cash rye ½@1 lower; No. 2 rye sold at 1.27@1.27½. Receipts 41 cars.

Steadiness at Opening of Cotton Market.

[EXCLUSIVE DISPATCH.]

NEW YORK, July 19.—Steadiness at the opening of the cotton market this morning when prices were generally 4@7 points higher, was based upon firm cables, a forecast for showery weather over the belt and local Wall street and Liverpool buying. Spot houses and New Orleans sold more readily and after the start the list was about steady, having lost all of its early gain under this pressure. There also was scattered selling by room traders.

Much of the trading around mid-day was in the way of switching between October and December at a difference of about 46 points and it was evident new buying was favoring the December rather than the nearer positions. Further boll weevil talk and the uncertain weather prospects held the market steady.

The market became still firmer on covering and buying due to bullish crop and spot reports at a net advance of 14@15 points.

Poultry, unchanged.

CANTALOUPES TAKE SHARP DOWN TURN.

CORN CONTINUES WEAK UNDER HEAVY SUPPLIES; BEANS, POTATOES FIRMER.

Although a weak undertone continued to prevail for a few of the leading lines of fruits and vegetables on the local produce market yesterday, most of the offerings held firm and unchanged at the level of the preceding day. The buying demand was limited, but receipts of most commodities were moderate, and the majority of the country offerings were cleaned up during the session. Cantaloupes, however, slumped sharply on account of the decreasing demand and because of the poorer quality of the offerings during the past few days. Good stock was jobbing freely yesterday at $1.65 per crate, as compared with $2.25 of the preceding day. Casabas also declined, selling at 2 to 2½ cents per pound in small lots. Watermelons held steady under a fairly active demand.

Supplies of corn continue heavy, and the movement was slow at 40 to 50 cents per lug box. Peaches and plums were practically unchanged, although the demand was very slow, with a light movement. A slight advance was made yesterday by beans, which have been very scarce since Saturday, and prices ruled about 1 cent per pound higher. Potatoes were also firmer, owing to the advance made in the shipping market. Jobbing sales were reported at $1 to $1.25 per hundred, with demand active at the higher level.

In the carlot market potatoes took a slight upward turn. The wire inquiry was brisk, and buying from the farmers was more active. Carlot sales f.o.b. usual terms were reported at $1 to $1.15 per sack, while growers were being paid from 80 cents to $1 per hundred, an advance of about 15 cents per sack over previous pirces.

STRONG GAINS ARE MADE BY BARLEY.

The sharp upward trend in the outside grain markets yesterday was reflected in strong advances on the local exchange, all shipments of barley moving up to a higher close. Trading, however, was very quiet, and there were no sales made during the session. The transit article was $1.25 per ton higher at the close of the call, fifteen-day barley moved up $1, and the ten-day delivery moved up 25 cents per ton. In the deferred shipments, July advanced 50 cents, and the August and December deliveries were up 75 cents.

EDWARD HINES ASSOCIATED LUMBER COMPANIES

$5,000,000—First Mortgage—Due 1924-36

Back of this issue are the holdings of the corporation consisting of timber lands in Wisconsin and Mississippi, saw mills, railways and other equipment. The profitable and efficient operation of the property is assured by the fact that the Weyerhaeuser interests are cooperating in its management. Before the war this property was valued at $20,000,000. Today, its net assets show $33,700,000. Its net earnings for the last four years have averaged over three times the interest charges on these bonds. The company's surplus has approximated $7,000,000 per annum for the last twenty-nine years. These serial gold bonds, yielding 8 per cent, are offered at par, subject to prior sale. The security back of the issue and its established earning power make this investment opportunity an unusually attractive and conservative one.

DAILY TRADE TALK.

Sales Increase as Stocks Decline in Los Angeles Stores.

BY CHAPIN HALL.

Condition of retail trade in Los Angeles is excellent. It is out of proportion with the rest of the country and supplies another evidence of the strength of the economic resources behind this community.

Net sales have increased over the preceding month and over the corresponding month a year ago in about the same proportion, but the percentage for the half year shows an 8-per-cent increase over the corresponding period in 1920.

A significant feature of the summary of the reports from six representative department stores covering their business for the month of June and made public yesterday by John Perrin, chairman of the board and Federal reserve agent for the Twelfth District, is shown in the sharp decrease in stock. The summary follows:

(1.) Percentage increase of net sales during June, 1921, compared with net sales during same period last year, 2.9.

(2.) Percentage increase of net sales during June, 1921, compared with net sales during May, 1921, 2.3.

(3.) Percentage increase of net sales from Jan. 1, 1921, to June 30, 1921, inclusive, compared with net sales during same period last year, 8.0.

(4.) Percentage decrease of stocks at close of June, 1921, compared with stock at close of same month last year, 17.6.

(5.) Percentage decrease of stocks at close of June, 1921, compared with stocks at close of previous month, 9.1.

(6.) Percentage of average stocks at close of each month this season to average monthly net sales during same period, 376.0.

(7.) Percentage outstanding orders at close of June, 1921, to total purchases during year 1920, 11.1.

CANNED GOODS.

Under the caption "higher levels for canned goods," the following from the Boston News Letter is of interest in connection with Van Camp Packing Company, Inc., 8 per cent first mortgage bond issue:

"Authorities predict large shortages this fall in practically all kinds of canned food, with higher prices. The basic cause is the slump which, last winter, caused packers, jobbers and retailers heavy losses; the immediate cause is the widespread and protracted spell of hot, dry weather recently.

"Pack of early eastern fruits—cherries and all varieties of berries—is figured at 15 per cent of 1920 pack, as most these crops were almost destroyed by the hot spell. Pack of California fruit, including peaches and apricots, will be about 60 per cent of normal.

"This season's tomato pack is estimated at not over 33 1-3 per cent of the 1920 total. Even adding the carryover from last year, available supply will not be more than one-half of the 1920 pack of 11,368,000 cases. This compares with a seven-year average pack of very nearly 14,000,000 cases."

SEES SILVER LINING.

Robert E. Hunter, of Hunter, Dulin & Co., has returned to Los Angeles after an extended business trip to New York and Chicago and other large eastern cities. A distinct feeling of optimism prevails in the East that business is on the threshold of nation-wide prosperity, says Mr. Hunter, and he adds:

"The feeling is general that the worst has come and gone. The country's industrial leaders and financiers are now looking forward to a healthy business revival in all walks of life, which is to come in a healthy and conservative manner. The predictions are, however, that there will be no immediate industrial boom for the reason that a readjustment of wage scales must inevitably take place before the larger and more representative plants can produce at maximum capacity.

"The banking situation is sound. I found Federal reserve conditions throughout the East materially improved, particularly with respect to decrease in rediscounts.

"What is regarded as another hopeful sign is the noticeable increase in demand for the higher grades of investment securities, an indication that the people have foregone the more speculative uses of money for the sounder and more conservative channels.

"The railroad situation shows marked improvement, a good impression having been made as a result of President Harding's recommendation to Congress that the roads be reimbursed for a large proportion of the moneys owed them by the government. Under private management the roads are operating more efficiently with a diminution of lost motion."

McDONNELL & CO.

Another fine home for a well-known investment banking house will be open for business today when McDonnell & Co. take possession of their new building at 634 South Spring street. The structure is of classic design, erected for the exclusive use of the company and containing the latest equipment for convenient handling of a large volume of business and for the comfort of their customers.

The board-room is seventy-five feet long, and is said to contain the largest board in the country. This is built on a curve so that a good view may be had of it at all angles. The finish is in hardwood and the design throughout is most attractive.

McDonnell & Co. is composed of James, Hubert and Robert McDonnell, William P. O'Connor and Harold L. Mack. They own two seats on the New York Stock Exchange as well as memberships in the New York Cotton Exchange, Chicago Board of Trade, New York Coffee and Sugar Exchange and New York Produce Exchange. Offices connected by leased wire are maintained in New York, San Francisco and Los Angeles.

The company maintains bond, investment and statistical departments, and has a complete plant for the handling of investment business in all its branches.

Harold L. Mack of San Francisco is the resident partner, and the Los Angeles office will be in charge of W. C. Gregg and Robert F. Calvan, Jr.

The office will be operated as a main office, not as a branch office, with all book-keeping and banking facilities.

EAST BAY WATER COMPANY.

A new issue which will interest investors today is the offering by several Los Angeles investment bankers of $2,500,000 East Bay Water Company unifying and refunding mortgage fifteen year 7½ per cent series A gold bonds.

This company, based upon the number of services in use, is the second largest privately owned water utility in the United States, with a total of 73,623 meter connections.

The president of the East Bay Water Company is Edwin O. Edgerton, recent head of the State Railroad Commission of California.

The East Bay Water Company, a California corporation, was formed Nov. 13, 1916. The company, with its predecessors, has been engaged for fifty-six years in the production, distribution and sale of water for domestic and industrial purposes in the cities of Oakland, Berkeley, Alameda, Piedmont, Emeryville, Albany and San Leandro in Alameda county, and Pinole and Richmond in Contra Costa county. These communities are advantageously located on the eastern shore of San Francisco Bay and have a combined population of 350,000.

The company has recently made improvements which will supply all the water needed in this locality for 15 years to come.

Included in the underwriting syndicate are Blyth, Witter & Co., Cyrus Peirce & Co., Stevens, Page & Sterling, Stephens & Co. and Frank & Lewis.

NEW PROSPERITY FOR GLOBE GRAIN.

The annual meeting of the stockholders of the Globe Grain & Milling Company was held yesterday featured by a highly optimistic report of improving conditions.

Indebtedness has been reduced from $6,895,990 on Jan. 1, 1920, to $3,388,403 June 30, 1921. Net earnings, according to Secretary Buckley's report, are $136,000 for the past three months.

General conditions were declared to be steadily improving.

ALFALFA MARKET.

Receipts of alfalfa hay in the central markets showed a further falling off for the week. Receipts of grain hay, while still substantial, show the same tendency. The demand for alfalfa hay is still largely confined to current consumption.

Alfalfa Growers of California, Inc., market letter says that dairy supplies near the city show average stock sufficient for only about one week's feeding.

Present ruinously low prices of alfalfa are not justified, considered from the standpoint of underlying conditions of production and consumption for the year, and still less so from the standpoint of cost of production; it is the present marketing situation, created partly by the general business conditions but mostly by lack of co-ordinated marketing on the part of unorganized growers, which is responsible for the present price situation.

Following is a statement of cost of production in the Riverside district, one of the important alfalfa districts in the southern part of the State, which produces almost exclusively hay for marketing; this particular ranch confines itself altogether to it. It is managed very efficiently and its hay has the highest reputation for quality. The figures are taken from its last year's accounts and therefore show actual results, not estimates. Size of ranch 250 acres:

		Per acre.
Interest on investment ..	$ 6,178.50	$ 24.71
Taxes	2,390.23	9.56
Water	2,739.53	10.96
All other expenses	32,081.86	128.32
	$43,490.17	$173.55

Total production—1,759.56 tons.
Cost per ton—$24.77 f.o.b. cars.

There were 960 tons of grain and alfalfa hay received on the Los Angeles tracks the week ending July 16, with 290 tons held over. There were 1539 tons received in San Francisco. Prevailing prices last week were about: F.O.B. tracks Los Angeles, No. 1 dairy, $19; standard alfalfa, $15. F.O.B. San Francisco, No. 1 dairy, $16; standard alfalfa, $14.

BIG MUNICIPAL ISSUE.

The National City Company is offering an issue of $5,000,000 city of Philadelphia fifty-year 5¼ per cent bonds, dated July 16, 1921, with maturities extending to July 16, 1971. The bonds are being sold on a 5.20 basis. In conjunction with Halsey, Stuart & Co., the National City Company is also offering $500,000 Chicago, North Shore and Milwaukee fifteen-year 7 per cent secured sink-

THE COUNTRY OVER.

[EXCLUSIVE DISPATCH.]

FORT WORTH (Tex.) July 19.—Hope of immediate reopening of the Texas coal mines, which have been closed for months, was lost when miners refused a cut in pay. The operators, who say they have been running at a loss, offered to reopen the mines if the men would accept a reduction in the tonnage scale at Thurber and Strawn from $2.65½ to $2, corresponding reductions at other points and a reduction in the day scale from $7.50 to $5 for underground labor. The United Mine Workers' representatives refused. About 5000 miners will continue idle in this neighborhood.

SAN FRANCISCO, July 19.—Business is slow in most lines in this territory, but money is somewhat easier. Labor troubles have operated to check activity in many industries and the fruit men, as a result of damage to crops from unfavorable weather are receiving less for their products than was expected. Building has been partly resumed on an open-shop basis, but construction work is not active.

BOSTON (Mass.) July 18.—Business conditions in New England are a shade better than they were a week ago, although the situation still is far from being entirely satisfactory. The four largest Boston banks paid off today all their loans from the Federal reserve bank, which, at the peak, aggregated $105,000,000. Banks are buying bonds in volume for the first time in years. Woolen mills are very busy and some actually are behind on orders for fall. The openings for spring goods are expected to be held within the next week or two.

Coupon bonds in denominations of $1000, $500 and $100, with privilege of registration as to principal. Redeemable at 105 on any interest date.

Mercantile Trust Company, San Francisco, Trustee
Tax Exempt in California

The following summarized description of the Unifying and Refunding Mortgage 7½% Gold Bonds, Series "A," has been prepared for us by Edwin O. Edgerton, President of the East Bay Water Co., from his letter to us, dated July 15,

The East Bay Water Company, a California corporation, was formed November 13, 1916. The Company with its predecessors has been engaged for the past fifty-six years in the production, distribution and sale of water for domestic and industrial purposes in the Cities of Oakland, Berkeley, Alameda, Piedmont, Emeryville, Albany and San Leandro in Alameda County, and Richmond in Contra Costa County. These communities are advantageously located on the eastern shore of San Francisco Bay and have a combined population of 350,000.

Outstanding Capitalization at Conclusion of This Financing

First Mortgage 5½% Gold Bonds, due January 1, 1946	$9,928,900.00
Unifying and Refunding Mortgage 7½% Bonds, Series "A" (this issue)	2,500,000.00
Collateral Trust 6% Notes due August 1, 1923 (see note*)	1,250,000.00
Class "A" 6% Preferred Stock	5,132,100.00
Class "B" Preferred Stock	2,987,200.00
Common Stock	100,000.00

*Note: These notes are secured by $1,634,000 of First Mortgage 5½% bonds, which must be deposited as collateral under the Unifying and Refunding Mortgage when the notes are retired.

These bonds will be a direct obligation of the Company and a mortgage upon all of its properties now owned or hereafter acquired.

The Unifying and Refunding Mortgage will have an authorized issue of $50,000,000 and will provide that when and as the remaining bonds of the First Mortgage can be issued and when and if additional First Mortgage Bonds are released to the Company by the payment of the 6% note issue due August 1, 1923, such bonds must be immediately deposited with the Trustee of the Unifying and Refunding Mortgage. There will be immediately deposited under the Unifying and Refunding Mortgage $2,500,000 of First Mortgage 5½% Bonds. Eventually there will be deposited under the Unifying and Refunding Mortgage approximately $4,939,100 par value of First Mortgage 5½% Bonds, which will be approximately 33% of the total First Mortgage Bonds outstanding.

Additional bonds may be issued only at par for 75% of the cost of new construction, additions and betterments and then only when net earnings for 12 months out of the preceding 15 months shall have been sufficient to show 1½ times the total interest on all outstanding bonded debt and the interest on bonds of this mortgage for which certification may have been requested.

Based upon the valuation of the Company's properties made by the Railroad Commission of the State of California at the time of the incorporation of the Company plus subsequent expenditures for improvements, extensions and betterments of plant, the present physical property investment of the Company as of January 1, 1921, is $19,180,000. The Company owns in excess of 45,400 acres of real estate conservatively valued at $7,250,000.

Based upon the estimated increased growth of the East Bay cities, the present developed water supplies of the East Bay Water Company are sufficient for the next ten years.

Based upon the number of services in use the East Bay Water Company is the second largest privately owned water utility in the United States. The total number of services installed as of January 1, 1921, was 70,203, an increase in the past ten years of 27,528 services, or 65%.

The Company operates in municipalities served under constitutional franchises with no time limitation.

The proceeds of this bond issue will be used to reimburse the Company's treasury for capital expenditures heretofore made, to provide funds for the acquisition of additional property and for necessary improvements to the plant of the Company.

Comparative Statement of Earnings

"Something Thrown In"
With Every Bond We Sell

It used to be customary for merchants to "plus the sale" by giving something away with each article sold. The purchaser of a boy's suit got a baseball bat free. An extra pair of shoe laces always went with a new pair of shoes.

Though we do not give away bats or shoe laces, we believe in the principle of "plussing the sale."

What we throw in when we sell bonds is a superior type of service—a service which places the interests of the client first.

With us it is never a question of selling the bonds we are anxious to dispose of, but rather of making a careful study of your needs and then going to extra trouble, if necessary, to secure the bonds that will exactly meet your requirements.

NEW YORK STOCK EXCHANGE

[BY A. P. NIGHT WIRE.]

NEW YORK, July 19.—Washington today stimulated trading in stocks. Oils, especially the foreign group, early in the session, displayed activity and strength, on rejection by the House of the proposed tax on imports; lost ground at midday, and rallied sharply later.

Rails showed more consistent strength Low priced, as well as major shares advanced irregularly in the belief that legislation leading to funding of their obligations soon would be taken up by Congress.

Steels, equipments, motors and affiliated issues followed yesterday's uncertain course. Strength in several prominent issues, was offset by heaviness in others, notably General Electric, Studebaker and Chandler.

Sugars, tobaccos, leathers, and the more miscellaneous stocks, moved within restricted areas, more gains than losses being shown at the firm close. Total sales of 315,000 shares approximated the year's low record for a full session.

Fresh reactions occurred in foreign exchange, with the British rate again particularly weak. Recoveries followed when dealers reported moderate buying of grain and cotton bills for English and French accounts.

Call money exceeded the demand, the 6 per cent rate on the exchange being lowered to 5½ per cent in private negotiations. Similar conditions applied to time funds, for which a nominal inquiry was reported.

Business in bonds was relatively greater than in stocks, Liberty issues showed mixed gains and losses, but most domestic and international groups tended upward. Total sales, par value, $10,450,000.

8% first mortgage land bonds
—offered by California's largest bank

A $500,000 Issue Is Under the Trusteeship of the Bank of Italy

This is one of the most desirable bonds we have ever been privileged to offer.

The security is LAND—37,697 acres—appraised by A. W. Hendricks, ex-Chief Appraiser of the Federal Land Bank (Berkeley) at $1,472,870. Mr. Hendricks is now Vice-President of the California Joint Stock Land Bank.

These bonds are a first mortgage on the vast land holdings of the Wood Livestock Company. For the past 34 years the net earnings of the company have averaged approximately $100,000.00 a year. The earnings have not been distributed but have been largely put back into the property. The present net worth of the company is $3,000,000.00.

As long as any of these bonds are outstanding the Company must maintain net quick assets (that is, excess of quick assets over current liabilities) in an amount equal to at least 150% of the bonds outstanding.

The investment offerings of this bank are always consistent with its reputation for conservatism, reliability and integrity.

Our bond business is based on the same sound banking principles upon which California's largest financial institution has been builded.

The Bank of Italy affords investors one of the most complete and dependable investment services in the United States.

If you have $500 or $100,000 to invest—come to the Bank of Italy.

THE HELLENIC OIL SYNDICATE

To be the next BIG SENSATION of the Breckenridge (Texas) Oil Fields.

Its neighbor, the Hart Well, is in for 1700 barrels daily and increasing its flow every day.

The big oil men in the field are eagerly watching the HELLENIC with its 40 rich acres and 4 wells, for their first well is nearing the sand and a big gusher is expected.

The HELLENIC is managed by George S. Anderson, who so successfully managed the "Y.M.C.A." and "BLOCK 41" Syndicates, which have paid over 700% since last November, and are still paying. He says the HELLENIC will pay 4 times the dividends his other two syndicates paid. He ought to know; he has never made a failure.

The HELLENIC units are $100 each and they are selling fast, for the time is short. Join this lucky man while you can. Remember, he gives you a square deal and unit holders get FOURTEEN-SIXTEENTHS of all the oil the 4 wells produce.

A STEADY FLOW OF LIQUID GOLD

What the eye can see, no man can question. If you could visit the A & T Oil Company's property in the famous Ventura County, California, you would see the four A & T wells producing. For those who cannot make this trip, we reproduce above an unretouched photo of No. 4, one of A & T's four producing wells in Ventura County.

A. & T.'S No. 24 Derrick Going Up Now on Signal Hill

At the corner of Marie Street and Signal Hill Drive, on the top of Signal Hill, A & T No. 24 Derrick is under construction. A & T plans call for immediate drilling of this well as soon as the derrick is completed and equipment is installed.

A & T's No. 24 well is a sure winner. It is located between the two Shell wells, almost on a direct line. The nearest Shell well is on production now, reported to be in large quantity. This well, according to Irving V. Augur, encountered 400 feet of oil sand, which undoubtedly is only the first zone. He says: "If this field is similar to other fields in Southern California, there should be several thousand feet of oil strata below the present depth of the Shell well. This means that the possibilities of production have only been scratched. In case this thickness is encountered in drilling of future wells, there is a possible production of from 1000 to 10,000 barrels a day from wells drilled close to the apex of the dome."

A & T's No. 24 well is practically on the top of Signal Hill, as near to the apex of the dome as possible—nearer the top than the Shell well now producing. The cream of production should be obtained on the top of the hill. A & T's well is on top of the hill.

A Queer Lizard.

A small rocky island off the coast of New Zealand is the only home of the tuatara lizard, a queer little creature that is regarded by naturalists as a survival of an earlier age in the world's history. The tuatara has a primitive bodily structure and extraordinarily sluggish habits. It appears to have no kindred in the world today, but the remains of similar creatures have been found in the fossil rocks. Experts consider that the survival of the tuatara on Steven Island is accounted for by complete isolation and the absence of formidable natural enemies. The lizards have lived there for countless ages, and the latest reports from the island, which is strictly protected by the New Zealand government, indicate that they may still be there in ages to come.—[Christian Science Monitor.

A Woman's Wants.

Mrs. Wickwire: If woman was given the credit she deserves, I don't think man would be quite so prominent in the world's history.

Mr. Wickwire: I guess you are right, and if she could get all the credit she wanted he'd be in the poorhouse.—[Seattle Post-Intelligencer.

FINANCIAL AND TRADE REVIEW.

(Continued from Eighth Page.)

ing fund gold notes, due June 15, 1931, at 89½, to yield about 8.20 to the investor.

AS SEEN BY OTHERS.

Do not look for a marked improvement in business conditions until fall. In the cities the vacation period always has an effect on business. In farming communities, the farmers, for the next sixty days, will be too busy making crops, or harvesting the same, to do anything in the shopping line.—[Farmers' and Merchants' National Bank.

LOS ANGELES STOCKS.

Delaware Union developed a slight weakness yesterday and small blocks sold down to 18.87½, an eighth under Monday's price. California Union was at 133. There was a moderate movement of Globe Grain and Milling, which sold off 2 points during the session, from 45 to 43. Several thousand shares of Republic Petroleum went over from 31½ down to 31 cents, but otherwise there was little of a distinctive character about the trading, which was in slight volume and within close limitations.

CHECKING ACCOUNT TAX.

A number of eastern banks have announced a discontinuance of the policy adopted during the war of levying a service charge upon checking accounts where monthly balances fell below $100. This charge is still in effect in Los Angeles, which leads a Trade Talk correspondent to suggest that the war is as nearly over here as it is back East.

GOODYEAR SUED.

A suit involving an unusual point has been filed in Boston against the Goodyear Tire and Rubber Company of Akron. It is alleged that patent rights have been infringed in copying a wheel invented some years ago for use on street railways to break up ice and snow.

SOMETHING TO CROW ABOUT.

Central California poultry producers will have sales this year in the neighborhood of $10,000,000. Thirty thousand persons are engaged in the industry in that part of the State, and the investment is estimated at $40,000,000. According to the Petaluma Chamber of Commerce 22,222,923 dozen eggs and 2,330,492 heads of poultry were shipped from there last year.

SHOE TRADE BRIGHTENS.

Shoe merchants report an increasing demand for their goods, following a period of quiet which indicated a determination on the part of the consumer to indulge in a strike pending price readjustment, which, in this line, has been slow to manifest itself. Reports from the East say that the retail stimulation is finding logical reaction in the factories, which are busy with orders enough to carry them into the fall. More shoes are being ordered and made, and with less price discussion. At this time there appears to be little reason to anticipate further cuts of immediate importance.

HIGHWAYS SELL FAST.

The $4,873,000 block of State highway 5 3-4 per cent bonds purchased by a syndicate of which Blyth, Witter & Co. are local members was largely oversubscribed shortly after the books were opened. The bonds were offered to the public at prices to yield from 5.40 to 5.75 per cent according to maturity.

BIG OIL CONTRACT.

Union Oil of California will supply the fuel oil requirements for the Pacific Fleet for the remainder of 1921 at $1.43 per barrel delivered at tidewater. The price paid under contracts which expired July 1 was $2 per barrel. It is estimated that 4,000,000 barrels will be required.

SAN PEDRO BRANCH.

The California Bank has been authorized by the State banking department to establish a branch commercial and savings bank in San Pedro.

FOOD IN STORAGE.

Volume of commodities held in Los Angeles warehouses for the week commencing July 13:

Commodities—	Last year.	This year.
Eggs (cases)	97,755	146,135
Butter (pounds)	992,183	574,808
Cheese (pounds)	505,302	1,447,821
Apples (boxes)	5,202	19,540
Potatoes (sacks)	......	12,295
Onions (sacks)	......	......

HYDROELECTRICS.

Martin Judge, Jr., & Co., have compiled a taublation showing ninety-one issues of California hydroelectric bonds indicating approximate market prices and yields of from 6 to 10 per cent. Sixty-four of these bonds are designated as legal investments for California savings banks.

DUTY ON COTTON.

Cotton growers are pleased with the action of the House in approving a duty of 15 per cent ad valorem on long staple cotton, and anticipate that the duty may do much toward stabilizing the market.

AVERAGE PRICES.

Average price of twenty industrials 67.87 an advance of .43 per cent. Twenty rails, 70.70, an advance of .37.

EGG ADVANCE.

Eggs continued to advance yesterday, when produce exchange quotations for case counts and pullets moved up 1 cent to 35 and 32 cents per dozen. This would make the average retail price about 37 to 40 cents. Butter remained firm at 44 cents per pound on the exchange.

EQUIPMENT CERTIFICATES.

By an order of the Railroad Commission the San Diego and Arizona Railway Company is authorized to sell $750,000 of series "A" equipment trust certificates at 6½ per cent interest. These certificates will be issued by a trustee and the proceeds used to pay in part for equipment which will be leased to the company. The company is further authorized to mortgage real property in San Diego county to secure the trust certificates issued, and also to sell to the trustee equipment paid for out of construction funds amounting to $138,629.37.

OIL PRODUCTION.

The average daily oil production in California for June was 337,625 barrels against 337,101 barrels in May, according to the Standard Oil Company of California. April continues to hold the record monthly output when the average daily production was 338,981 barrels.

In the North Texas fields last week the daily average was 181,530 barrels, a decrease of 1770 barrels from the previous week. The Gulf Coast field produced an average of 75,270 barrels, a decline of 1179 barrels.

COLOMBIA IS A RICH COUNTRY.

But Its Railroads Are Not Adequate.

Five Hundred Miles by Boat to Reach Capital.

Country Has Yielded Millions of Yellow Metal.

Colombia, the country to which the United States has engaged by treaty to pay $25,000,000 and the scene of some of the principal exploits of Simon Bolivar, liberator of the northern states of South America, is the subject of the following bulletin issued from the Washington headquarters of the National Geographic Society:

"Colombia, which occupies the northeastern corner of South America and forms the southern 'abutment' of the Isthmus of Panama, is typical of the entire northern and northeastern portion of the South American continent. It is tremendously rich in all sorts of natural resources and almost wholly undeveloped.

WEAK IN RAIL LINES.

"It has an area of nearly 500,000 square miles, which means that it is almost twice the size of Texas; yet it has less than one-twentieth of the railroad mileage of that State. To put it differently, there is a mile of railway in the United States as a whole for every thirteen and one-half square miles of area, while in Colombia there is only a mile of railway for every 600 square miles of area. Most of the Colombian railways are of narrower gauge, by a foot or more, than those of the United States. They do not form a system, but for the most part are in lengths of twenty-five to one hundred miles, scattered about the country.

"Bogota, the capital or Colombia, is situated between ranges of the Andes on a plateau at an elevation of more than a mile and a half. It is approximately 450 miles from the Caribbean Sea, along the most accessible route, and 200 miles from the Pacific across the Andes. It has no rail connection with either sea. To reach it one must travel for 500 miles up the winding course of the Magdalena River by boat, skirting rapids by means of a short-length railroad, and finally cover the last fifty miles from the head of navigation by rail. The trip sometimes requires several weeks. Transportation of supplies throughout much of the interior is by means of a short-length railroad.

"More than half of the area of Colombia lies east of three ranges of the Andes and consists of plains country sloping toward the center of the continent and drained by the headwaters of the great Amazon and Orinoco River system. Covered with succulent grasses these plains form an unsurpassed stock-raising country. It is largely unutilized and is to be compared with the plains of Rhodesia, South Africa, as one of the richest unoccupied regions suitable for cattle raising remaining in the world. It is estimated that more than 10,000,000 head of cattle could be pastured on these 'llanos' of Eastern Colombia.

HAS A VARIED CLIMATE.

"Colombia's climatic conditions vary from the subtropical near the shores of the Caribbean to Alpine in the higher Andes. Forests cover millions of acres; the deltas and river valleys yield cotton, tobacco, cocoa, bananas, rubber and other tropical and subtropical products, while on the hillsides coffee thrives. On the plateaus grains and other temperate zone products may be grown. The need for railroads in Colombia is indicated by the fact that, though considerable quantities of grain are produced on the interior plateaus, it has always been cheaper to buy grain from the United States in the Colombian coast, cities, after it has been shipped thousands of miles, than to transport the domestic grain the few hundred miles from its place of production.

GOLD FOUND IN ABUNDANCE.

"Gold has always been one of the important products of Colombia. Since the coming of the Spaniards at the beginning of the sixteenth century approximately seven hundred million dollars worth of gold, it is estimated, has been mined in the country. Between five and six million dollars worth is produced annually at present. Iron ore and numerosu others minerals are present in paying quantities. Perhaps most important of all, there are indications that large quantities of petroleum may be found.

Colombia was named for Christopher Columbus, who in 1502 started in the country where the Isthmus of Panama meets South America the first settlement on the mainland in the New World. This settlement was short lived. Carthagena one of the chief ports, was established in 1533. It was heavily fortified by the Spaniards, and served as the collection point and place of safe keeping for the treasure from both coasts of South America preliminary to its periodical shipment to Spain under convoy.

"After independence was won from Spain in 1819, Colombia was combined with Venezuela and Ecuador as the 'Republic of Colombia.' Later there was a seperation and Colombia became by turns the 'Republic of New Granda,' the Conferation of Granadina,' the United States of Colombia,' and finally in 1886 again the "Republic of Colombia.' Bolivar, though born in Venezuela, led the Colombians to liberty and became the first President of the republic. He was banished from Venezuela and retired to a country house in columbia near Santa Maria. His home, 'the Mount Vernon of South America,' is today a shrine in which are preserved many relics associated with his battles and political triumphs."

NO WORDS WASTED.

H. J. Jennings, once editor of the Birmingham, (Eng.) Mail, claims to have written the shortest dramatic criticism ever penned:

"Last night a play called 'Pure As Snow' was produced at the Blank Theater. It is not as pure as snow."

His assertion has been disputed and a correspondent attributes the following very brief notice to an American critic:

"A play by Ulysses S—— was played last night. Heaven will judge him."

Equally pointed was a criticism which appeared in a Manchester journal:

"Last night Mr. W——'s play was produced. Quite a number of people stayed to the end."—[London Answers.

PRO AND CON OF ROUGE COMPLEXIONS.

A DISCORDANT VOICE COMES FROM AMONG CRITICISING CHRISTIANS.

In answer to the Christian Endeavor roll call published yesterday, which asserted that rouge compromises the young ideal, Broadway let out a shrill siren of protest against such a slam at its complexion and morals.

Worse things than that happened, too. The World discovered a heretic among Endeavorers, a man who not only mixes Christian Endeavor and rouge in his beliefs, but who mixes rouge for a living, so to speak. C. L. Pfeiffer of the Richard Hudnut Company, makers of face creams, powder, toilet water, soap, and rouge, has confessed to membership in the Christian Endeavor Society.

Here is what he says about the relation between the use of rouge and the ideals of the young:

"The dividing line between what is proper and what isn't proper as an aid to beauty should include rouge as well as face powder. The movement toward using rouge has gone so far that there is no danger of a girl being dragged down or lowered by its use. At least in New York persons are no longer skeptical of the morals or taste or ability of the girl with the city-pink cheeks."

Other manufacturers of the pink-powder-for-pale-people compounds, although not members of the Christian Endeavor Society, felt strongly agin' the idea that Christian standards forbade the use of rouge.

C. L. Nelson of the Vivaudou Company is far from thinking that only freaks use rouge (the opinion of a Brooklyn Endeavorer, Mrs. James E. Anderson.)

"Rouge is like face powder, only a different color. The idea that its use imperiled the morals of the young died long ago."

Silas Marjman of La France laboratories at 410 Lafayette street, said rouge was a legitimate aid to natural beauty if used temperately. Temperance in the use of rouge, that is the key to the whole problem in his opinion.

Several of Broadway's professional women leaped to the defense of the custom of making the cheeks country-colored. Eleanor Painter of "The Last Waltz" and Dorothy Ward of the Winter Garden were among these. Miss Painter thinks Endeavorers must throttle their interest in pretty frocks and must take a vow against false teeth, wigs and every other artificial medium to natural beauty if they would be consistent in barring rouge from Christian Endeavor standards. In her opinion, properly applied rouge creates youthfulness, vivacity and beauty, and thus enriches the world, rather than contracts its total of desirable elements.

Miss Ward feels rouge "has no more relation to morals than rain-water. The idea that one should not use rouge because God did not make the cheeks naturally pink, died with the custom of witch-burning," she thinks. Because so many city girls have found its use imperative, she said, people no longer misjudge the rouged girl, and cannot, indeed, tell her apart if she knows how to put it on.

One more protest against discrediting the girl who uses rouge was made by Mrs. Helen O'Grady, who, as Deputy Police Commissioner, handled many delinquent girls.

"The finest girls use it nowadays. You've got to admit it," she said. "Those with the best standards and the most blameless ways are all using it. If one is fair he must stand by the girls who us it."—[New York World.

SCIENTISTS ECCENTRIC.

The eccentricities of scientists are like those of artists, says Dr Charles F. Baldhan of the United States Public Health Service. There is, for instance, the classic example of Dr. Elie Metchnikoff, of the Pasteur Institute, who became famous for the discovery of the so-called bacillus of long life, the microbe which makes buttermilk sour. The doctor was, quite naturally, very particular about germs. One day he was eating grapes and he was so careful that he washed each grape separately in his water glass. Then he drank the water in which he had washed them.—[Philadelphia Ledger.

TRIO ALONE ON LONELY ISLAND.

Man, Wife and Helper See but One Ship in Year.

Spend Time Preparing Copra for Shipment.

Palmyra Group Purchased by American for $750.

[BY A. P. NIGHT WIRE.]

HONOLULU (T. H.) June 19.—Life on Palmyra Islands, several hundred miles southwest of Hawaii, is lonely but busy for a trio of Robinson Crusoes from Honolulu who have elected to live there and prepare copra from the cocoanut groves, according to advices received from them.

Col. and Mrs. William Ming and Edwin Benner, who went there last October, have seen but one vessel, an American Navy craft, since they stepped ashore on Palmyra's quiet beach. When that ship recently came to Honolulu it brought an accumulation of mail from the three telling of life on the cocoanut isles.

The daily routine consists mostly of building trays on which to lay the cocoanuts, they related. These trays are about 100 feet long and three feet wide and day after day the nuts are gathered, gouged and left open in the sun to dry.

The little colony keeps a close watch on the weather, for an hour's shower may spoil a lot of copra. As rain and thunderstorms appear to be fairly regular visitors at Palmyra, weather forecasting has become an important factor in the work.

The islands of the groups are so close together that the Mings and Benner frequently wade from one to another, always, however, with a wary eye out for sharks.

Fish are plentiful and furnish much of their food, while occasionally a bird dinner varies the monotony.

Shoes soon became a problem. They thought they had a plentiful supply, but wet weather and heavy tramping quickly wore down their stock and the three Palmyrans have been "building" their own footwear for some time from the rough material provided by nature.

Palmyra Islands, which have been leased for their copra by a Honolulu syndicate, are the property of Henry E. Cooper, who is said to have bought them from their English owners for $750 and brought them under the American flag.

UNSUSPECTING MAN GIVEN FAIR WARNING.

CUNNING VAMP MAY BE KNOWN BY THE WAY SHE TILTS HER HAT.

If unsuspecting man hereafter falls into the clutches of the vamp after what psychology has gone and done for the males of the human race, he has nothing to blame but his ignorance.

To steer clear of the calculating type of flapper, or, for that matter, of the ultra-reformer, to judge for yourself whether a dear young thing will make a good wife, all you've got to do is to follow the simple prescription of science. It's much easier than getting a certain other kind of prescription from a doctor.

SECRET'S IN THE HAT.

Just look at the brim of her hat! You'll find the answer there, And, if she isn't wearing a hat, by all means resort to subterfuge to adorn her with millinery. It contains the whole secret of her personality. It all depends on how it's tilted.

Psychologists can explain anything, that is, if one can understand them; but in this latest discovery they have really done something useful, and there's no "hokum" about it, for they are supported by millinery salesmen and saleswomen, buyers and department store experts.

What they have learned about the symbolism of millinery would fill a book. Here's some of what they hail unanimously as the truth:

Chronic flappers wear the sailor hat with the bobbed hair cut to match.

The country girl favors as many flowers, fruit and vegetables on her hat as space will permit. She wears it on the back of her head with a provincial air and can be counted on as example of unsophistication.

On the contrary, the city vamp is prone to more subtle combinations. Veils are particularly revealing when it comes to vamping tendencies, and she wears her headgear with a rakish tilt. Beware of her if the brim of her hat is flexible.

The intellectual girl who goes in for sports and women's rights usually wears a hard sailor with a stiff brim, or the sailored perched high on the forehead. The more forehead exposed the greater degree of intellectuality. This species, 'tis said, is more deadly than the vamp.

The clinging vine type of femininity still clings to the floppy brimmed hat. She enjoys being domesticated and will make the best wife.

Unmarried girls from 35 to 40 wear brimless turbans to defy analysis.

THE REFORMER HAS STYLE.

Business girls favor the straight line, close-fitting model, with a narrow brim.

Last, but not least, is the woman reformer who is so intensely righteous that she claims exemption to the vanities of the flesh. She wears a hat of heavy straw in summer closely resembling a bullet, which is most generally adorned with chicken feathers. Her type is easily recognized. — [Baltimore American.

JOINS THE CHAMBER.

LINDSAY, July 19.—Wylie M. Giffin of Fresno, president of the California Associated Raisin Company, owner of an orchard in the Lindsay district, is the newest member of the Lindsay Chamber of Commerce. Mr. Giffin's application for membership and one year's dues were received by Secretary A. M. Robertson.

Mr. Giffin recently purchased the El Torres ranch west of Lindsay, consisting of olives and oranges. As the leading figure in the raisin association, it is prophesied that Mr. Giffin will become actively identified with the citrus business in the State.

PLENTY OF MELONS.

DINUBA, July 19.—Three hundred cars of watermelons will be shipped from Dinuba this year, according to estimate of George Sparks of the Hunt Hatch Company, which has already shipped twenty-five cars this month. The first shipments were made for $20 a ton.

HAVANA FILLED WITH BEGGARS.

Signs of Business Depression Evident Everywhere.

All Cuba Affected by Great Slump in Sugar.

Politicians Dogged Night and Day by Job Hunters.

[BY THE ASSOCIATED PRESS.]

HAVANA, July 6.—Signs of Cuba's business and financial depression are evident to the most casual observer. Three big banks, with scores of branches, are closed. The parks are full of idlers. Stores are blazoning what they call "bargain sales," with goods marked down sometimes as much as 5 per cent from mid-war prices, which is the Spanish merchant's idea of sacrificing profits.

The papers are full of the governmental plans for buying 1,000,000 tons of surplus sugar at a price that will save producers and dealers from ruin, for re-establishing banking facilities that will relieve the pressing scarcity of currency, for cutting the cost of running the government from $104,000,000 to about $60,000,000 a year, and for reducing the cost of living.

Politicians within reaching distance of the political plum basket are dogged day and night by swarms of job hunters. Hundreds of stocky Gallegos, the transient laborers from across the Atlantic, are straggling in from the sugar plantations and walking the streets, waiting for ships to take them back to Spain.

Tenants, with Latin enthusiasm, are organizing "Don't Pay Rent" campaigns until landlords come down to the 1914 scale and the government forces the cost of primary necessities down a couple of hundred per cent.

Out of the nooks and corners where they have lived on the bounty of relatives since the war sent sugar sky high and started a flood of gold into Cuba, they are coming—tapping canes, propelling wheeled chairs, following dogs, being led by children, or hopping on crutches—the beggars are coming to town.

INSPECTION SHOWN IN MOTION PICTURE.

THE GOVERNMENT SHOWS HOW MEAT IS LOOKED AFTER.

A butcher who explains to an anxious housewife why he sells only government-inspected meats is the central figure of a new motion picture produced by the United States Department of Agriculture, "The Honor of the Little Purple Stamp."

"Having worked in a packing-house," explains the butcher, "I realize how strictly all meat is inspected for traces of disease, particularly for signs of tuberculosis or the source of tapeworm." The film goes on to show different steps in the process of inspection—how "suspects" or animals which look as if they might be diseased are weeded out; how the head, internal organs, and carcasses are carefully gone over; how unfit meat is condemned and put in a sealed room. The treatment of such condemned parts with denaturing material in sealed tanks is shown, also their final destination is the form of inedible fat which goes to the soap factory and as fertilizer. Convincing proof is given that no doubtful meat is allowed to reach the consumer as a result of meat inspection which is carried on by the Bureau of Animal Industry.

The re-examination of "suspects" is shown. The inspection of cured meats, as well as fresh killed, is illustrated from slaughter to shipment in cars. It becomes obvious from the picture that meat goes through rigorous inspection before it is designated by the reassuring honor stamp in purple, "U. S. Inspected and Passed."

The meat vendor explains also to his customer that of the 15,000,000,000 pounds of meat eaten annually in the United States, two-thirds is inspected by government officials. The reason some meat is not inspected is that Federal laws governing foods apply only in interstate and foreign commerce. It is therefore necessary, concludes the film, for the discerning buyer of meat to insist on the little purple stamp, which is her guarantee of disease-free animals fit for food.

"The Honor of the Little Purple Stamp" is one reel in length. It is intended for distribution by the department and co-operating institutions. Interested organizations, such as women's clubs, schools, and chambers of commerce, may, however, borrow the film upon application to the department, and certain authorized persons and institutions may purchase copies of it at approximately the cost of manufacture—about $40.—[News Letter Department of Agriculture.

Identified.

Mose Potts was an old colored ditch digger on the farm of a well-known Virginia planter. One morning, after having been at work only a few hours, he was seen approaching the farmhouse with a peculiar limp and an unusual rapidity.

"What's the matter, Mose?" asked his employer.

"It's dis way, boss," he groaned. "Ah see de biggest turtle Ah ever did see wigglin' his haid in de mud, and Ah took de spade and cracked him on de haid, and, boss, Ah'done cut off mah big toe."—[Exchange.

Quasi-Quips.

Shifting responsibility develops a lot of business acrobats.

The appearance effected by this season's fashionable skirts is positively shinful.

Some people can clothe a bare lie in such a way as to make it appear the naked truth.

Vacation. A problem in mathematics. Two weeks of leisure subtracted from business, multiplied by expense, divided by travel and trouble, plus lack of sleep, minus pleasure, equals what?—[Cleveland Plain Dealer.

BUSINESS CHANCES.

HERE'S SOMETHING NEW—
The owner of a fine confectionery and cigar store in Hollywood, located on a fine corner, will lease the confectionery side of his business and give a two-year lease at a time, to some good business man and his wife, providing the party puts up $2400 in cash for this lease and pays his share of the rent, which will be $100 a month. Here is what this means: Put up $2400 and draw down not less than $7500 in the two years, and your money back as well. Don't all talk at once—the first man on the job gets it.

INVESTMENT EXTRAORDINARY!
How would you like to own a part of a company that has averaged 375 per cent per year for the last fifteen years in dividends; that has a surplus of about 135 per cent of its capital; that is manufacturing a product that is in universal demand; that has declared its intention of issuing a 42 6-7 per cent dividend in the very near future? Obviously, the stock of this company is very seldom available, but through a very unusual string of circumstances we are able to offer 28 shares of it in blocks of 7 shares each. It requires about $500 cash to handle a block. For further details address PL, box 329, TIMES BRANCH.

OIL STATION, 97-YEAR LEASE—

HERE IS A SUGGESTION—
If you are expecting to purchase a business of any kind, or buy in with an established concern in the city or suburbs, come in and have a talk with us. We have a few very fine openings at the present time, requiring from $3500 to $15,000. The reason we have not as large a list to select from as some other concerns is, because we absolutely will not undertake to sell a client something that we ourselves have not first been sold on. Doesn't that look like a good and sufficient reason why you should try to deal with us when you are ready to make an investment.

SUN SPOTS BLAMED AGAIN.

Sun spots may be held responsible for the apparent increase in eye troubles noticeable this spring and summer, in the opinion of Dr. Charles Sheard of Southbridge, Mass., at the convention of the American Optometric Association in session in New York City, recently.

Sir Oliver Lodge prophesied more sunlight as a consequence of sun spots this year, but this additional sunlight may not be an unmixed blessing. Sun spots mean increased radiation and resultant increase of "sun energy," for the atmosphere will be so cleared up and so much of its dust particles absorbed that more heat and light will reach us than usual, according to authorities.

"But this greater radiant energy," said Dr. Sheard, "would not be a good thing for people unaccustomed to it. For instance, in the early hot period of March this year, when conditions were summerlike, the transition was too great and the nervous system and vision alike suffered."

The reaction to this abnormal condition of light and heat is shown by headache, inflammation of the eyes, and nervousness. That is, ocular troubles are actually caused by excessive sunlight with an abnormally high energy content.—[New York Evening Post.

COMFORTING.

A Hoosier minister's wife was getting ready to go to the hospital for an operation. Her husband and children had been solicitous of her all day, everything around the house had been very quiet until late that evening, when she heard the 7-year-old twins quarreling. She asked her husband to see what it was about, and he summoned them into the room to give them a lecture on worrying their mother.

"It was all your fault, daddy," Flora retorted.

Floyd nodded his head and the minister asked what he had done. Imagine the feeling when Floyd replied: "Mr. Long said he didn't see where you would get another wife if mother died, and I said you would want Miss E., and Flora said you would want her Sunday-school teacher because you called her your helping hand all the time."—[Indianapolis News.

AUNTIE NOT AN OLD MAID.

Aunt Mary is now 25, and her married brothers twit her about her single state. They also tell her that since she has had her last birthday she is an old maid. This both she and her adoring 5-year-old niece Jean deny.

The other night one of Aunt Mary's admirers called, and little Jean was made a member of the party. Naturally she was more in love with auntie than ever, and when the young man laughingly called her an old maid Jean loyally sprang to the rescue. "No, she ain't an old maid, neither," she denied. "Teacher says any one isn't as long as they roll their stockings down over their knees."

And the subject was immediately changed. — [Indianapolis News.

AN ARKANSAS STORM.

Here are a few developments of the tornado that struck Gravelly, Yell county, recently: A bankbook and some deposit slips issued to T. R. Lazenby, who was killed by the tornado, were picked up forty miles from Gravelly an hour or two after the storm struck; the charter of the Eastern Star lodge of Gravelly was blown sixty miles and picked up on the streets of Clarksville; a contract signed by Prof. A. W. Martin was picked up fifty miles from Gravelly near Scranton; a two-story church building, which stood near the center of the town was picked up by the storm and lifted about 100 feet into the air. There it was held for a time turning 'round and 'round all the while. Suddenly it was shattered as if by a violent explosion and the bits that made it up were scattered over the country.—[Arkansas Gazette.

PATRIOTIC SONG.

Little Marie had gone to Sunday-school for the first time in her life. Now at home the children were beginning to invest in firecrackers and toy pistols for the Fourth. So to Marie the Fourth of July was a greater occasion than even Sunday-school. But she liked the latter and tried to help out by singing the songs that were sung. But one she seemed to like better than the others. It was "There's a Great Day Coming Bye and Bye."

After listening to the chorus twice she joined in for the third singing. To the amusement of the people near her she sang lustily, "There's a Great Day Coming, There's a Great Day Coming, There's a Great Day Coming in July."—[Indianapolis News.

The Cat Duel.

Two cats were about to have a duel.

"Let us have an understanding before we begin," said one.

"About what?" asked the other:

"Is it to be a duel to the death, or shall we make it the best three lives out of five?"—[Exchange.

Dr. Norris is the head of a Sunday school that boasts 6000 young people as members. He teaches personally a class of 2000. His church has a membership of 5000.

Mal-de-Mirthful.

The steward insisted that the seasick passenger try to eat a little. "I will bring you some dinner," he said.

"Very well," said the passenger wanly, as he gazed across the bounding deep. I guess you can bring me some on approval."

"On approval, sir? I don't understand."

"Yes, on approval," groaned the other weakly. "You see I may not want to keep it."—[Boston Transcript.

POULTRY MEN GET TOGETHER.

Raisers in Porterville District Form Association.

Hold Funeral Service for Young Army Officer.

Telephone Company Extends Toll Lines.

PORTERVILLE, July 19.—Enrollment in the Porterville Poultry Association is increasing rapidly according to Manager J. W. Nance, who announces that 75 fanciers have voluntarily paid the initiation fee of $25. Mr. Nance is of the opinion that the membership will reach 200 without solicitation, as every day since organization has brought new members.

Benefits of the organization are being realized through better prices on eggs and in the purchasing of supplies. At this time, according to Mr. Nance, between fifteen and twenty cases of eggs are leaving the city daily. This is considered exceptional regarding the small membership and the fact that many of the local producers are still bound by contracts with outside concerns.

At this time the poultry market is declining and has been ever since organization of the association. However the egg business is good and Manager Nance is confident of a successful year.

FUNERAL FOR OFFICER.

Funeral services for Lieutenant William F. Laumeister, son of Mr. and Mrs. W. F. Laumeister of this city, who died from wounds received in a premature rifle explosion at Platsburg, New York, about a week ago, were held at the Fresno Crematory, this morning at 10:30 o'clock. Rev. J. A. Milligan of Porterville conducted the private services. Funeral preparations have been handled by Carl Loyd, undertaker of this city.

The body was shipped from the East and was accompanied by Lieut. Wilson, a classmate of Lieut. Laumeister at West Point.

BUILD TOLL LINES.

Work is to start immediately on repairing and putting in new toll lines from the Pacific Telephone Company between Porterville and Visalia and between Porterville and Bakersfield. The construction work will occupy about 100 days and improvements will be extensive. A gang of workmen has already arrived.

It is the intention of the company to put in an entirely new toll lead between Porterville and Visalia and new poles, new wires and new laterals will be put in south of this city. J. Masher is superintendent in charge of the construction.

S. S. Champlain of Fresno, connected with a building corporation of that city, has just visited Porterville in order to go over the plans of his company relative to the proposed new homes to be erected here. According to the promoter, building operations will be begun just as soon as the $30,000 quota is subscribed. About one-fourth of the required amount has been pledged by local people. It is hoped that the construction of the buildings will have started by August 10.

SALOON-KEEPER DRINKS EVIDENCE.

Prohibition Agent Taking Time to Write Label Presents Opening.

[BY A. P. NIGHT WIRE.]

MILWAUKEE, July 19.—Albert Multerer, Milwaukee saloon-keeper, drank the evidence seized by State prohibition agents while the raid on Multerer's place was in progress, according to a report to the District Attorney today. While Agent Henning was writing a label to be placed on a bottle of whisky seized in Multerer's saloon, Multerer drained the contents of the bottle, the report said.

RESCUED FROM SEA FOR THE SIXTH TIME.

ATLANTIC CITY, July 26.—Mrs. M. M. Ferrone, 30, wife of a New York visitor, was rescued for the sixth time in as many years by life guards, who risked their lives to do it.

She was torn from the side of her husband by a big comber and swept against the end of a stone jetty at the foot of Indiana avenue. She was badly battered and bruised as the waves hurled her into the jagged stones. Mr. Ferrone tried to get to her, but was thrown against the jetty and rendered unconscious.

Guards Riddle, Kertland and Wescoat went to their assistance and after a hard struggle brought them ashore. When revived, Mrs. Ferrone said she had been saved by guards in California, New York and Europe on five other occasions.

CROP PROSPECTS ARE GOOD IN POPLAR.

POPLAR, July 19.—Grain is still being harvested in this vicinity, and some exceptionally fine barley was harvested from one ranch which yielded nineteen sacks to the acre.

Fruit conditions are good, with the exception of the olives. The olive trees were in blossom when the last May rains came, and much of the bloom was destroyed by the rain. There are large tracts of young olive trees south and east of Poplar which should have had a crop this year, but the crop will be very light.

W. E. Martin has finished drying some two or three tons of apricots, but as yet no arrangements have been made for marketing the crop.

ASSERTS CITY OFFICIALS KU KLUX KLAN MEMBERS

Leader Makes Startling Statement in Reply to Federal Inquiry and Charges of Intimidation.

The startling statement that city officials of Los Angeles are now members of the Los Angeles branch of the Ku Klux Klan was made yesterday by Capt. William S. Coburn of Atlanta, supreme attorney for the Klan, who is here directing the efforts to organize a local branch of the Klan. This effort at organizing is under investigation by the Federal authorities here, following charges of attempted intimidation made by City Prosecutor Widney against Capt. Coburn and other organizers in connection with the Klan's efforts to have the film, "The Clansman," restored to local picture-show screens.

The local Klan is not trying to conceal itself and welcomes an investigation, Capt. Coburn said. It has an office, official stationery and a membership including some prominent lawyers, he added. From other sources has come the statement that three Superior judges are members of the Klan, but no verification of this claim is available. The names of the members are carefully guarded.

In Los Angeles county, Capt. Coburn said, there already are seven Klans, meeting regularly in public halls. They are as follows: Los Angeles proper, Hollywood, Glendale, Covina, Venice and Culver City. He would give no figures on membership.

In regard to reports that the organizers received all of a $10 initiation fee, he said:

"There is no initiation fee as such. A new member may pay $10, or he may do some task for the order instead. If he pays $10 it goes into our fund for upkeep of the offices and rental of the halls. The organizers get nothing for their work. The membership dues of the different Klans are all very small—usually $3 a year."

Mr. Coburn came here several weeks ago from Atlanta, where the Klan's headquarters are located. He said yesterday he has aided in forming organizations in other cities, including New York. Seen yesterday in his office, Mr. Coburn talked freely of the Klan's activities here. He denied certain assertions of City Prosecutor Widney, made in an interview in The Times yesterday, regarding "The Clansman" affair.

WHAT HE SAYS.

"The Ku Klux Klan is incorporated under the laws of the State of Georgia," said Mr. Coburn. "We have organizations in many cities, and one here. Yes, some city officials here are members, and many prominent attorneys. In Georgia some judges on the bench are members. It is not a political organization. In several cases the Klansmen have aided officials in enforcing the law against mob violence, and it stands for the Constitution of the United States. One of the objects of the Klan is white supremacy."

Mr. Coburn admitted that white supremacy and the universal suffrage guaranteed by Constitutional amendments were contrary doctrines in certain parts of the South. He said the Klan, however, while not approving of negro political equality stood for the Constitution "until it is changed."

On the door of the office is the name "William S. Coburn" and no more. It is a small office with a roll-top desk and a typewriter table and is simply fitted. Mr. Coburn is a man of middle age, markedly a southerner, and very earnest in his manner. He served as a captain of infantry in the World War, as a buck private in the Spanish-American War, he says, and wears the American Legion button and a Masonic emblem. As he talked several young men started to enter, but were waved into the hall. On a chair was an open clothier's box. Inside was a costume of bright colors. When the reporter left a half-dozen of these young men were waiting in the hall.

THE WIDNEY AFFAIR.

"With two members of the Klan here, I called on Mr. Widney soon after the picture, 'The Clansman' had been removed by his order," said Mr. Coburn. "But before I did that I called on the manager of the theater where it had been shown. He said he would be glad to put the picture back if the restraining order was removed. Then we called on the distributing agent and he said he would be glad to put the picture back.

"When we entered Mr. Widney's office he did not ask us to sit down and was impolite in his manner from the start. He asked us whom we represented and I said, 'Citizens, nothing else.' He said he had removed the picture because he thought it was improper, and he said it had been removed in other cities. I asked him which ones, and he said San Francisco. I contradicted him, for I have made it my business to know the facts, although we had no interest in the picture as such. Then he said, Redlands, but since I have learned that it was not removed in Redlands.

"Mr. Widney said 'The Clansman' showed up the negro in his meanest light, and that the negroes had objected just as the Jews might object to a picture showing Jews persecuting Christ. I said I did not think they would. Mr. Widney says we threatened to exhibit the picture ourselves. What we said was that he couldn't stop it if it was put to a legal test, but that we weren't there for that purpose.

"Then Mr. Widney said the Ku Klux Klan was an organization of cutthroats who believe in lynch law and mob law to terrorize the negroes. Those were his words. Up to that time the Ku Klux Klan had not been mentioned. I said his assertion was not true, and I knew, because I was the supreme attorney of the order. I said the order stood for white supremacy. And he said, 'A man who thinks that is—' and he hesitated. I said, 'go ahead,' and he said 'foolish.' 'Any man thinks that is damn ignorant. You are the most insulting man I ever met,' I said. I never said, 'You'll regret this.' What I said was that his remarks would be remembered by a large number of people in this town—referring to the power of the vote."

DENIES VIOLENCE.

Mr. Colburn denounced the recent series of attacks by night riders in Texas cities. He said reports to his office showed that they not only had no connection officially with the Ku Klux Klan, but that not one member of the order had been in the gangs. He said some newspapers had unwarrantedly connected the

BROADWAY at SIXTH

TROUBLED LIFE TALE ENDS.

William J. Sherriff, owner of Sheriff Place and for a number of years prominent in financial circles of Los Angeles, who died Saturday at the Soldiers' Home in Sawtelle, was buried yesterday under the auspices of the G. A. R. Mr. Sherriff had been ailing for some time before his death.

Mr. Sheriff came here a number of years ago and immediately founded the Penn Investment Company of which he was president and manager for some years. During his later years he figured largely in the public print because of his "$50,000 bride," as he termed her, whom he later divorced. In June, 1919, following his divorce, he married Mrs. Alva Bettit, twenty-three years his junior, a widow he had known for several years. This, his third marriage, was an elopement. One morning in his seventy-eighth year he stole away with his bride at dawn and it was some time before he could be located.

Mr. Sherriff proposed to his so-called "$50,000 bride" a few days after the death of his first wife. Later, however, he termed bride number two as "my life's greatest incubus" in bringing suit for divorce. A suit was filed later over the community property of the pair and it required several months of litigation before the property was divided between the two. Shortly after this suit was settled he married the present Mrs. Sheriff. He, however, separated from her about a year and a half ago.

BOARD IS NAMED TO HEAD U. S. C.

President Bovard Takes Long Leave of Absence.

Try Committee Plan First Time in America.

Rapid Growth of School May Make Task Difficult.

Coincident with the departure of President Bovard of the University of Southern California yesterday on a six-month leave of absence, announcement was made that the affairs of the university will be administered by an executive committee made up of Lester B. Rogers, dean of the school of education; J. H. Montgomery, registrar, and Warren B. Bovard controller.

The executive triumvirate, the first expedient of the kind ever resorted to by a large university of this country, will work in conjunction with the executive committee of the board of trustees but will function precisely as the president would if he were present.

The task of the members will be especially difficult, it is said because the institution has grown so rapidly that it seems certain there will be an enrollment of close to 9000 students when the regular scholastic years opens the second week in September.

President and Mrs. Bovard will be in San Francisco for several weeks, after which they will make an extended tour, returning to Los Angeles in October.

Witness Nabbed in Court Upon Perjury Charge.

When Mrs. Annie Curley appeared in Judge Harvey's court yesterday to testify in her own behalf in the suit she brought against the administrator and heirs of the estate of Mrs. Mary Regan, she was arrested on a charge of perjury brought against her in connection with testimony she is purported to have given in 1919 when a will of Mrs. Regan was revoked by the court on the ground that it was a forgery.

Mrs. Curley is now seeking to show that a trust exists and that she is entitled as a niece to a share in the property of Mrs. Regan. Yesterday she told the court that Mrs. Regan brought her to America from Ireland when she was 17 years of age and of promises which the aunt is supposed to have made to her at that time.

Mrs. Curley was arraigned yesterday before Justice Forbes on the perjury charge. Bail was fixed at $5000 and she was released later after furnishing bonds in that amount. Her hearing was set for August 1. John F. Poole appeared as her attorney. She was arrested by Constable Hayes.

Public Service Board Re-Elects Robertson Head.

Howard Robertson was re-elected president of the Board of Public Service Commissioners yesterday afternoon. The new term will be Mr. Robertson's fourth as president of the board, which supervises the city's water and power departments. President Robertson's term as commissioner expires in January, and as he is a friend of many years' standing of Mayor Cryer, it is predicted that the Mayor will reappoint him to the board for another four-year term.

Commissioner Haynes nominated Mr. Robertson for president at yesterday's meeting of the board and the nomination was seconded by Commissioner Robinson. Those voting for Mr. Robertson were Commissioners Haynes, De Valle and Robinson. Commissioner Young was absent.

Eight Try Another Failure for Two.

Mrs. Anna Young and Her Baby.

"I WISH to sound a warning at this time regarding the folly of married women making a practice of attending public dance halls unaccompanied by their husbands," said Judge Summerfield yesterday in granting Mrs. Anna Young a divorce from Raymond Edward Young in a suit that developed a tale of seven reconciliations and a near one that failed.

"Mrs. Young has offered to return to her husband; he has refused," the judge continued. "It is now quite evident that a permanent estrangement has been established and while it is undoubtedly true that Mrs. Young perhaps cares too much for dancing, it has not been proved that she was guilty of the charge of misconduct. I award her a decree, the custody of the child and $10 per week for the care of the child."

At the closing of court Monday it was believed that the eighth reconciliation in the case had been effected, but yesterday morning Judge Summerfield talked with the young couple in his chambers for almost an hour, prior to the convening of court and then the grind of the case was continued.

Fourteen Kiddies Plead for Dads in Liquor Case.

Fourteen children, the offspring of Sam Creager and Louie Goodwin, charged with violation of the national prohibition act, were in U. S. Commissioner Long's court yesterday pleading with that official to allow their fathers to go free. Creager is the father of six of the youngsters, and eight call Goodwin papa.

The arguments of the children did not avail before the Commissioner, against exhibit A of the government, a 100-gallon still seized at the home of Goodwin on Western avenue, or Exhibit B, an eight-gallon container of moonshine brandy.

The wives of the men were in court, and they were released on their own recognizance. The men were held in a bond of $1500 each.

WILLIAM RUSSELL SUED IN FILM RIGHTS DEAL.

The Doubleday Production Company filed suit yesterday against the Capital Film Company, including William Russell, motion picture star; Bernard D. Russell, Simon Greirer and others for a total of $106,502.53 purported to be due for rights to exploit "The Ranger and the Law," five two-reel films and twenty-two one-reel films contracted for since the first of the year. The Doubleday Production Company represents that the Capital Film Company agreed to pay stipulated amounts for all of these films.

BARONESS ASKS DIVORCE.

European aristocracy, Baroness Elizabeth Von Ritzau has concluded, does not add happiness or distinction to married life. She filed suit for divorce yesterday, charging her husband Erik Von Ritzau, with desertion. The defendant who, according to Julius Smidt, attorney for Mrs. Von Ritzau, says he is "a foreign duke or something" is employed by a local motion-picture company.

Baroness Von Ritzau stepped first into local publicity last Christmas Day when she accused Al Youngblood, a ranch hand, with attempting to kill her at the home of her mother, 1130 Eighty-ninth street. According to her story, Youngblood, armed with an automatic pistol, persuaded her to take a walk and a short time later attacked her. The woman's screams attracted other persons, whom Youngblood is said to have held at bay with his revolver.

The Baroness was severely beaten. She said the assailant struck her in the face with the weapon. Deputy sheriffs later located Youngblood at a Burbank ranch where he threatened to kill them if they attempted to capture him. He surrendered after the officers remonstrated with him.

Wife Wins Mercy For Union Man Guilty of Theft.

"I believe that justice can be tempered with mercy in this case," said Judge Willis yesterday, after the wife of George A. Twitchell became so hysterical in court that physicians had to be called.

Twitchell, at one time an agent for Local No. 511, Brotherhood of Painters, Decorators and Paperhangers of America, was arrested on a charge of defrauding the union out of $1150. He pleaded guilty and the court ordered him to the County Jail until the 22nd inst. when he will be given a hearing on probation. When she learned her husband had to go to jail, Mrs. Twitchell became hysterical and physicians worked for about an hour to revive her. It was then learned, her husband was needed to care for her.

The court allowed Twitchell to go home until his case comes up again. The wife arose feebly and thanked the court.

Child Killed by Automobile While at Play.

While playing in the street at 1237 Palm avenue, Gardena, last night, Alice Moore, aged 6 years, was struck by an automobile driven by Dick Shulkey of Gardena and died a few minutes later in the office of Dr. C. E. Steen. Marshal Balmer reported the accident to the Sheriff's office here. The body of the little girl was removed to the Green undertaking establishment in Gardena. The parents live in that town.

JAILED AFTER CRASH.

Man Held on Charge of Driving Car While Intoxicated.

As the result of an automobile collision at Santa Monica last night, Jerry Clifford, residence unestablished, is held in the jail of the beach city charged with operating a motor vehicle while intoxicated. Joe Lee, who was a passenger in the car driven by Clifford, is held as a witness.

It is asserted by the officers that Clifford drove his machine into a large touring car being driven by Mrs. Milton U'Ren of Inglewood and caused injury to several passengers in her machine. The accident happened on Ocean avenue near Sunset Inn.

APPRECIATION BY AIR.

Elks, Home-Bound on Yale, Wireless Thanks for Local Hospitality.

The Times yesterday received the following radio message from a group of Elks homeward bound on the steamer Yale:

"We wish to express our appreciation to Lodge No. 99 and to the citizens of Los Angeles for the hospitality shown us. Never while memory lasts will this reunion be forgotten. This sentiment, which was voiced in the eleventh-hour toast of G. E. Moreland, Huntington Lodge, No. 1415, B.P.O.E., we make our own and transmit to you."

ASHES OF ACTRESS TAKEN TO BAY CTY.

The ashes of Miss Doris Wooldridge, San Francisco actress, who died at the Clara Barton Hospital Sunday after an operation, and whose body was cremated yesterday, were taken to San Francisco last night by friends of the family.

Miss Wooldridge played leading roles on the legitimate stage, and before the screen. She was 27 years old and leaves her mother, Mrs. Maris Kraker of San Francisco, and an uncle, Joseph Zukermann of this city.

SEES PERILS IN TEACHERS' PLAN.

Independence of Schools is Menaced, Says Washburn.

Ex-Board Member Warns City Against "Soviet Scheme."

Predicts Employees Will Soon Run the Entire System.

BY W. J. WASHBURN.
Former Member of the Board of Education.

I have been more or less familiar with Los Angeles school affairs for more than twenty years, eight of which I have served on the Board of Education. I have a very high regard for the great majority of the teachers in their devotion to their work and their interest in the children under their care. Unfortunately, however, there has grown up a small but very active and sleepless minority who are more or less radical in their tendencies and selfish in their purposes. This minority has effected a thorough organization and, by means of the expenditure of large sums collected by assessment of the teachers as occasion has arisen, and the use of propaganda, often not very honorable or truthful, has, I fear, misled the majority of the teachers and a great many citizens who are not familiar with the facts.

Their activities have centered upon the passage of laws, carrying bond elections, electing Boards of Education, increasing salaries, etc. As one of their methods is to make direct appeals to parents for their votes, through the children in the schools, their influence is great. One of the most pernicious pieces of legislation is that pertaining to tenure of office which has recently become a law, the provisions of which are that a teacher may not be dismissed except upon proven charges of immorality or incompetence. These are always difficult to establish, and it is improbable that any financially responsible member of the Board of Education will ever attempt it. The effect of this law upon the schools will be increasingly bad as time passes.

The plan proposed by the teachers to abolish the standing committees of the board, and to transfer the business department to the Superintendent, is visionary and unwise. It would lead to confusion and open the door to extravagance and graft.

What sort of a situation, legal and otherwise, would be created by the board officially recognizing the teachers' committees, giving them "power of initiative, counsel and review," whatever that means, and by agreement to restrict its own acts until they had been passed upon by them, might lead to some complications. The board has certain well-defined legal duties and responsibilities which can not be shirked or transferred to others.

Open advocacy has been made in teachers' conventions of the abolishment of boards of education, leaving the entire management of the schools in the hands of the teachers. Possibly this plan is a movement in the direction to accomplish indirectly what could not be done directly. It is entirely certain that a

QUARREL TO SHUT DOWN CANNERIES?

Fishermen and Packers at Harbor Still Deadlocked Over Albacore.

As a result of a deadlock between the Japanese Fishermen's Association and the organized albacore packers, all canneries except those operated on an independent plan will probably be closed for the season at Los Angeles Harbor, it was stated yesterday by one of the leading tuna canners.

The controversy arose when the Japanese fishermen accepted the canners' price of $125 per ton, but balked at the proposed payment and delivery conditions. The canners offered the fishermen $125 per ton for albacore upon the guarantee that none would be sold at a lower price to independent canneries, with the provision that $100 be paid upon delivery and the remaining $25 held back to secure the carrying out of the agreement.

In answer to the packers' demand the Japanese purse-seiners sold this week's catch of albacore to an independent Long Beach concern. Although it is probable that the independents will be able to handle sufficient fish to keep the orientals in rice and fuel, the Japanese will be unable to operate at a profit unless some agreement is reached with the organized canners.

The blue-fin situation is acute, no fish coming in at the $50-per-ton price offered by the canners' association. Asserting that they are unable to operate at a profit at that price, many purse-seine operators are leaving for the north to engage in salmon fishing.

The same situation obtains at San Diego, according to dispatches from the southern port, with the organized canners unable to come to an agreement with the Italian and Austrian fishermen.

Sobriety Bonus Winner Drinks, Takes Own Life.

Eugene Thygerson, a grocery salesman living at 434 Crocker street, won a $100 bonus on the 1st inst. for remaining sober for six months, then after he was arrested yesterday by Police Officer Bandle, for speeding, he became partly intoxicated, and in this condition sent a bullet through his breast, in his room at the above address, according to a report made by Detective Sergeants Carr and Taylor. He died a few minutes later at the Golden State Hospital.

Mrs. H. Marengo, landlady, and Herman Jones, a roomer in the same house with Thygerson, were witnesses of the tragedy. They declared they argued with him for ten minutes, while he held a .32-caliber revolver against his breast.

When the detectives arrived at the rooming-house they said they found the revolver on the bed, where it is supposed to have dropped from Thygerson's hand.

The body was removed to the Sharpe & O'Donnel undertaking establishment.

OIL MEN GAIN BRIEF RESPITE.

Two Weeks' Delay of Law to Stop Drilling Granted.

Angeleno Heights Residents Storm City Hall.

Demand Immediate Passage of Restrictive Measure.

Residents of Angeleno Heights again stormed the City Hall yesterday and battled for immediate passage of an ordinance to prevent the re-opening of oil wells in that section, but though the measure had been recommended on Monday afternoon by the safety committee, the oil men rallied their forces at yesterday's session of the Council and were able to secure two weeks' delay for further consideration of the measure.

Councilman Conaway fought hard at yesterday's session for immediate action on the ordinance with the three-day emergency clause attached, but Councilmen Wheeler and Langdon advocated delay in order that the oil men could be heard, and this view prevailed.

The hearing yesterday was even more lively than the one on Monday afternoon. President Criswell yesterday calling one of the speakers to order and compelling him to cease operations because he called a previous orator a "base liar."

Councilman Mushet in finally agreeing to postponement, urged the oil men to "play fair" with the Angeleno Heights residents and not to open any new wells in the Angeleno Heights district during the two weeks' truce in the war.

"WILDCATTERS" BUSY.

Representatives of the Harris Oil Company and other corporations present readily agreed to this proposal, but Secretary C. W. Horn of the Northwest Improvement Association, who has been one of the leaders in the fight of many years' duration to rid the Angeleno Heights district of oil wells, declared that the principal danger comes from "wildcatters" who are drilling for oil on every available vacant lot in the district in and effort to "get under the wire" before the new ordinance becomes effective. Councilman Mushet replied that he was in favor of passing the ordinance at once after the first sign of activity by oil men during the next two weeks.

President Criswell nearly wore his gavel to splinters during yesterday's hearing in an effort to keep the proceedings orderly. The Angeleno Heights residents were fighting for their homes parliamentary rules meant nothing in their lives and they spoke right out in meeting, whenever they had anything to say. They laughed jeeringly when Councilman Wheeler urged delay, and it was in reply to this plea that Secretary Horn said: "The oil men have always asked for delay in an effort to defeat this measure. We made it a district ordinance and the oil men fought it. Now we make it a general measure applying to all residential parts of the city and still the oil men ask for more time. We ceased our fight during the war, for patriotic reasons, because the government needed all the oil that could be produced. Now we come before you and say that the residence districts of Los Angeles should not be turned into oil fields."

SAYS WOMAN KILLED.

Mrs. F. P. Hanscom told of a woman neighbor who had been made ill and finally died because of a breakdown brought on by the oil wells chugging night and day at her windows.

"I am ill," said Mrs. Hanscom, "and I can't move away, for I own my home, and there is an oil well within fifteen feet of my windows."

Representatives of the Second-street Tunnel Improvement Association, the Custer Community Association, the Apartment-House Owners' Association, and other organizations, as well as many individuals, also spoke, but although Councilman Conaway voted "no," the motion for delay was carried. Councilmen Sparks and Mallard were absent.

Judgeship Votes Will be Counted Saturday Night.

Ballots cast by Los Angeles county attorneys to decide their choice for the three Superior judgeships to be filled by appointment of Gov. Stephens will be counted Saturday night, following which the names of the eight high men will be certified by the Bar Association to the Governor.

Of the eight names to be submitted to Gov. Stephens, four will be from the city of Los Angeles and four from the county outside the city. The ballot sent to the members of the bar in this county contained fifty-six names. It is estimated that 2030 attorneys were requested to register their choice of men whom they deem best fitted for the three judicial posts.

Among those seeking appointment, and whose name is being voted on by the attorneys, is J. Robert O'Conner, United States Attorney in Los Angeles.

Iceman Heavily Fined for Giving Short Weight.

Hucksters and peddlers who victimize their customers by means of short weights would have been provided with food for thought had they been in Police Judge Chambers's court yesterday.

The court directed C. M. Martin, an ice peddler living at 3309 South Main street, to pay a fine of $100 for selling a piece of ice weighing ninety-one pounds and collecting payment for 125 pounds. V. G. Wiseheart, Martin's helper, was fined $5 and his sentence suspended.

The complainant was Martin's victim, Allen L. Cheney, 15 Berkeley Square.

SUSTAIN POLICE CHIEF.

The Board of Police Commissioners yesterday sustained former Police Chief Pendegast in his dismissal from the department of former Patrolman C. J. Laurie, who was accused of removing a spotlight from a wrecked automobile.

GES PRISON Y ODD ESCAPE.

Burglar Digs Through County Hospital Wall.

Prisoner Had Outside Aid in Mystery Flight.

Start Inquiry; Search for Sentenced Man.

With one arm withered and practically helpless, Zephic Saunders, [illegible] to be the son of a minister near [illegible], within twelve hours of being sentenced to San Quentin for [illegible] burglary, wormed his way through a brick wall of the [illegible] ward of the County Hospital [illegible] and escaped. On Monday Saunders had been taken from [illegible] he had occupied in the detention ward for nine days to Judge [illegible] court, where he was sentenced to San Quentin for from one to [illegible] years.

Considerable mystery surrounds the prisoner's method of escape and Undersheriff Biscailuz immediately started an investigation and a search for Saunders. Deputy Sheriffs Fox and Nolan were detailed to conduct the inquiry.

HOLE THROUGH WALL.

Information obtained by the undersheriff and deputies disclosed that Saunders apparently had drilled a hole about eighteen inches in diameter through a twelve-inch wall between the time he entered the cell Monday evening and about 4 a.m. yesterday. The escape was discovered before 6 a.m. A large spoon and the rung from a chair were the only implements found in the cell, and it was evident the drilling had not been accomplished with these.

"It is plain," said Undersheriff Biscailuz, "that Saunders had help from the outside. It would not have been difficult for a man to pass him tools from the outside, nor for a man to help remove the bricks. We intend to investigate every angle of the escape."

Shortly after the escape was discovered, Supt. Martin of the hospital announced that he had discharged H. M. Wood, who was in charge of the detention ward at the time of the escape. He hastened to say that Mr. Wood had been at the hospital a number of years and had a good reputation, and he was discharged because he failed to be on guard when on duty and also failed to make a round of inspection every thirty minutes.

OUTSIDE HELP.

"If Saunders had any help it was from the outside, not inside the ward," said the superintendent. "The building is fifteen years old and it would be easy for a man to pass in tools to a prisoner from the outside, as the cell window is only six feet from the ground. It would cost the county $50,000 to erect an adequate building, and I have not felt justified in recommending such a structure."

It was thought unlikely that Saunders could have been working at the brick wall previous to Monday night, as the cell is scrubbed daily.

Saunders is said to have injected a disinfectant into his arm, causing it to become infested and then wither. When he was taken into court for sentence, the hospital surgeons suspected he was shamming, and ordered him back to the hospital for examination.

PLEADS GUILTY.

After an investigation Sheriff Traeger and Undersheriff Biscailuz gave it as their belief that Saunders escaped from the County Hospital to see Anna Farmer, with whom he is said to be in love. The girl was accused of selling clothes stolen by Saunders, but she was granted probation.

Saunders was on parole from the Missouri penitentiary when he was arrested in Los Angeles, according to information given the court. He was arrested in company with Miss Farmer, a young girl, who was later released on probation as being an innocent victim. Saunders surprised court attaches on Monday by changing his plea to guilty of burglary of the residence of J. D. Gray, 2823 Ingraham street, on last March 6. He was accused also of two other burglaries, and, upon request of Dep. Dist.-Atty. Fricke, these cases were continued on the court calendar to be taken up later.

While working on the wall Monday night, Saunders is said to have placed blankets on his bed to make guards think he was asleep.

YOUNG ELOPERS HUNTED.

No trace had been found last night of pretty Helen Scott, 15-year-old Pasadena high school girl, who eloped with Dick Elledge, 18-year-old neighbor, some time Monday night, according to another young couple, who assisted in the romantic episode. Fred Wilson, Helen's chum, and James Bauer, assisted young Elledge, it is declared, to take his lady love from her bedroom window and then to Brookside Park, where Helen robed more completely with an extra dress she had brought with her. The chums say they accompanied the supposed elopers as far as South Pasadena, and there left them and went home.

The missing couple have not been seen since.

Helen lives with her aunt, Mrs. F. H. Toms, 456 West Walnut, Pasadena, who raised her from infancy, following the death of her mother. Her father is William Scott, an implement dealer, 135 South Spring street. Neither the aunt nor the father was able to locate the missing girl, and Pasadena police and the Sheriff's force have been seeking the young couple.

"I loved her as if she was my own child," her aunt said, last night. "Her elopement is just a romantic fancy, and when the young couple find they cannot get a marriage license because of warnings sent to all county officials, I believe Helen will come home."

SEES TEACHERS' PLAN AS PERIL.

(Continued from First Page.)

self-appointed teachers' committee representing 4000 or 5000 employees, secure in their positions and officially recognized, would constitute a force to be reckoned with.

I have been watching the growth of these tendencies for years, and I predict that some fine morning the people will awaken to a realization of the fact that their schools are in the hands of a very powerful and unscrupulous political organization, thoroughly entrenched behind laws written by themselves, to which the interests of the children and the taxpayers are a secondary consideration.

ANAHEIM VOTES BONDS.

Propositions to Improve City Carry By Large Majorities.

The city of Anaheim voted $160,000 in municipal bonds yesterday, each poposition on the ballot meeting with almost unanimous approval.

Money derived from the sale of the securities will be used to build a new City Hall, for sewer and street extensions and for additional equipment for the Fire Department. The proposition to erect a new city building was favored eight to one, while the other proposed issues were given an affirmative vote of twelve to one.

TRAFFIC MEN ELECT.

Los Angeles Transportation Club Holds First Annual Meeting.

J. M. Ford, traffic manager for Blake, Moffit & Towne, was chosen president of the Los Angeles Transportation Club at its first annual meeting yesterday at the City Club. Other new officers are: Vice-president, E. S. Blair, general agent of the Denver and Rio Grande Railway; secretary-treasurer, L. G. Wilson, taffic manager Carmichael Skidmore Company.

Newly appointed directors are: D. G. Johnson, chief clerk, Salt Lake; L. C. Zimmerman, assistant general freight agent, Southern Pacific; H. A. Potter, traffic manager Los Angeles Pressed Brick Company; N. E. Walthall, traffic manager, Western Wholesale Drug Company, and A. E. Adams, secretary of the Retail Dry Goods Association.

The membership of the club includes representatives from railways, steamship companies and leading business and industrial concerns.

SYMPATHY FOR MARSHAL.

The Federal grand jury that tried the Pyle-Conner case yesterday adopted resolutions of sympathy for Dep. U. S. Marshal Moore, who is confined at his home, 663 South Sichel street. The resolutions were signed by every one of the panel. Maj. Moore has been ill for several weeks. The Federal grand jury that adjourned a few days ago adopted similar resolutions expressing regret at the illness of Maj. Moore, who was in charge of both bodies during their legal existence.

MATTER OF TIME.

Sure England will pay its war debt. It may take a couple of thousand years, but did anybody ever hear of Britannia welching?

SOME NAPOLEON.

Hugo Stinnes, the industrial colossus of Germany, is said to own or control no less than 1340 industrial corporations. If he maintains his gait he will have our Rockefellers looking like a group of peanut peddlers.

THE PUBLIC FUNDS.

The Russian administration has been paying bills of fifteen thousand rubles a month for feeding a pet cat in one of the soviet departments. This is the first evidence of tender felines the Communists have shown. Has the auditor seen the cat?

AND THEN SOME.

Seeking a job repairing or driving a car, an advertiser in The Times yesterday said, as an added qualification, that he spoke five languages; whereupon the office cynic remarked that if the advertiser repaired or drove the cynic's car he'd need all of them. Yes!

CUTTING PRICES.

Henry Ford is maintaining his reputation as a price-cutter. He has reduced freight rates 20 per cent on the railroad he controls. However, as he is by far the largest shipper, he is still the chief beneficiary of his own generosity. The average is preserved.

THE BARLEY MARKET.

The farmers of the West are now asking Congress to authorize the brewing of 2.75 beer. It is not intoxicating and is demanded by thirsty millions as a beverage, but the point with the farmers is that it will perpetuate and stabilize a valuable barley market. They say it would mean $200,000,000 more a year to the agricultural industry. That is the point. Incidentally, it would refresh the throats of several millions of Americans who cannot find any substitute for beer in the myriad of beverages being put forth.

POWER OF THE EYE.

This London scientist who claims to have discovered a source of power in the ray of vision from the human eye may not be so much of a wonder, after all. He claims to have perfected a device which will move when merely looked at. Doubtless he is but capitalizing something that is age-old and has been understood for centuries. Of course, there is power in vision. When a girl has looked at a man in a certain way hasn't his heart commenced to pound at double pressure? If a fairy can do that she ought to be able to make a pinwheel spin by a concentrated stare.

A PARADISE OF THE PACIFIC.

Surely England will pay its war debt. unhappy. The correspondent of the Chicago Tribune and Los Angeles Times accompanying Gen. Wood's peace party in the Philippines describes the 300,000 or more inhabitants of the island of Bohol as having a dusky little paradise of their own. Bohol is in the straits north of Mindanao and is just about the size of Rhode Island. The people have all the rice, cocoanuts and bananas they want. The temperature is not too hot and it never freezes. The inhabitants can easily assemble the clothing which an amiable nature provides them. They don't need very much, at that. They raise their own tobacco and they make their own wine. They are perfectly satisfied with the administration of Uncle Sam. What more can be asked?

CONSERVATION OF HUSBANDS.

The movement for the protection and preservation of husbands is extending. A jury has decreed life imprisonment for Mrs. Catherine Kaber at Cleveland. It is not contended that she slew her husband. She merely hired a crew of assassins for the job. Some time ago the circumstance that a woman had grown tired of her husband or preferred somebody else would have been ample justification for blowing out his brains or carving him into shreds, but the temper of the time is now different and almost any jury will give a husband a run for his money. The wife may not even employ a group of blackhanders to do her bloody work without sharing in all its hazards. It is a great triumph for justice when the juries decide that a woman may not massacre her husband without justification.

WAR AND WOMEN.

If the nations of the earth want to fight they will have to get along without the aid and co-operation of the women. Maybe so. That is the way the dames talked at the International Women's Congress in Vienna. An American woman, Jane Addams, was elected president of the congress and the peace resolution pledged the support of all branches of the organization in lining up the women of the world in "nonparticipation in any activity which would make war possible." If anybody wants to start a war the women will decline to take part. They won't knit sweaters for soldiers nor will they volunteer to nurse those on the battlefield. That is what they say in convention. If there is a war the women will be found as active and as generous in their work and ministration as ever. It is ever thus. Women have started more wars than they ever stopped.

THE STATE HIGHWAYS—SOME COSTLY MISTAKES.

The Automobile Club of Southern California has presented a convincing array of facts and figures, supported by photographs, to show that our State highways are breaking in many places. The club charges that more than one-fourth of the highways thus far built are in need of reconstruction and that few, if any, of them will live as long as the bonds that paid for them.

It appears that the State highway failures are due to construction policies which were criticised by the engineer's report following an exhaustive investigation by the southern club, the California State Automobile Association and county engineers. A more recent report by the United States Bureau of Public Roads contains similar criticisms. The Federal report says that the concrete pavement used in California is the thinnest that has been extensively laid in any State and is in general three feet too narrow. The Federal report adds that "there are sufficient typical failures to show that in the future only designs of increased strength and adapted to resist such failures should be used."

It is not pleasant for the people of California to contemplate or to admit that the highway system in which they take such pride and for which they voted bonds to the extent of $73,000,000 is not all that it should be. But, if failure exists, and the people are not getting good roads for their money, it is best to face the situation squarely and use the experiences of the past to the advantage of the future.

In entering upon its extensive program of highway building the State of California was, in a sense, blazing a new trial. It was facing many unknown conditions and requirements. Highway exigencies that could not have been foreseen have arisen. Traffic has increased more than 500 per cent in the past eight years. Roads that might properly have been considered adequate in 1913 are breaking under the strain of present-day needs.

Mistakes under unknown and untried conditions may, in many instances, be excused. To persist in a road construction policy that has been shown to be inadequate is the height of folly. While the reports of the engineers of the automobile clubs and of the Federal engineers criticised the construction policies of the State Highway Commission severely, the commissioners were not blamed, in the strict sense of the word. The State board was given credit for honesty and cleanness of administration at the same time that some of its policies were censured.

Taking into consideration the caliber of the engineers who conducted the investigation and made the report, it would seem to be the part of wisdom to take full advantage on behalf of the people of California of the valuable observations and recommendations thus made available. By failing to do so the California Highway Commission is, indeed, subject to blame, even though no blame was attached before.

The whole thought of the Automobile Club of Southern California is one of service to the motoring public. That is the purpose of the organization, to safeguard the interests of the motoring public. The club spent a large sum of money and employed eminent engineers to make a comprehensive engineering investigation of the highway situation. The work was done as one of its proper functions of service. This investigation and report constituted a valuable service. The work could, and should, be taken advantage of by the State Highway Commission, to the great advantage of future highway building and consequently of the people who use the highways and pay for them.

Following the investigation and the transmission of the report to the Governor and members of the State commission, the Automobile Club directors passed resolutions urging a change in highway construction policy to avoid repetition of mistakes of the past. These resolutions were submitted by referendum vote to the 87,000 members of the club. More than 99 per cent of all the members who replied concurred in the resolutions.

People who were willing to excuse early mistakes in State highway construction because so many conditions were untried and unknown, now condemn, without excusing, the attitude of the State board in refusing to change methods that have been clearly pointed out by experts and the evidence of the roads themselves to be wrong.

While the charge that California's highways have not been adequately constructed to meet reasonable traffic requirements has been substantiated by the facts, it is also true that the breaking down of many of the highways has been hastened by excessive loading and speeding of trucks. A majority of truck owners are undoubtedly opposed to such overloading both because they are in sympathy with the law and wish to have it complied with and because they know that excessive loads shorten the life of trucks and add to the cost of their upkeep. It is not against these but against those who flagrantly abuse the highways that law enforcement should be directed.

Here again the State appears to have been less vigilant and less efficient than county authorities. Supervisors of various counties have endeavored to protect their highways from traffic abuses as well as to build adequately. The State would do well to follow their example.

The people of California have voted $73,000,000 to build good roads and, without doubt, will vote additional bonds to improve and extend their highway system. In a land favorable beyond almost any other for motoring every month in the year good highways are not only a wise and profitable investment, but a vital factor in the growth and development of the most progressive and fastest-growing community in America.

MATTER OF BOOK-KEEPING.

It appears that, although England is owing this country $4,500,000,000, our War Department is paying the British government a balance of $33,000,000 in cash for the transportation of American soldiers to France. Naturally it is explained that this is a matter of book-keeping. Under the war contracts Uncle Sam agreed to pay so much a head for taking the American soldiers across in British ships and this was the balance still remaining in that account. The fact that Great Britain is owing us a few billion dollars which we may never get makes no difference in this settlement. It is red tape and book-keeping and therefore sacred.

REAPING OUR REWARD.

Washington dispatches convey the welcome news that, for the first time in years, the plear of California agriculturists and horticulturists for tariffs adequate to protect their industries have received friendly consideration. Republican Representatives presenting their case to a Republican majority have not asked for justice to California growers in vain. While the new schedules are not all that could have been desired, they are a vast improvement over the existing rates. They offer to California bean growers, nut growers, lemon growers, cotton growers and tobacco growers a fighting chance for their industrial existence.

Californians have good reason to congratulate themselves on the successful efforts of their Representatives to secure the necessary protection against cheap Mediterranean and oriental labor. They began fighting as soon as the consideration of the tariff was taken up by the Ways and Means Committee. Not content with the schedules as written in the original Fordney bill, they continued to urge their claims before the Agricultural and Chemical subcommittees with the result that seven additional increases were granted after the tariff bill had been presented to the House.

Congressman Osborne and Lineberger distinguished themselves in the conflicts with representatives of foreign competitors before the House committees. The free-trade argument was made by New York Representatives belonging to the Tammany Hall group. Under Democratic administration this group was powerful enough to defeat tariff legislation adequate to safeguard California industries. But the conditions in Washington are different from those during the Wilson administration. There is a Republican majority in both houses of Congress; a Republican sits at the executive desk in the White House; and the three Congress districts of Southern California are represented by Republicans. Congressman Osborne led the campaign for a higher tariff on beans; Congressman Lineberger fought for additional protection for citrus fruit by-products; and Congressman Swing is credited with the success scored by the long-staple cotton growers.

Contrast these results with those obtained when two of the three Southern California districts were represented by men who sat on the Democratic side and when the Democrats had a majority in both houses. It is an object lesson that Californians should take to heart. Too often in the past the electors have voted for a candidate on some minor issue, without considering what his election would mean to the industries of their community. The Times has insisted for ten years that protection for California products would only be secured when Republican Representatives from our Congress districts would be able to make their pleas to a Republican House.

But it is not to our Representatives in Congress alone that the tariff victory is due. They stood on the firing line; but their ammunition was supplied through strong committees representing the different industries. The Southern California Protective Tariff League kept representatives in Washington to furnish data for the information of the committees and to disprove the false and misleading assertions of the free-trade advocates. Thousands of telegrams from Southern California rained upon the Republican members of the Ways and Means Committee. The whole campaign was an admirable example of the efficiency of organized effort.

OUR STATE SPENDTHRIFTS.

The insatiate greed of the plunderbund now in control of the State government of California has led to the imposition of taxes that are apparently in conflict with treaties negotiated by the Federal government. Our State government spends more money, in relation to population, than that of any other American commonwealth. As it does not possess the authority to issue paper currency or to mint metal, it has to raise that money through taxation. Naturally the people protest. Various expedients are adopted to collect revenues through indirect taxation, to conceal from the people the actual amount of money they are forced to pungle up in order to maintain the present standard of governmental extravagance.

One of the revenue bills passed by the last Legislature was an act providing that all alien residents of California should pay an annual poll tax of $10. In order to win the support of a group of Socialists and radicals one of the Johnson regimes abolished a few years ago the poll-tax law; with the result that foreign residents are now mulcted for a tax which citizens are not required to pay. This is a bit hard on the foreigners; but, as they have no vote, it would be folly for them to expect any mercy from the plunderbund. The wonder is that the poll tax was not fixed at $100 in place of at $10. But possibly the Legislature desired to leave something for future sessions to do.

Some of the foreigners residing here, however, have not shown themselves grateful for the privilege conferred upon them by the Legislature of contributing toward the plunderbund's support. British residents have appealed to their Ambassador at Washington and Japanese have protested to their home government. It appears that the plunderbund overlooked in its haste a clause in some of our United States treaties which stipulates that:

> They (the citizens or subjects of the high contracting parties) shall not be compelled, under any pretext whatever, to pay any charges or taxes other or higher than those that are or may be paid by native citizens or subjects.

Such is the exact wording of the existing treaty between the United States and Japan. As the Federal Constitution provides that no State may enforce laws that are in conflict with Federal treaty rights, it would appear that the foreigners in this State are immune from a poll tax, so long as the tax does not apply equally to citizens of the State.

Already a test suit has been filed by the Japanese to test the legality of the law. According to the Sacramento Bee:

> The British Embassy at Washington has advised British subjects that our alien poll-tax law is in violation of treaty rights, but suggests compliance with it until remedy can be had from the courts.
>
> California should be quick to undo this wrong, and in the future more careful not to transgress the plain rights of aliens residing in this State.

Atty.-Gen. Webb has advised district attorneys of the different California counties that the alien poll-tax law is constitutional and should be enforced. But, in view of the plain letter of existing treaties, it is not clear on what grounds he bases that opinion. The law is a plain violation of the spirit at least of those treaties. The present instance is not the first one in which a greedy autocracy has sought to plunder foreigners within a country. But it is the first time that such an attempt has been made by an American commonwealth. That fair-play section was written into the treaties on the insistence of our own government for the protection of American citizens abroad. At the time the treaties were written it is not probable that it was deemed possible that one of our sovereign States should resort to such a doubtful method to raise revenue. The extortions of the Sacramento plunderbund are serving to bring the good name of our State into disrepute, in addition to imposing the heaviest burden of taxes on our citizens ever borne by an American State.

HORROR BEHIND, WHAT'S AHEAD?

Lenine's future is more uncertain than was ever the future of a Russian emperor. With a wilderness of blood and horror behind him, with a highly volcanic soil trembling beneath his feet and with clouds of inky blackness veiling his future, few human beings have ever been enveloped in more tragic menace and mystery than this prosaic, common-looking man. VICTORIAN DAYS.

The age Victorian, methinks, produced some able writing ginks, although they're jeered at now; the modern wielders of the pen insist that prudery was then behind each bulging brow. The authors of that bygone time wrote tales of love, intrigue and crime, in palace and in hut; and all their tales were good and clean, they wrote up life, both high and mean, but left out all the smut. The beastliness of life, gadzooks! Why write it up in mighty books, in language coarse and curt? Why overlook the blooming rose to show that soil from which it grows is largely made of dirt? Our later scribes resolved to strike against convention and the like, and show life as it is; and when I read their stirring tales of gas the sewer pipe exhales I weep and cry "Gee whiz!" They show up every morbid phase of life as lived these sordid days in slum and den and style; and if the tales they tell are true, and life is such a beastly stew, the world had better die. The prudes Victorian were wise; they wrote of mirth and shining skies, clean dames and decent men; they knew the world had filth and vice, but figured that it wasn't nice with such to soil the pen.

Will you delve down in the mines of life
And garner the glittering dross
And leave the veins of virgin gold
An everlasting loss?

Will you the will-of-the-wisp pursue,

Folks Are So Careless.

Professor Dink Beeson says he wishes people would take more pains in their pronunciation when they introduce people and the other Sunday at the park some friends of his and his wife's introduced them to some friends of theirs named Holmquist from Long Beach, or he thought that was what they said, and at this time of year the prof always likes to be nice to people who hail from the beaches,

Because

Beach invitations come in so handy.

And

So he and his wife lit in to show the Holmquists a rousing time and he bought them ice cream cones all round and hot-dog sandwiches and took the children,

Of which there were five, riding on the merry-go-round and bought them all-day suckers.

And

The professor laughed hearty-like when the youngest Holmquist of all daubed the prof's Palm Beach pants with an all-day sucker,

Although it put him absolutely without a pair of pants to wear to a very important meeting he could not afford to miss the next day.

And,

Begone dull care, thought the professor, because he could see that he was making a hit with the Holmquists, and sure enough, when they got ready to separate, the Holmquist man said, if you are ever in our town you must certainly hunt us up, and the prof said, sure, what is the address,

And the Holmquist man said fifteen hundred and something, Something street, Long Branch, N. J.

Historic Interludes.

One balmy English afternoon when Sir Isaac Newton was a boy of 10 his mother entertained the village sewing circle.

Sir Isaac was even at that age of an experimentative nature and as the guests gathered round the old oak table of the tearoom to sip their afternoon beverage he began testing the cohesive powers of tin cans by attaching one to a stray dog in an adjoining room.

The dog dashed through the swinging doors, sprang to the tea table and from it through the open window, upsetting the tea urn in passage.

Many of the gowns worn by members of the sewing circle were ruined.

Years afterward a fellow-scientist asked Sir Isaac what was the first mathematical problem that appealed to him.

"The difficulty of squaring a circle," said Sir Isaac.

No More Safety Valve.

The boy with the green silk shirt tells me he has lost the use of his safety valve. He calls Mrs. Job Kinnamon his safety valve. Mrs. Job is as deaf as a post.

The boy delivers meat for the Deadshot meat market.

People are awfully unreasonable about their meat, he says, and instead of calling up the proprietor over the 'phone take the blame out on the delivery boy.

Mrs. Job Kinnamon lives in a little isolated house and the boy found it a great relief when he came to her doorstep to talk back to her and say things he dared not speak into hearing ears.

Alas, he no sooner started in on her yesterday, and had unbosomed himself of no more than a dozen choice cuss words, when a bird in a sailor suit swarmed out of the sitting-room.

It was Mrs. Job's son, who has been in the navy and has just finished his time and returned home.

He is much bigger than the boy with the green silk shirt and threw the latter bodily down the doorsteps.

COUNTY TO LEAD IN ALIEN TAX.

Los Angeles District Has Largest Foreign Element, Says State Official.

Los Angeles county, with an alien population of 48,286, will lead the State in registrations under the poll-tax law, according to a statement given out at Sacramento yesterday by M. D. Lack, secretary of the State Board of Equalization. The total alien population for the State is given by him as 238,678.

His estimate is based on the 1920 census returns as transmitted to him by Senator Shortridge. These figures place this county first, with San Francisco a close second with 41,513 aliens; Alameda county third, with 22,449; Fresno county, fourth, with 16,508; Sacramento county fifth, with 8788, and San Joaquin county sixth, with 8322 aliens.

At the tax rate of $10 per registrant, $2,386,780 should be raised, he said. This amount may be increased by delayed payments of the tax, which carry with them heavy additional burdens.

HOG FARM PLAN PROTESTS GROW.

(Continued from First Page.)

by trucks from this station through Boyle Heights to the Reppto ranch, but the protests of the Boyle Heights Improvement Association and the residents of Montebello and other near-by cities resulted in the truck-hauling plan, as well as the Reppto ranch site, both being abandoned, and the contractor now says that the garbage will be hauled in railroad cars over Pacific Electric tracks to the old Durbin ranch.

"There will be no hog feeding on the Durbin ranch if we can prevent it," Mr. Wygant of Baldwin Park told Dr. Pomeroy yesterday.

John P. Steele, who is associated with Mr. Whitman in the garbage contract, appeared before the Baldwin Park mass meeting, but he admitted yesterday that he had pleaded his case in vain and that the Baldwin Park people are unitedly opposed to a hog-feeding farm in their midst. The farm, which was then used for hog-feeding purposes, was the subjects of protests in 1911, resulting in a grand jury investigation, and the final abandoning of hog-feeding of garbage by the city of Los Angeles, and the residents of that section are determined to prevent a repetition of the conditions of that time, when tons of garbage were strewn all over the farm to the menace of the health of the people for miles around.

SITUATION SERIOUS.

There remains but ten working days before the Pacific Reduction Company, which now disposes of the city's garbage, shuts down and Mr. Whitman must accept the garbage and remove it fro mthe city within twenty-four hours after each day's collections are received. Driven out of Reppto ranch, threatened with the possibility of not being permitted to conduct a hog-feeding farm at Baldwin Park, Mr. Whitman's proposed hog farm seemed yesterday to face the prospect of being homeless with the City of Los Angeles in a position of having to find an immediate solution of its garbage disposal problem.

Mr. Steele said yesterday that if the old Durbin farm plan does not go through, all preparations have been made to ship the equipment to one of several other locations in the county, though he admitted that the contractors must act quickly if they are to be ready to dispose of garbage on August 1. Health Officer Pomeroy said yesterday that he doubted very much that there are any available places in the county where hog feeding farms could be established, such as stated by Mr. Steele.

CONTRACT DELAYED.

Adding more difficulty as well as mystery to the city's garbage disposal problem, there has been much delay in placing the signed ten-year contract with a $75,000 bond before the Board of Public Works by Mr. Whitman. If the contractor fails to sign the contract and file the bond, he will forfeit a certified check for $10,000 which accompanied the Whitman bid of 96 cents a ton which was accepted by the Board of Public Works and the City Council. It was expected that the contract would be signed by the contractor and the Board of Public Works last week, but so far neither the bond nor the contract has reached the board. Mr. Steele said yesterday that the contract would arrive in time and that the contractors would receive the garbage and dispose of it. "We are not worrying," said Mr. Steele. "The ten-year garbage contract is worth millions and we are going through with it." Mr. Steels has consistently refused to give the names of any of the persons associated with him and Mr. Whitman in the contract, though both Mr. Steele and Mr. Whitman denied that they were representing a syndicate of Japanese hog-raisers, as was charged on the floor of the council chamber.

SAYS MARRIED LIFE SERIES OF BEATINGS.

Life was just one beating after another at the hands of her husband, according to a suit for separte maintenance filed yesterday by Dolly L. Moncrevia against John B. Moncrevia. They were married July 9, 1919, and separated on the 9th inst. Her allegations recite beatings, in Venice, Phoenix, Dallas and other cties, that she says caused black and blue spots. They also charge him with profane language and intoxication. Mrs. Moncrevia asks that an order of the court be issued to restrain her husband from disposing of 640 acres of land in Oklahoma, purported to be worth $100,000, and asks for $1000 a month and $1000 attorney's fees.

GOING TO OKLAHOMA.

Mary Dalangdon, alias Virginia Elders, wanted in Oklahoma City on a charge of violating the national prohibition act, was ordered returned to that city for trial by Commissioner Long yesterday. It is charged in the information that eight gallons of whisky were found on the premises of the woman.

Telegram Traps Four Purported Auto Thieves.

A telegram from four purported automobile thieves at Ajo, Ariz., sent to a pal in Los Angeles, led to the capture of the quartet and the recovery of an automobile valued at $3000 yesterday. The telegram was intercepted by Detective Hickok, in charge of the theft bureau of the Automobile Club of Southern California, and Detectives Burr, Rose and Benedict.

The car, the property of Mrs. A. M. Scheinbaum, 4431 Central avenue, was stolen from a garage at Vernon and Central avenues on the 13th inst. On the following day the detectives learned that four men who had been frequenting a pool room near the garage had disappeared. They found a fifth man, an asserted pal of the missing men, and kept him under surveillance.

On Monday the latter received the telegram from his pals, who said they were stranded at Ajo and asked for funds. The detectives wired the constable at Ajo to arrest them and to seize the car. Yesterday the case was turned over to the Federal government. Charges of violating the Dyer Act will be placed against the men.

Chief of Police Warns Gamblers in "Little Chat."

A dozen men prominent in local bookmaking and gambling circles and whose names appear on the police blotter were called into the office of Chief of Police Jones yesterday afternoon for what the Chief described as a "little friendly chat."

The conference was brief but to the point. Chief Jones said later:

"I have told these men, all known gamblers, that there will be no winking at or sidestepping the laws covering gambling in Los Angeles. They have been told in plain and unmistakable language that the police under my administration will raid all gambling games they find, and that every effort will be made by the department to convict all who indulge in gambling, whether it be a bookmaking layout, a crap game or a poker session."

DIVORCES WIFE GONE FOR TWENTY YEARS.

John Jack told Judge Summerfield yesterday that he had not seen his wife, Mabel J. Jack, for twenty long years, or to be exact, since Feb. 12, 1901, and that he understood that she has been married again and has two children. His testimony was corroborated, and he was granted a divorce.

PICTURES SHOW CITY'S FOUNDING.

"Times" Rotogravure to Give Scenes from Pageant of San Gabriel.

Next Sunday's Times' rotogravure will contain two full pages of photographs of the pageant of San Gabriel, commemorating the founding of El Pueblo de Nuestra Senora la Reina de Los Angeles, July 31, 1781, which will be held at San Gabriel, Sunday, the 31st inst.

The "Sight-seeing Trips Through Southern California" series will be continued and Redondo Beach, Manhattan Beach and Hermosa Beach will be represented in two pages of pictures showing the outstanding beauties of the sisters of the silvery sands.

A full page of the last word in fashions, under the special direction of Miss Peggy Hamilton, also will appear for the benefit of the women.

An architect's perspective of the new $1,000,000 Methodist Episcopal Church, together with photographs of Pastor Elmer E. Helms, D.D., and Associate Pastor C. E. Leitzell, D.D., will be among the numerous features of this great eight-page rotogravure section.

STUDIOS KEEP GOING.

New Test of Strikers' Strength is Expected at 2 Today.

Union leaders announced yesterday that by the end of the week they expect to have the principal motion-picture producing companies of this city completely tied up, unless their demands, which call for a continuation of the old wage scale, are complied with.

W. J. Reynolds, secretary of the Motion-Picture Producers' Association, however, said last night that the strike is not spreading, and that the studios affected are able to fill all vacancies from nonunion sources and are continuing their production.

A new test of strength is predicted for tomorrow, when the wage agreements for Universal and Brunton's expire and the workers there will have to accept the reduction of from $8 to $7 a day or join the strikers.

FOR RECREATION CAMP.

Registration for admittance to Camp Estella, the Y.W.C.A. recreation camp for business girls, was opened yesterday at the Y.W.C.A. headquarters, 941 South Figueroa street. The camp will open next Saturday, when a party of fifty young women will leave for the mountain retreat in San Antonio Canyon.

SAYS HE HAD TO BE DOG'S BEDFELLOW.

Husband Files Complaint in Reply to Wife's Suit for Divorce.

Mrs. Madeline Jones was confronted with a contest yesterday in the Superior Court when her husband, Dewitt C. Jones of New York City, filed a cross-complaint in answer to her suit for separate maintenance. The husband charges that his wife made him occupy the same bed with her pet bull dog, asks that he be granted a divorce and mentions George F. Shea as co-respondent.

His attorneys also introduced a letter before Judge Willis in which he notified his wife that he had prepared a home for her and their son in New York City and that failure to comply with his request that she return at once would make it necessary for him to take immediate legal steps to protect his interests.

Mrs. Jones in her suit represents that Mr. Jones is worth $50,000 and asks that she be awarded $200 per month for the support of herself and son and $250 attorney fees. The cross-complaint foretells a sharp contest for the custody of the 7-year-old son.

RITES FOR LODGE MAN.

Funeral for F. J. Hildebrand Will Be Conducted Tomorrow.

Funeral services for Frank J. Hildebrand, 53 years of age, whose death resulted from his becoming overheated and exhausted while marching in the Elks' parade last Thursday, will be conducted at 10 a.m. tomorrow under the auspices of both the Elks and the Knights Templar.

Mr. Hildebrand died on Sunday night at his home, 1316 North Western avenue. He leaves a widow and two sisters, Mrs. Henry Crane of Los Angeles and Mrs. Rose Hohfeld of San Francisco.

Besides taking great interest in the affairs of the Elks, Mr. Hildebrand was prominently concerned in the activities of the local chapters of other fraternal orders. He was a charter member of the Stanford Parlor of the Native Sons and a Knight Templar. He was engaged in the merchandise brokerage business in Los Angeles for more than fifteen years. His offices were in the Higgins Building.

THEFT IS CHARGED.

Writer Held on Suspicion of Taking Suit Case Containing Stamps.

Paul P. Romon, who told police he is a writer, was locked in the City Jail yesterday on suspicion of grand larceny and the police are endeavoring to locate a suit case said to contain old postage stamps valued at $2000.

Officers assert that Romon took the suit case from a Broadway drug store, where it had been checked a short time before by its owner, W. H. Dodge, a stamp dealer at 508 South Hill street.

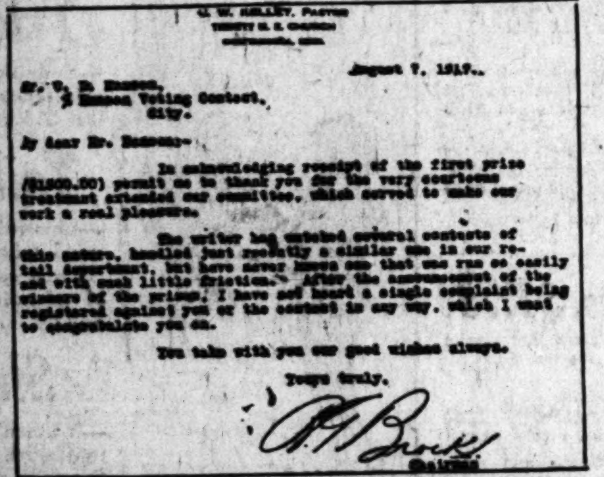
To the Church, Charitable, Benevolent, School, Fraternal, Union and Other Organizations in Los Angeles County



August 7, 1919.

In acknowledging receipt of the first prize ($1500.00) permit me to thank you for the very courteous treatment extended our committee, which served to make our work a real pleasure.

The writer has watched several contests of this nature, handled just recently a similar one in our retail department, but have never known one that was run so easily and with such little friction. After the announcement of the winners of the prizes, I have not heard a single complaint being registered against you or the contest in any way, which I want to congratulate you on.

You take with you our good wishes always.

Yours truly,

Who Can Enter and Compete

1. Any organization in Los Angeles county, such as church, charitable, social, school, benevolent, union, fraternal or any worthy organization may compete. It costs nothing to enter or compete. The prizes are actually an award for effort alone. All organizations to compete under Rules printed in The Times, July 20, 1921.

2. The First Grand Prize, $1500 in cash, will be awarded to the organization securing the largest number of votes as will be evidenced by vouchers issued by the campaign for that purpose. Each of the several prizes, totaling over $12,000, will be awarded in rotation to the organizations receiving the largest number of votes, such as first, second, third, fourth prizes, etc., earned by the organization competing for them according to printed Rules and Regulations. There will be 56 prizes to be competed for.

3. Votes will be given on the various articles and commodities, and on the sales slips and coupon books secured from the various merchants named on these pages, and others who may be added to the list from time to time, which specifically show the number of votes given regularly, for each article, and which clearly shows what part of each article is to be turned in to secure votes. The only variation from the set value of these votes, or 10 votes for each cent purchase price, will be when the prices of articles are in fractions or others specifically printed thereon, and upon the occasion of special offers and combinations, which will be properly set forth from time to time and in proper time to allow all contestants equal right and showing. Weekly instructions, special offers, etc., will appear in the Monday issues of the Los Angeles Times.

4. Nomination Blank is printed herewith, good for 100,000 votes. Only one blank for each organization will be counted, which may be turned in or mailed to National Promotion Company or brought to headquarters, 840 South Hill street, Los Angeles, Cal. Or nominations will be accepted over the phone or by written request otherwise.

5. Always ask for the goods which are named on these pages when making purchases, as they are good for votes, and ask for receipts at the retail stores named, as they are good for votes as specified hereon. Your friends will also be glad to assist you in doing likewise, as they are accomplishing the purpose of helping their favorite organization and friends, and at the same time securing the highest class of merchandise at absolutely NO additional cost whatsoever.

6. Organizations desiring to enter should do so at once, and begin organizing and getting ready for work.

7. Organization managers or others interested are cordially invited to call at headquarters and be given all details and working plans, all free.

8. All vote-matter must be cast only at Contest Headquarters, and to receive credit organizations must be, and will be, issued proper Vote Certificates.

9. First prize is $1500 in cash; second, a $1500 grand piano; third, a $1070 grand piano; fourth, an $800 upright piano; fifth, a $700 upright piano; sixth, a $650 phonograph; seventh, a $500 phonograph; eighth, a $250 phonograph; ninth, a $175 phonograph; tenth, a $150 phonograph; eleventh, a $135 phonograph; twelfth, a $125 phonograph; thirteenth to fifty-sixth, inclusive, $100 each, in cash.

Rules and Regulations

A—This campaign will begin July 20, 1921, and will close October 26, 1921. Casting of votes will begin Thursday, July 28, 1921.

B—Privilege will not be granted, nor votes counted, or in any way allowed by organizations entering this campaign to compete for prizes withdrawing and throwing their votes to some other organization, unless done so within the first thirty days of this campaign, and in writing, to Contest Manager on or before August 19, 1921, noon.

C—At the close of this campaign the prizes will be awarded as soon thereafter as possible to determine the winners, who will be adjudged by certificates issued, and by the Campaign Manager, and all those entering this contest specifically agree to abide by the decision, and organizations actively competing express thereby prima facie adhesion to such agreement.

D—In case any one prize is tied for, those tying will be awarded an identical prize.

E—Ballots once issued, or votes cast, cannot be transferred except as governed by Rule B.

F—If at any time it is discovered that any of the contestants in this contest become guilty of unfair methods, their candidacy will be dropped and the votes cast prior thereto will be lost. The Manager reserves this right, and those entering agree to abide thereby, and organizations actively competing express thereby prima facie adhesion to such agreement.

G—No agreements or promises made anyone will be held binding unless specifically printed in the Los Angeles Times columns or otherwise put in writing by the Campaign Manager.

H—Any argument or dispute that might come up between contestants is to be decided by the Campaign Manager, and his decision shall be final on the subject. This all contestants agree to upon entering, and organizations competing express thereby prima facie adhesion to such agreement.

I—The managers of the National Promotion Company reserve the right to add additional prizes to those named for organizations, and to include individual contestants to compete therefore, in which case these Rules and Regulations shall apply.

J—All organizations entering and competing specifically agree to abide by rules and regulations made now or at any time which shall be published in the columns of the Los Angeles Times by said managers, which shall be identical for everyone. The campaign is a mutual affair, and all shall abide by such rules as may become necessary and organizations actively competing express thereby prima facie adhesion to such agreement. The prizes as offered will be awarded to the organizations which compete for same throughout the contest and win them under all rules and regulations as printed in the Los Angeles Times.

K—The management reserves right to reject nomination of any organization without giving reason.

L—Contestants will all be treated identically, no partiality allowed, and all instructions and vote offers will be printed in the news columns of the Los Angeles Times. Read the offers every Monday.

M—Minimum "turn-in" requirements of vote getting matter will be announced as necessary, from week to week.

N—No nomination accepted after August 19, 1921, nor will any new organization be permitted to enter and compete after that date, as to do so would be unfair to all.

FIND TWO DEAD IN LOCKED ROOM.

Love Quarrel is Blamed for Double Tragedy.

Bullets Kill Pair Who Lived as Man and Wife.

Woman's Husband is Said to Live in San Diego.

Following complaints of disagreeable odors coming from an apartment in the Harland apartment-house, 323 East Fifth street, yesterday morning, detectives broke into the room and found the body of Mrs. Mary Davis, 41 years of age, of 411 East Fourth street, on the bed with a bullet hole in her forehead, and near her on the floor, the dead form of a man whom the police identified as L. G. Libby, 38, a carpenter.

The pair had been living at the apartment-house as man and wife since May 14, the police were told. Neither had been seen about the place since last Thursday, the housekeeper said, and it is believed that the double tragedy occurred either Thursday night or Friday morning, following a love quarrel.

There was a bullet hole in Libby's head and in his right hand was a .38-caliber revolver with two empty shells in the chambers. It is believed that he shot the woman, then turned the gun on himself.

HAD HUSBAND.

Detectives Carl R. Williams and Louis Ballestero, who investigated, learned that the dead woman has a husband at San Diego and a daughter, Lola, age 19, and a son, Creighton, 21, living at 411 East Fourth street. The daughter, when notified of her mother's tragic death, seemed unmoved and told police she thought her mother "better off that way." She would say little about her mother's past life.

At the rooming-house where the bodies were found it was said that Libby and Mrs. Davis seemed devoted to each other and their life there seemed to be free from quarrels. Both were employed somewhere, it was said, the man going to work daily at 7 a.m. and returning at 5 p.m. Mrs. Davis was in the habit of leaving the apartment-house soon after 5 p.m., returning nightly at about 11 o'clock. At the East Fourth-street house it was said that, while she retained a room there with her daughter, she had not been seen there except at infrequent intervals, and then only for an hour or two at a time.

FROM PORTLAND.

Libby, police learned, has been in Los Angeles for several months, coming here last winter from Portland, Me. He was a carpenter by occupation.

There was no note found in the room that would explain the double killing. Police late yesterday were endeavoring to locate the woman's husband at San Diego and Libby's relatives at Portland. The bodies were taken to the J. H. Riedeman undertaking parlors, by direction of the Coroner.

THREE ARE SENTENCED.

Three defendants yesterday were sentenced to San Quentin by Judge Willis. Walter N. Coburn was sentenced to from one to ten years for stealing an automobile; Jose M. Soto to from ten years to life for second-degree murder of Rose Gonzales, and B. F. Gibson from one to fifteen years for burglary.

Mrs. Mary Davis.

FIVE NEW SUBMARINES ARE DUE AT HARBOR.

WITH THEIR ARRIVAL MORE WILL BE AT THIS PORT THAN IN ANY OTHER.

The U.S.S. Beaver and five new submarines of the S-type are due at Los Angeles Harbor today from New London, Ct., en route to their permanent base at Pearl Harbor, Hawaii. With their arrival more submarines will be centered here than at any other port in the United States.

The divers due are the S-9, 14, 15, 16 and 17. Submarines already based at Los Angeles Harbor include eight of the H-type, two of F-type, one S-type, and four L-type. Nine R-type submarines are in port here with their tender the Camden. The nine R-type and the five S-type will all leave within a few months for the Hawaiian Islands.

The mine-sweeper Pinola, which has been stationed at Los Angeles Harbor for several years, left yesterday for Balboa, Panama, where it will be based in the future. She will be followed in a few days by the Kingfisher and another vessel of the same type.

PORT NOTES.

The first of the fleet of five steam schooners that have been tied up in Los Angeles Harbor since the calling of the marine strike on May 1 sailed yesterday. The vessel is the Hammond Lumber Company's steamer Santiam, which sailed under sealed orders, presumably for Astoria to load lumber for this port.

The Matson Navigation Company's liner Buckeye State, which sailed from Baltimore for this port over a month ago, but which was forced back into port after a fire had broken out on board, will sail from the east coast again on July 30. The Buckeye State is on her maiden voyage, and will bring passengers and freight for this port.

J. A. Talbot, general manager of the Southwestern Shipbuilding Company, announced last night that the 8400-ton oil tanker Semiramis, third vessel to be built by that concern for the Anglo-Saxon Petroleum Company, will be launched from the ways at the East San Pedro yard on August 6.

The 11,000-ton freighter West Prospect, Hull No. 34 at the plant of the Los Angeles Shipbuilding and Dry Dock Company, will be launched on July 30, it was announced at the offices of the shipbuilding company yesterday.

The West Faralon, sister ship of the West Prospect, and Hull No. 32 at the yard, will have her official trial trip of Los Angeles Harbor today. The West Faralon is 100 per cent complete, and will probably be allocated to the European-Pacific Line, which began loading the West Lewark, Hull No. 31, last week. The West Lewark will operate between Pacific Coast and European ports.

Bringing more than 1000 tons of steel and manufactured products, the United American Line freighter Pennsylvanian arrived yesterday from New York and Boston.

Other deep-water arrivals yesterday included the Pacific-Caribbean & Gulf freighter Eldorado from New Orleans. Sailings included the British tanker Lompoc for Antofagasta, United American freighter Alaskan for Boston, Osaka Shosen Kaisha freighter Altai Maru for Shanghai and Pacific Mail freighter Eastern Merchant for San Francisco.

PROPOSED ALUMINUM PLANT.

A plan is under consideration for the construction of a plant on the western coast of India to produce about 2500 tons a year of aluminum from bauxite by the use of electricity. It is proposed to generate about 20,000 kilowatts by the construction of a large reservoir to collect and store the annual rainfall and the flow of a small stream, with a head of about 1700 feet. Considerable quantities of aluminum are now being imported for the manufacture of cooking and other utensils, and it is thought that there will be a good market for the product and demand for any surplus power generated.—[Indianapolis News.

Measure by Smell.

Marjorie's grandma has an old-fashioned way of measuring a yard by holding one end of the goods to her nose and then stretching the piece at arm's length. One day Marjorie found a bit of ribbon and carrying it to the old lady she gravely requested, "Grandma, please smell this and see how long it is."—[Boston Transcript.

BOYS AND WHAT THEY DON'T KNOW.

FACTS DISCOVERED FROM INFORMATION TESTS MADE BY A SCHOOL MASTER.

For some years it has been part of my job as master in a large preparatory school for boys to make out each year two "information tests," and to superintend the correction of the papers. Each test contains 100 questions and presupposes on the part of the pupil a bowing acquaintance with the masterpieces of English literature, including the Bible, some knowledge of the political doings of the day at home and abroad, and smattering of what is politely, but vaguely, styled "general information," which comes from the habit of keeping open the eyes and ears.

The boys who take the tests range from 12 to 19 years of age and are for the most part sons of wealthy parents. They have enjoyed all the advantages that money can buy. Many have traveled widely. Not a few have been exposed to the society of refined and cultured persons.

After reading some hundreds of these "general information" papers I am forced to conclude that the average boy's ignorance of literature, especially of the Bible, is profound, not to say abysmal. The unplumbed depth of the abyss may, perhaps, be assigned to the youth who gave as his version of the third commandment, "Thou shalt not commit Deuteronomy!"

Every boy has a few favorite authors, whom he holds responsible for all that has been written in prose or verse since Shakespeare's day. Longfellow heads the list, with Tennyson and Kipling following

HIGH POST FOR LOCAL BANKER.

W. W. Woods to Join Huge New York Institution.

Chosen Vice-President of the National City Concern.

Picked for Knowledge of West, Advices Say.

W. W. Woods, vice-president of the First National Bank of Los Angeles, was yesterday elected a vice-president of the National City Bank of New York. He will enter upon his new duties in August.

This distinguished recognition comes to the Los Angeles banker, says advice from New York, as a result of his intimate knowledge of California economics; of the foreign trade problems as applied to the Pacific Coast; of the cotton, copper and great commodity markets of the West, and particularly of the co-operative marketing systems for which California is internationally famous.

It is the policy of the National City Bank, which is one of the largest banking organizations of the United States, to have in the official family representative men from each important division of the country, and the choice has fallen upon Mr. Woods only after a careful survey of the field, the advices say, and implies the conviction that his equipment for the task is beyond question.

Mr. Woods has been identified with the banking interests of California for many years. Since attaining executive rank he has been vice-president of the Citizens' National Bank, general manager for the Bank of Italy, and for the past two years vice-president of the First National Bank. He recently returned from New York, where a proffer of the position was formally tendered, culminating in his election yesterday.

No intimation of the identity of Mr. Woods's successor in the First National Bank has been given.

Mother-in-Law Defrauder Gets Heavy Sentence.

Maj. Alfred W. Birdsall, convicted by a jury of embezzlment and forgery, was sentenced yesterday by Judge Conley to from two to twenty-four years in San Quentin. His attorney, S. W. Thompson, served notice of an appeal of the case after Judge Conley had denied a motion for a new trial. A request for a ten-day stay of execution was granted by the court and bail was fixed at $15,000.

Maj. Birdsall was found guilty of defrauding Mrs. Kate Neville of $2250 by signing her name to a draft for this amount and depositing it in the bank to his own credit. He had married her daughter, Mary, but the marriage was annulled when it became known that he was not legally separated from a former wife at the time of his second marriage.

GIRL'S DEATH ENDS SUMMER AUTO TRIP.

[LOCAL CORRESPONDENCE.]

VENTURA, July 19.—Death terminated a pleasure trip through the Northwest when Miss Bernice Anderson, a member of the party, was stricken with ptomaine poisoning and died a few hours later.

George Guggenheim, proprietor of the Great Eastern store here, had a party of eight with him on the trip, including Miss Anderson and her mother, Mrs. Mercy Anderson, who are both of Los Angeles. The girl died at Medford, Or., according to a telegram received here.

The party have abandoned the journey by automobile and are returning home by train.

BIGAMY CHARGED.

Thomas E. Hart, accused of having two wives, was arraigned yesterday before Justice Forbes on a charge of bigamy. He is accused of marrying May Starret, said to live at 505 Boylston avenue, on June 29, 1920, while he was still the lawful husband of Lula N. Hart of 1422 Maple avenue. Hearing was set for the 22nd inst. and the defendant was required to furnish $1000 bail.

SAVAGE TIRES
HISTORY OF THE RED MAN SERIES

THE CONQUEST
BY "INDIAN" MILLER

When Columbus discovered the red race, he discovered a people who differed from all others. They sang differently and danced differently. They were just as human, however, as the white race; but the Spaniards did not concede this and stuck to their opinion until the end of Spanish dominion in America—until the United States drove Spain from America.

It was necessary for a pope to decree a few years after the beginning of the conquest that the Indians were of the human race and worthy of conversion.

The Spaniard reasoned that God gave Christians dominion over all animals and everything else. They took to conquest like a duck does to water, and slavery was a logical product.

The Spaniards of today no longer seek to justify the conquest and the enslaving of the Indians. They realize that it was unjustifiable. They have seen that the minds and morals of men are changing for the better. Men are learning better to distinguish right from wrong.

In other words, man are progressing, for this is a day of progress. In tune with this spirit it is not strange that the House of Spreckels should add to its line a new tire of Cord construction. The state of perfection attained in this big handsome tire reflects the ideal behind its manufacture. It is Built to Excel and does—in performance as well as in appearance.

EDITH LUNDBERG SURE OF JURY.

Accused Sweetheart Slayer Confident of Justice.

Glad She is to be Tried by Body of Americans.

Temporary Insanity Defense May be Attempted.

Edith Lundberg, charged with having murdered her sweetheart, Linas F. Worden, Jr., sat between her attorneys in Judge Houser's court yesterday and studied the faces of possible jurors in whose judgment her fate rests.

"As I look at them a confidence comes to me, a confidence in the justice of Americans," she said during the afternoon recess. "I am only glad that this tragedy happened here and not in a foreign land. Those people who have been sitting there," waving her long, slender arm toward the jury box, "are all clean, and serious-minded. They will understand. They have hearts with the same blood coursing through that throbs in my heart. Perhaps each of them has, at some time, felt as I have felt—but I cannot discuss the case," she added, looking wistfully out of the window in silence for some time.

"I have often wondered what a jury would look like. Instinctively, I have always had a fear of such a body of men or women, for it seemed such a terrible thing to have to ask anybody to do, to sit on a jury, but today I have come to understand that they are not fearsome or terrible; that it is merely a duty which they are performing and that as this terrible story unfolds before them human understanding, not mere people, sits as a court of justice. I seem to see beyond their faces and into their hearts.

NOT OVERCONFIDENT.

"No I am not overconfident; I am only confident in my own heart, but I feel that that confidence must reflect into their hearts when they learn all the facts. I only hope to be brave and true to the very end for that is what they are entitled to."

"Order in the courtroom!" thundered the baliff and the examinations of the venire continued.

Edith Lundberg is held for the murder of Linas Worden, who was shot in the back at night after he and Mrs. Lundberg had been sitting in an automobile in front of her home. Mrs. Lundberg shot herself at the time and for several days her life was despaired of.

INSANITY MAY BE PLEA.

Practically all those examined yesterday as jurors were questioned regarding their viewpoints about temporary insanity, possibly indicating that the defense may take this turn in its procedure. Several persons were dismissed because of knowledge of the case through newspaper reports and the formation of definite opinions.

Every seat in the courtroom was filled throughout the day. A jury probably will be decided upon by noon today.

At the closing hour the following had been "passed for cause" by both Dep. Dist.-Atty. Randall, who is prosecuting the case for the people, and by Public Defender Aggeler and Chief Deputy Public Defender Vercoe, who are appearing for Edith Lundberg: Mrs. A. H. Curtis, O. P. Sharp, Mrs. J. R. Baird, E. W. Gosser, Charles Ohlson, Mrs. G. W. Felton, Harry E. Fisher, F. E. Ellis, Mrs. Hattie W. Durbin, Mrs. Charles W. Chase and Charles F. Turner. Any or all of these may be challenged before the final selection of the jury. The defendant is allowed twenty challenges and the prosecution ten.

MAYOR SOON TO NAME MEN FOR HARBOR BODY.

PLANS TO NOMINATE TWO POLICE COMMISSIONERS IN NEAR FUTURE.

Following a conference yesterday with members of the Chamber of Commerce, relative to appointments to the Board of Harbor Commissioners, Mayor Cryer said he hopes to send his selections to the City Council for confirmation within the next forty-eight hours. The Mayor has also virtually decided upon his two new police commissioners, and will immediately follow up his harbor board nominations by sending in the names of the two men who are to succeed Police Commissioners Laws and Barry.

The Mayor has had much difficulty and many disappointments in his search for men for the harbor and police boards. In two cases he found that men of standing and experience and willingness to serve, lived outside of the city and were ineligible. In other cases, decided opposition among the Councilmen showed that it was useless to send in the names.

TWO GO ON TRIAL.

Conspiracy and Obtaining Money Under False Pretenses are Charged.

Accused on three counts of conspiracy to obtain money under false pretenses and three counts of obtaining money under false pretenses, C. B. Tibbetts and Harvey F. Libby, who owned the Business Clearinghouse Association, 320 Douglas Building, were placed on trial yesterday in Judge Reeve's court. Dep. Dist.-Atty. Van Cott is prosecuting the case and J. Vernon Givan is defense attorney. It is charged the defendants represented to J. A. McCall, Perry W. P. Johnston and W. S. McCall, in selling them an interest in the concern, that they owned the business in question, in addition to four automobiles, and had a valid listing of business properties in this city.

POLICE ASKED TO HUNT FOR MISSING SALESMAN.

Los Angeles police have been asked to search for Richard A. Gordon, a Pueblo (Colo.) automobile salesman, who disappeared from the Colorado city after participating in rescue work incident to the flood. He is thought to be mentally ill after going through the horrors of the disaster.

His employer, the Pueblo Automobile Company, has asked the local police to locate the man's mother and a baby daughter who are thought to be living here. Mr. Gordon, the letter to the police said, consulted a physician at Pueblo on June 10 and then disappeared. He left behind him all his effects and considerable money, in addition to a pay check due him from his employer.

UNION MEN BARRED BY SHIP LINE.

Second of Hammond Lumber Fleet Sails With Crew on Open-Shop Basis.

The second steam schooner of the Hammond Lumber Company's fleet of five vessels operating on the Pacific Coast sailed from Los Angeles Harbor yesterday with nonunion officers and men. The steamer Santiam departed under sealed orders for a northern port to load lumber for the local harbor.

After operating under the closed-shop plan for a number of years, steamship owners connected with the Shipowners' Association of the Pacific will man all ships in the future with nonunion crews. All deck and engineer officers on vessels of the Hammond fleet must sever all connection with marine unions before being placed on the vessels.

A. B. Hammond, president of the Hammond Lumber Company, who is looking over the lumber and marine situation here, made known yesterday the plans of the Shipowners' Association in dealing with the striking seamen.

Mr. Hammond and other officials of the lumber company held a conference on Sunday at the Terminal Island offices of the concern, which was attended by a majority of the former officers of vessels of the Hammond fleet. At the meeting the officers were notified that their former positions were open to them on condition that they renounce their connection with the Masters', Mates' and Pilots' Association and the Marine Engineers' Beneficial Association.

The matter was taken under advisement by the majority of the officers. A sufficient number responded on Monday to enable a full crew to be signed on the Santiam, the vessel sailing yesterday morning. Three other vessels of the fleet tied up at Terminal Island will sail as soon as officers and men are secured. What action would be taken in regard to signing of union firemen and sailors was not discussed, but it is believed the nonlicensed seamen will be signed under the same basis as the licensed officers.

MANY ATTEND SUMMER BIBLE SCHOOLS HERE.

RELIGIOUS COURSES GIVEN ON FIVE DAYS OF WEEK IN LINCOLN HEIGHTS.

One hundred and fifty pupils are enrolled in the daily vacation Bible schools in Lincoln Heights. The schools have been running for two weeks and will continue another fortnight. The program, according to Superintendent Lloyd J. B. Taber, will accomplish as much in one month as the ordinary Sunday-school does in two years. The week-day religious instruction idea is spreading in Southern California where, it is said, there are 12,500 pupils this summer.

Mr. Taber formed a similar school in Denver last year. In Lincoln Heights the kindergarten is held in the Baptist Church; the primary section in the Second Presbyterian Church; the junior section in the Asbury Methodist Episcopal Church, and the intermediate section in the Church of the Epiphany, Episcopalian. The various sections meet daily at 9:30 a.m. except on Saturday and Sunday. Besides the religious instruction there are classes in sewing and manual training. In the afternoons the children are taken on expeditions into the country, for swimming, sports and picnics.

Mr. Taber formed a similar organization in Boyle Heights, where the school meets in the Boyle Heights Methodist Episcopal Church, with the co-operation of the Baptist, Presbyterian and Methodist churches.

BOYESEN QUITS JONES.

Resigns as Police Chief's Secretary to Edit Legion Bulletin.

Expressing high personal regard for the new Chief of Police, Ralph S. Boyesen yesterday tendered his resignation as secretary to Chief of Police Jones. He will become editor of the American Legion Weekly Bulletin. The resignation is to take effect immediately.

Mr. Boyesen occupied the position of secretary during the entire period Lyle Pendegast was in office. Previous to that time he was secretary to ex-Mayor Snyder for nine months, and before that was engaged in the newspaper business. Since Chief Jones took office the 5th inst. Mr. Boyesen has been the official secretary to the Chief, but spent the intervening time on a vacation.

No definite announcement has yet been made as to whom the new secretary will be. Capt. R. H. Hilf is filling the position temporarily.

There's the Button that holds like a Vise

Relentless, untiring, day and night, year in and year out, thousands of these buttons grip the plaster on your wall securely and prevent it from cracking or falling off—if that wall is made of

Buttonlath

This modern lathing material,—the best that can possibly be used in your home,—is made by compressing a fire-proof plastic material between two sheets of waterproof building paper. It overcomes the many objections to both wood and metal lath. It is easily and quickly applied and prevents waste due to material falling in the air spaces of the walls. Being fireproof it is the best insurance you can buy.

The "buttons" of Buttonlath are of a material that forms a chemical union with the plaster, in addition to the strong mechanical bond between the plaster and Buttonlath.

If you wish to have walls in your home that will remain forever as solid as when they were built, then specify Buttonlath. It costs less in the end than any other lathing material.

No better foundation for plaster walls, both interior and exterior, has yet been devised.

CITY FILES ON BOULDER SITE.

Los Angeles Applies for Dam Rights on Colorado.

Seeks First Chance After Federal Claims.

Maps Submitted for Vast Hydroelectric Project.

[EXCLUSIVE DISPATCH.]

PHOENIX (Ariz.) July 19.—The city of Los Angeles today made formal filing upon the Boulder Canyon dam site on the Colorado River. It is the only such filing in the office of State Water Commissioner Norviel, who has been informed that the dam site and reservoir have been withdrawn from entry and that the Department of the Interior contemplates their use. Thus far, Los Angeles is the only applicant.

The city was represented by W. S. Scattergood, noted on the papers as chief hydroelectrical engineer; Trent G. Anderson and W. R. Robinson of the city's public service legal department. They stated they appreciated all prior claims that might be possessed by the Federal Reclamation Service, but were seeking to place Los Angeles ahead of all other applicants, except the government.

MAPS SUBMITTED.

The contour maps submitted are on the basis of a 550-foot dam, for storage of 10,400,000 acre feet of water in Arizona and 15,600,000 feet in Nevada. This is the smaller of the two propositions advanced by Director-General Davis of the Reclamation Service, calling for an expenditure of about $50,000,000. In this cost it is assumed localities will participate in proportion to their benefits.

The primary object of the filing today, was stated as development of hydroelectric water power, theoretically to the extent of 596,000 horsepower.

PAPERS FILED.

Commissioner Norviel, following his practice, filed the papers without judicial determination of their value or passage on their claims.

It is understood that $100,000, largely furnished by Imperial Valley, already has been spent on the preliminary work, and that it may cost $500,000, the latter sum possibly to be furnished by Los Angeles and other interests involved.

FINED FOR WADING.

Woman Pleads Guilty to Walking in Mountain Stream.

Justice Hart of San Dimas yesterday fined Mrs. W. H. Myers, 4721 West avenue, $10 on her plea of guilty to the charge of wading in the stream in San Dimas Canyon. The mountains are full of summer campers, who are dependent on the purity of the water supply, and the local forest officials are active in apprehending violators of the law.

GIRL CRUSHED BY STAGE.

Crus Porpillo, aged 11 years, was fatally injured when she suffered a probable fracture of the skull and both her legs were broken yesterday when the automobile beside which she was standing was run into by a stage near the entrance to the Nawhall tunnel. She died late last night.

The girl's father, Juan Porpillo, was under the auto making repairs at the time of the accident, says a report to the Sheriff's office. The child was standing on the traffic side of the machine, which was on the right edge of the road, it was stated. She had one foot on the running-board and one on the ground when an unidentified stage crashed into the car, knocking the child across the highway and then dashed on.

Crus was brought to the Receiving Hospital. Up to a late hour last night the driver of the stage had not reported the accident to the police station.

According to another report of the accident telephoned to the Sheriff's office later in the evening by Constable Hitchcock of Newhall, the little girl was with a party of twenty-six Mexicans on a truck and had wandered across the road in front of the oncoming stage when the truck was pulled up at the side of the boulevard for repairs. A man and a woman riding in another car ahead of the truck also were hurt, Constable Hitchcock stated, when the stage, swerving in an attempt to avoid hitting the little girl, crashed into the machine. At the time he telephoned, Constable Hitchcock said he did not have the names of the man or woman, nor did he know where they had been taken after the accident.

DELAY MEANS SAVING.

Devil's Gate Dam Work Bids Greatly Reduced; Award Expected Soon.

The Board of Supervisors is preparing to investigate the plans and specifications of eight companies which have submitted bids for the construction of the long delayed gate for the Devil's Gate Dam, near Pasadena, and it is said that an award for its construction will be made shortly by the board.

Incidentally the eight bids now being considered are each approximately 50 per cent less than the only bid received last year, which was for $40,000. The Supervisors believe that the delay in this work has resulted in a big saving and report that distinct reductions are being noted in costs for labor and material.

LOCAL POSTAL JOBS ARE SOUGHT BY MANY.

There is a rush for jobs in the postal service and every day this week classes of fifty applicants each have appeared before Secretary Tynan of the Federal Civil Service Board for the local posts of clerk and carrier. There is a demand for men, and the officials are experiencing no trouble in getting all they want.

A TRAMP'S PROPHECY.

Linotype Has Displaced the "Knight of the Road."

"I tell you, mates, the day will come when they'll set type by machine," Jim Laidlaw, tramp printer, made this statement more than fifty years ago while sticking type on a small sheet in the Middle West. Jim had a penchant for prophecy, and few paid any attention to him. He even had the temerity to forecast that man would eventually conquer the air and fly like a bird.

It was the genius of Otto Mergenthaler that made good for Jim, revolutionized newspaper printing with the linotype machine and eliminated the "tourist" printer. While the Mergenthaler was by no means the first typesetting machine, it was the first successful substitute for hand composition.

The year of the World's Fair in Chicago, in 1893, saw the "lino" coming into general use and marked the beginning of the end of the old-time "comp" and hand composition on newspapers.

Printers the country over looked upon the machine as a calamity and the ruination of their trade.

But while the typesetting machine proved itself the friend of both boss and men and a great benefit to the trade generally, it did sound the death knell of that picturesque species of the craft, variously known as "tourist," "knights of the road," "itinerant of the stick and rule" or "tramp printer."

Only a few years ago every newspaper composing-room was a constant kaleidoscope of faces. A good printer in those days didn't care to hold a "frame" or "sit." He seldom stayed long in one place, much preferring to "hit the ties" on of "subbing" to "holding cases" in any office.

The "tramp printer" roamed over the country from the Lakes to the Gulf and from Maine to the Pacific Coast, rarely riding in trains muchp referring to "hit the ties" on his journeys, where he had plenty of time for reflection. On reaching a town out of work and funds he usually made the Public Library his headquarters. Many of these men in this way picked up a wealth of knowledge that few printers of this day possess.

As a rule the "knight of the road" was generous to a fault. When a stranger "struck town" the first question asked him was: "Did you eat yet?" or "Have you got a room?" These courtesies were given and accepted without comment or thanks.

Indeed, these men were often knights in very truth. If they had their vices, they had their virtues, too, generosity and good fellowship were not the least of them.—[Baltimore American.

NO MYSTERY ABOUT U-BOATS.

"We knew whenever a submarine left a German port; and we kept track of it day by day until it returned home," says Admiral William S. Sims in the World's Work. "No U-boat ever made a voyage across the Atlantic without our knowledge. The submarine was a slow traveler and required a minimum of thirty days for such a trip; normally the time would be much longer, for a submarine on this long voyage seldom cruised at more than five knots an hour. Our destroyers and antisubmarine craft were much faster, and could easily cross the Atlantic in ten days. It is, therefore, apparent that a flotilla of destroyers stationed in European waters could protect the American coast from submarines almost as successfully as if it were stationed at Hampton Roads or Newport."

FALL FROM TREE FATAL.

Harry Leathen, aged 10 years, who fell out of a tree near a boys' school at 841 South Harvard Boulevard on Monday afternoon, died at St. Vincent's Hospital last night as the result of his injuries, according to a report at the Coroner's office. The boy had been living at the school, the report stated, while his parents were in the East. The body was removed to the Turner & Stevens undertaking establishment in Pasadena.

ROY W. HORNING RESIGNS.

Roy W. Horning, for eleven years a physical director at the Y.M.C.A., has resigned to become general secretary of the Helena (Mont.) association. He will assume his new duties August 15. Mr. Horning organized the Basket Ball Officials' Association of Southern California. He has, for several years, been chairman of the registration committee for the A.A.U.

HIGH BAIL HOLDS CULT PRIESTESS.

Reputed Propaganda Worse Than Prussian, Charge of Prosecutor Fitts.

Wearing a brown friar's cloak which swept the floor, and with flowing sleeves and yellow fringes, her hands holding a picture of Christ, Mme. Edith Maida Lessing, self-styled priestess of "Helios," walked into Justice Brown's court yesterday for arraignment on three counts of a complaint charging criminal syndicalism.

The court announced, in response to an appeal by Dep. Dist.-Atty. Fitts, who is State Commander of the American Legion, that the woman would be held for a hearing on the 28th inst. under bail of $5000.

Following are excerpts from a printed card which Mr. Fitts read into evidence and characterized as worse, in connection with other asserted activities of the woman, than the Prussian army, as it meant war within rather than without:

"Make ready for the revolution. To all organizations of all descriptions, and to all those who desire revolution (American dictionary: Revolution, extensive change in the government of a country)—prepare for a grand convention of all the forces of Liberty, Truth, Love and Justice, to be held in Los Angeles July 1 to 10, inclusive, 1922."

"Be a Libertine! (American dictionary: Libertine, a freedman.). No dues, no pledge, so no salaries. No party politics."

"All are advised to make checks payable to Mme. Lessing."

"Wear a red badge," continues the statement. "Bring a red flag. We will abolish competition, armament, civil marriage, the penitentiary, etc."

In speaking of the charge, Mr. Fitts stated that she "confines her efforts almost solely to ex-service men because of the restlessness due to their present inactivity."

Rev. George D. Cole, arrested Monday night on a charge of vagrancy in connection with the police drive on Mme. Lessing's "Hilltop Helios," was arraigned before Police Judge Chambers yesterday, put up the required cash bail of $500 and was released, his case being set for the 29th inst.

Three charges of criminal syndicalism are contained in the complaint issued Monday by Dep. Dist.-Atty. McCartney against Mme. Lessing, high priestess of a strange cult which has alarmed neighbors and aroused the authorities. Mr. Cole's house was near the shack in which the rites of Mme. Lessing were performed.

FOR CHILD WELFARE.

In the interests of the thousands of little children who are the beneficiaries of the big program of child welfare work carried on under the direction of the bureau of Catholic charities, representatives of the various parishes of the city will meet at the Knights of Columbus Hall tonight to further plans for the child welfare campaign soon to be launched. W. Joseph Ford, who recently accepted the chairmanship of the campaign, will preside. Charlie Murray is announced as one of the principal speakers on the program.

MOVERS BLOCK CAR LINE.

Because a ten-room house occupied the right-of-way at Sixth and Burlington streets, conductors on the West Sixth-street line yesterday did their fare collecting on the Seventh-street line until early afternoon. The house was accompanied by two house-movers and four horses. The movers were willing to proceed, but the horses were not. Later on humane society officers confirmed the belief of the men that four horses did not provide sufficient power to move a ten-room building.

TO HOLD DUAL RITES.

Funeral services for F. Greenaugh, 76 years of age, former inspector of public works in this city, will be conducted at 11 a.m. tomorrow at the Bramble chapel, 1249 South Flower street. Mr. Greenaugh died after an illness of five years. He leaves only a widow. Services at the chapel will be under the auspices of the G.A.R. and there will be a Masonic cermony at Rosedale Cemetery. Mr. Greenaugh has been identified with the activities of the Eastern Star here for many years. His home was at 2726 South Harvard Boulevard.

SUE FOR ASSERTED FEES.

A suit to collect $400 attorney's fees purported to be due in connection with preparing articles of incorporation and by-laws for a company to be known as the "Patterson-McCaw Corporation," was filed yesterday by Attorneys William M. Morse, Jr., and C. S. Mank. R. T. Walters is attorney for the plaintiff. Mr. Patterson is a well-known automobile dealer of Pasadena and is prominent socially here.

MAKES TRIP TO COURT.

Charles A. Gorton, who, according to testimony brought out before Judge Summerfield yesterday planned to leave for San Francisco Thursday, was brought before the court charged with failure to provide for his 15-year-old son John on the complaint of Mrs. Hulda Gorton, 952 West Forty-fifth street. He was freed on $500 bail and his hearing set for 2 p.m. today.

One Was Too Much.

Buddy Meyer, the eternal youth of Mineola, Tex., tells of meeting a farmer who had suffered a recent bereavement. "And what caused your wife's death?" asked Buddy sympathetically.

"She had tuberculosis," said the widower, "and ary one of 'em would ha' kilt her!"—[Chicago News.

NOTED COLONIAL RECIPES GIVEN.

Chef Explains Dishes Made by Old-Time Cooks.

Tells of Food When Quaker City Was Social Center.

Little Improvement is Shown Since Revolution.

BY A. L. WYMAN, M.C.A.

PHILADELPHIA, July 12. — To the old-time custom of entertaining on a lavish scale when Philadelphia was the social center of the country, American housewives and caterers owe many recipes that have shown very little improvement since the women of 1800 prepared them for the distinguished foreigners and visitors from all parts of the country who attended their receptions.

Philadelphia established the first school of cookery in the United States in 1786 and the classes were limited to the young women of the best families who have left to their descendants the recipes that follow:

For a fish pie use four cupfuls of cold boiled fish, free from skin and bones, two tablespoonfuls of butter, two cupfuls of milk, two teaspoonfuls of cornstarch and two teaspoonfuls of finely chopped parsley. Place the milk in a saucepan with one small onion and when it comes to a boil remove the onion and add the cornstarch mixed with a little cold milk and the butter. Season with salt, pepper and the parsley. Cook until thick and smooth. Now place a layer of the sauce in the bottom of an earthenware baking dish, then a layer of the cooked fish and continue until all the fish and sauce are used. Cover top with bits of butter and bread crumbs and bake in a moderate oven for thirty minutes.

CHICKEN FRICASSE.

A chicken fricassee, Creole, is made by frying a disjointed chicken in butter until it is a light brown; remove the chicken from the pan and add to the remaining gravy two tablespoonfuls of flour and cook brown. Add two cupfuls of boiling water and three cupfuls of tomatoes, one small onion and four tablespoonfuls of parsley; season with pepper and salt and cook slow for one and a quarter hours. Serve in a border of cooked rice.

Another very old Creole recipe is for grillades. Fry one and a half pounds of sliced veal in one-third of a cupful of butter until tender. Add three sliced onions and season with parsley, pepper and salt, with plenty of pepper. When the meat is a golden brown and cooked through, pour over one cupful of vinegar and allow to simmer for ten minutes. Serve hot. This recipe is more than 100 years old.

A dressing for cold slaw is made by placing in a saucepan three lightly beaten eggs, one cupful of cream, two-thirds of a cupful of vinegar, half a cupful of butter and a seasoning of salt. Place on the fire and stir constantly until thick. Remove from the fire and when cold stir in two teaspoonfuls of mustard and half of a teaspoonful of cayenne pepper.

SALAD DRESSING.

Another dressing for salads is made with the beaten yolks of six eggs, two cupfuls of vinegar, one tablespoonful of mustard, one teaspoonful of salt, four teaspoonfuls of sugar, one teaspoonful of pepper, one teaspoonful of celery seed and two tablespoonfuls of butter; beat all together and place in a double boiler and cook until thick, stirring all the time.

Stunning Dance Frock.

In this creation gray pussywillow crepe de meteor is profusely embroidered over bodice, belt and skirt. The pretty panels are adorned with stones which give the appearance of little suns. Worn by Carolyn Thompson. (Keystone View Company.)

Sweet potato pone is a favorite. To make mix well four cupfuls of grated sweet potato, one and a third cupfuls of sugar, one cupful of butter, one cupful of milk and the grated rind of one orange; spice with three tablespoonfuls of ground ginger, and bake in a shallow pan in a slow oven.

Ice creams and other frozen desserts were made a century ago by packing the mixtures in ice and salt, as there were no patent freezers and as I have made creams this way I think they are often better. For a fruit ice cream mash two cupfuls of berries or ripe fruit with one cupful of sugar and let stand one hour. Strain and add two cupfuls of thick cream, mixing well with a wooden spoon. Place in a tightly covered mould, wrap the mould in a thick towel and bury in salt and ice for six hours.

FROZEN PUDDING.

One of the oddest of these old recipes is for an English frozen pudding. Make a rich custard by beating six eggs with three quarters of a cupful of sugar until light, then add a pinch of salt and four cupfuls of milk, cook in a double boiler until thick and smooth. Do not boil. When cold add three cupfuls of dry boiled rice, one cupful of orange juice and two cupfuls of stewed raisins. Place in a brick-shaped mould and pack in salt and ice for five hours. Turn out on a cold platter and garnish with slices of orange.

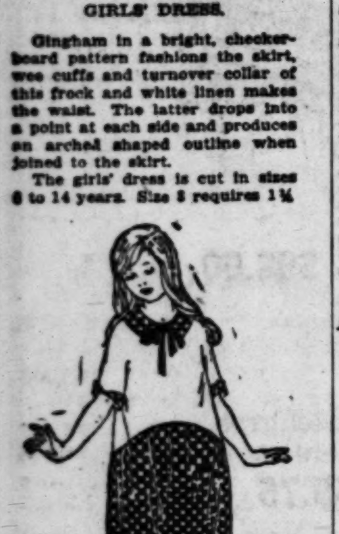
A very old fruit cake that is made at least six months before using is made by beating to a cream one pound of brown sugar with one pound of butter, beat eight eggs and add with four cupfuls of flour, one cupful of orange juice, two pounds of seeded raisins, two pounds of seedless raisins, one tablespoonful of mace, one tablespoonful of grated nutmeg and two teaspoonfuls of ground cloves; stir well and bake in paper lined tins in a slow oven one and one-half hours. Let cool in the pans. When cold wrap in oiled paper and keep on a air-tight box.

A very delicious current jam is made by cooking slowly one pound of seeded raisins with two cupfuls water for one-hour. Pick over and clean three and a half pounds of red currents and add the juice of two oranges, the finely sliced peel of two oranges, and let boil for fifteen minutes. Add to the cooked raisins and cook all for fifteen minutes longer. Fill jelly glasses while hot and seal.

GIRLS' DRESS.

Gingham in a bright, checkerboard pattern fashions the skirt, wee cuffs and turnover collar of this frock and white linen makes the waist. The latter drops into a point at each side and produces an arched shaped outline when joined to the skirt.

The girls' dress is cut in sizes 6 to 14 years. Size 8 requires 1¾



yards 36-inch checked, with 1 yard 32 or 36-inch plain material. Price 15 cents.

Every woman who wants to dress stylishly and economically should order at once the Summer issue of our Fashion Quarterly, which contains over 300 styles, dressmaking lessons, &c. Price 10 cents. Postage prepaid and safe delivery guaranteed. Send 25 cents for a pattern and Fashion Quarterly.

No patterns are kept in the Los Angeles office of The Times. To get patterns send the price, in stamps or well-wrapped coins, and the number and size of the pattern desired to this address:

ENAMEL IS FAVORED FOR BATHROOMS.

Ware With Brass Base is Said to be Best in the Long Run.

For the bathroom de luxe, which it is the ambition of every woman who loves the niceties of home furnishings to have, nothing is so satisfying, or, in the end, so good an investment, as fittings of the superior white enamel, which has brass as a foundation.

At first glance the shelves and mirror frames, the soap racks and toothbrush holders, even the clothes and towel hooks in this ware seem high priced, and beyond the reach of the modest householder. Greater familiarity with the wearing quality and an understanding of the guarantee accompanying every piece of bathroom or kitchen equipment made by this process, brings the thoughtful person to see the reason for its apparent costliness, and she who investigates thoroughly will be more than likely to invest her allotment of money for bathroom accessories in ware of this type, which has the guarantee of the manufacturer behind it, for lifetime service, the surface of which is impervious to the temperature and steamy vapors of the bathroom, and which will never require re-enameling.

Every possible requisite of bathroom furnishings, from the hook on which a razor strop may be hung, to a slatted hamper for soiled towels and a shoe-shining stool, may be bought in the ware under discussion, which has a foundation of brass covered with one of nickel, and a thick top surface of glistening white enamel. Medicine cabinets and even tables for kitchen use are also made by this process.

SOCIETY.

BY VIRGINIA WOODS.

Entertaining Visitors.

District Attorney and Mrs. Thomas Lee Woolwine are entertaining as house guests Mrs. Bruce Douglas and her daughter, Miss Evelyn Douglas of Nashville, Tenn. Miss Douglas is a noted beauty of the South. Mr. and Mrs. Woolwine are planning numerous motor trips for them, as well as a dinner in the near future.

Today Mrs. W. D. Woolwine and her daughter, Mrs. Thomas Weeks Banks, are entertaining at a luncheon and swimming party in honor of the visitors at their summer home at Hermosa Beach. Mr. and Mrs. Woolwine are soon to begin the erection of their new country home at Duarte where they will reside. They sold their town house some months ago. Mr. and Mrs. Banks and their baby are spending the summer with them.

To Wed Arthur's Grandson.

At an attractive tea for fifty guests, at which her mother, Mrs. Charles Scotti Wilson of 7039 Hawthorne avenue, entertained yesterday, announcement was made of the engagement of Miss Charlotte Wilson and Chester Allen Arthur III, grandson of the late President Arthur, for whom he is named. He is the son of Mr. and Mrs. Chester Allen Arthur, Jr., of Montecito, N. Y. No date has been set for the marriage. Miss Wilson will spend the remainder of the summer with Mrs. Arthur in Montecito and at watering places on the Atlantic Coast. Assisting at the tea were Misses Marjorie Thompson, Virginia Wilson and Mrs. Nelson Beech.

At Soiree.

Mrs. Clara Bryant Heywood was hostess at a musical soiree at her Pasadena home for a number of artists. There were seventy-five guests including David Edstrom, the noted sculptor, Mr. and Mrs. Myron Hunt, Mr. and Mrs. Ernest Bacheldor, Mr. James Foley and Miss Barnes.

For Mr. Edstrom.

David Edstrom, the sculptor, is soon to begin a figure in bronze of Mrs. Jotham Bixby, Jr., of Long Beach. She is arranging a cosy little dinner for him in the meantime. Mr. Edtsrom did a memorial statue for the city of Montreal, which was unveiled by the Prince of Wales when he was here. Mr. Edstrom, also has "done" Princess Pat and the Crown Prince of Sweden, as well as Princess Margaret of Sweden. He is on quite intimate terms with members of the royal family of Sweden. A recent letterwas received by him from the Crown Prince, who was hoping to meet him again soon in Europe.

At Pretty Tea.

At one of a series of teas, Mrs. J. Dabney Day is giving her guests of honor were Mrs. Horace B. Chilton, wife of former United States Senator Chilton of Dallas, Tex. Mrs. M. H. Mahana of Dallas and Mrs. S. A. Welch of Omaha, Neb. Other guests were Mrs. William E. Keller, Miss Elizabeth Bush, Mrs. S. H. Boren, Mrs. G. Heflin, Mrs. A. B. Griffith, Mrs. Thomas Sawyer and Mrs. Grantland Seaton Long, and Mrs. Rufus C. Porter.

At Luncheon.

Mrs. Lee A. Schlessinger (Laura Anderson) and her sister, Miss Eleanor Anderson, whom she is visiting, were hostesses yesterday at a smart luncheon at the Hotel Miramar, Santa Monica. Places were arranged for eighteen.

For Bride-Elect.

In compliment to Miss Julia Valentine, who is soon to marry William Lyman Stewart, Jr., Miss Florence Kays is entertaining with a little sewing party and tea this afternoon.

On Thursday Miss Eleanor MacGowan is to give a bridge luncheon for Miss Valentine and will have eighteen guests.

Home Wedding.

At the home of her parents, Mr. and Mrs. Samuel Paul of Beacon street, Miss Elinor Paul and Grosvenor Lawrence were married yesterday by Dr. Hugh K. Walker. Mrs. Robert Hunsaker, gowned in pink keorgette, was matron of honor while Lewis Cummins served as best man. The bride wore a gown of embroidered white georgette and carried a shower bouquet of bride roses and lilies of the valley. After a short honeymoon trip the couple will reside in Los Angeles.

Receiving Congratulations.

Dr. and Mrs. Nelson W. Janney are receiving congratulations from their many friends in Santa Barbara and Los Angeles on the event of the arrival of a daughter born on the 6th inst. Dr. Janney completed the organization and was formerly director of the Potter Memorial Clinic at Santa Barbara and is now in the private practice of his profession in Los Angeles. The Janneys recently purchased the Murrietta residence at 533 Lucerne Boulevard.

Returning to Detroit.

Mrs. Harriet Day and daughter, Miss Jane Elizabeth Day, who have been visiting here the past six months, are leaving for Detroit in a few days. They will stop in Colorado Springs a short time and at Pitaskey, Mich., where they will remain until October 1.

Magazine Writer Here.

Mrs. Leona E. Thorpe of Lincoln, Neb., is visiting in Los Angeles and with her parents, Mr. and Mrs. A. Eddington of Long Beach. Mrs. Thorpe is a magazine writer. She was recently elected vice-president of the Nebraska League of American Penwomen. She also is a talented musician.

After Honeymoon.

Mr. and Mrs. Eugene P. Hyatt, who were recently married in Bangor, Me., and spent a honeymoon in the White Mountains and New York, are expected to arrive in Los Angeles on Friday of this week. Mrs. Hyatt, who was Miss Katherine Grigg, formerly of this city, has many friends here. After a short visit with Mr. and Mrs. H. L. Hyatt of 345 West Twenty-seventh street, they will leave for their home in Lakeside.

Entertains Visitors.

Mr. and Mrs. W. J. Herring of West Eighth street, entertaining Saturday evening, in honor of Miss Lethea Wright, recently arrived from Cleveland, and Miss Sadie Thompson of Montreal. Music and cards provided entertainment throughout the evening. At midnight a buffet supper was served.

ANSWERED LETTERS.

Mrs. C. G. G.—"Kindly give recipe for making bouillon."

Answer—Beef Bouillon: Put two quarts of cold water into the pot you intend to make the bouillon in, and notice how far up the sides of the pot the water comes. Now throw away this measuring water. Into a bowl put three pounds of lower round beef cut into small pieces and three quarts of cold water; let it stand for one hour, then turn it into the pot, cover, bring to a boil and let simmer for three hours, removing any scum that arises. Now add to it one small carrot finely minced, one-fourth cup of minced celery (or one teaspoon celery salt,) one-half bay leaf, five pepper corns, three whole cloves, one large onion finely minced and one teaspoon salt. Let simmer one hour longer, adding water as it boils away so that two quarts of soup is the quantity always in the pot (the measuring with cold water at the beginning, will make it easy to keep this quantity now by eye.) Strain, cool, remove fat, and add the crushed shells of six eggs, mixing well, heat to the boiling point once more, stirring constantly, and let boil rapidly for five minutes, then add a dash of cold water (as for coffee,) let cool slightly, skim, and strain through a cheesecloth bag. The egg-shells clear the soup, for as the liquid becomes heated the egg coagulates and collects the fine particles floating in the bouillon.

"A Maiden"—"Kindly print before Thursday a menu for a graduation party. Or if you would rather send a personal reply, you will find my address at the top of this letter."

Answer: I am sorry you did not write a little farther in advance of the date of your graduation party. For you did not give me time to reply through this column. A stamped, self-addressed envelope must be sent if a personal reply is desired—and you did not even leave me time enough for that. You see, I receive so many letters from my reader-friends and I answer these in rotation; the first to come are the first to be answered. I hope you will let me help you at some future time—but allow a little more time before expecting a reply, won't you?

A Young Housekeeper—"Please advise me regarding rugs and hangings for summer. Do you think it advisable to take up large rugs and put down small rag ones? In this case, would it be necessary to have a rug beneath the dining-room table? And are cretonne hangings the most suitable for parlor and dining-room?"

Answer: I think it a sensible plan to take up the large rugs in hot weather; this saves the rug, saves the heavy work of keeping it clean, and saves one from feeling as hot as one most assuredly does in a stuffily-furnished room (that is, a crowded, heavily-draped and carpeted room) in summer. I would advise you to use the small rag rugs, as you suggest. No, don't bother to have one under your table. Bareness of floor creates a cool atmosphere. Have the cretonne hangings green or partly green, for coolness (cretonne is suitable for all rooms.) And I will predict that when you put back the large rugs and winter hangings in the fall, you'll feel as if you had just bought new ones! They look so much fresher to the eye when put back in place after a few weeks of absence.

F. B.—"What 'paint tint' did you use on your walls? You mentioned one recently in an article on doing over walls."

Answer: I cannot mention trade names in this column, for that would be advertising, but if you will send me a stamped, self-addressed envelope I will be glad to send you the name of the very paint I used on my walls.

[All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be inclosed with the question.—The Editor.]

The Daily Fun Hour.

BY HONOR WALSH.

HANDBALL CHASE.

Either a handball, a bean bag, or any other object suitable for throwing may be used for this game. A row of holes called ball-pits should be dug in the ground, as many pits as there are players, each pit named or numbered for a different player.

The players stand in a row about fifteen feet from the row of ball-pits. One, chosen to be Pitman, tries to roll the ball into any one of the pits except his own. If he misses, he must keep on trying until he succeeds in striking one of the ball-pits. This done, he calls out the name or number of the player "owning" the ball pit, and this player must run, chased by all the other players. If he can manage to get back to his own ball pit before he is tagged, he is safe, but if caught, he must be Pitman for the next game. Otherwise the first Pitman must continue to throw the ball.

In a variation of this game there are no ball pits. One player counted out must throw the ball. All the other players run in various directions. The Outman follows them, but, instead of tagging with his hands, he throws the ball at a fleeing player. If he misses, he must pick up the ball and try again. When he hits, the player struck with the ball becomes Outman. Players may dodge the ball by stooping, jumping, or side-stepping. Only a soft rubber ball should be used; in this game hard balls are dangerous.

MAKE A HERO OUT OF DEMPSEY.

[LOCAL CORRESPONDENCE.]

VENICE, July 19.—Jack Dempsey arrived in Venice this morning amid the blare of bands, and the welcoming shouts of the youth of the community. Both the Venice band and the boys' Columbia band were on hand to greet the champion.

Among the first things which Jack did was to take a dip in the Pacific. He says this is the most ideal spot he has yet seen, and that after a business trip East, which he is forced to take, he intends to return to Santa Monica Bay district to make his home. Dempsey had his picture taken with the city officials of Venice on the City Hall lawn, and had a good time seeing the town. This afternoon he was presented with a loving cup by the city, and a banquet is to be held tonight in his honor at the Ship Cafe.

EXPENSIVE PROTEST.

Oil Company's Kick Costs Them $6000 Additional Taxes.

[EXCLUSIVE DISPATCH.]

SANTA ANA, July 19.—Voicing its annual protest against the size of its tax assessment cost the Birch Oil Company $6000. Instead of reducing the valuation as prayed for, the Board of Supervisors increased it $183,000.

The original assessment of the company, operating in the Fullerton field, was $1,153,045 based by Assessor James Sleeper upon the oil production of the properties.

Regularly each year, for the last six years, the company has made a protest against the size of its assessment and repeated the complaint this year.

In investigating the matter, the Supervisors concluded that the assessment should be increased $183,000, which they did, thus making it necessary that the Birch company pay $6000 more taxes than required by the original figure. All previous protests have been denied by the Board of Equalization and are now awaiting decision of the Appellate Court.

Arrests in Campaign to Make Venice a Spotless Town.

[LOCAL CORRESPONDENCE.]

VENICE, July 19.—After nearly two weeks of warning, Venice police officers began this morning to arrest housewives and food store proprietors today who are violaters of the ordinance which strictly controls the disposition of garbage and the care of its receptacles.

Five persons were arrested this morning within a few blocks, the complaints being sworn to by Officer Del Carlton, who has been especially assigned to enforce the new law. It is expected that more arrests will be made tomorrow morning, when collection begins in another part of the city.

The ruling is the outcome of a "city spotless" campaign, fathered by the Chamber of Commerce.

"Within the next few weeks we expect to have Venice shining so that aviators flying over will be forced to wear green glasses to protect their eyes from the rays of pure cleanliness," said Mayor E. A. Gerety, today.

[EXCLUSIVE DISPATCH.]

POMONA, July 19.—Stakes were driven today for the building, which will house the Southern California egg laying contest, which will be held in Pomona under the auspices of the Los Angeles County Farm Bureau.

Work on the cement foundations for the buildings will begin at once and the buildings will be completed within a few weeks.

There will be two laying houses, each 100 by 18 and a combined garage, feed and headquarters building. It is expected that there will be about 600 entered in the contest, and there may be 400 pullets sent to the contest grounds by Southern California poultrymen for experimental purposes.

FOR PASSING BAD CHECKS.

[EXCLUSIVE DISPATCH.]

SAN DIEGO, July 19.—Mrs. L. N. Childs, aged 42, charged with passing bad checks in Los Angeles, was arrested here by Detective Jack Berg on telegraphic advice from Los Angeles. Mrs. Childs is said to have cashed several hundred dollars worth of checks in Los Angeles by forging her sister's name to them. She also is said to have floated a quantity of bad paper in San Diego but will be returned to Los Angeles for prosecution.

AGREEMENT IS END OF LOVE CASE.

Wife to Drop Suit for Loss of Husband's Affections; He to Withdraw Charges.

[EXCLUSIVE DISPATCH.]

SAN DIEGO, July 19.—The last chapter in the trial in the case of Capt. John A. Tregelles, a former officer in the British army, and in the Royal British marines, his wife, Margaret Tregelles, and Mrs. Mary Ernestine Shute of London, was written today when Capt. Tregelles formally withdrew the action for the annulment of his marriage to Mrs. Tregelles. At the same time, through stipulation with the attorneys of Mrs. Tregelles, it was agreed that she withdrew the suit for alienation of affections brought against Mrs. Shute for $100,000.

Capt. Tregelles secured an interlocutory degree of divorce from his wife in the courts here April 29, after a bitterly fought divorce suit. Mrs. Tregelles, whom he claimed he met through an advertisement in a London newspaper, while he was in a naval hospital in England, brought the damage suit against Mrs. Shute last summer when she alleged Mrs. Shute, a writer, had alienated the affections of Tregelles, while all three were living in Hollywood. Tregelles then filed suit for annulment of the marriage, and later both he and his wife brought suit for divorce. Capt. Tregelles was a hero of the Gallipoli campaign. He is living at La Jolla.

FIRE THREATENS BIG SANATORIUM.

HUNDREDS OF FIGHTERS FIGHT BRUSH BLAZE NEAR ONTARIO.

[EXCLUSIVE DISPATCH.]

ONTARIO, July 19.—With more than 200 fighters still on the job under the direction of State Fire Warden Victor Cherbak, a serious brush fire which started shortly before noon near the Alta Loma Sanatorium to the northeast of Ontario and spread with incredible swiftness over several hundred acres of sage brush, was believed under control this evening.

Hurry calls were sent to near-by ranches and packing-houses to send a percentage of their employees for fire fighting in the canyon and the forests of the watershed to the north. It was thought for a time that the Alta Loma Sanatorium was in danger of destruction.

Reports reaching here said preparations were being made to remove patients on stretchers, when a change in the breez carried the fire away from the structure. Buildings on the Grey Brothers' ranch, northeast of the sanatorium, were said to be most seriously threatened but an army of fighters succeeded in cutting a wide fire-break in the path of the flames and barring a fresh outbreak the ranch is believed out of danger.

Whether the fire was started by careless campers, hunters or tramps is not known, but an effort is being made to trace its origin.

NEW MODEL STILLS.

Officers Find Strange Booze Making Devise in Operation.

[LOCAL CORRESPONDENCE.]

REDLANDS, July 10.—Two home-made stills of an entirely new type were raided by officers here last night. The stills were at the home of Roy Choy, a Korean, on Lugonia, near Alabama, and Seisuki Akita, at 301 East State street.

The stills were probably of a type used in Korea. Two immense copper kettles were suspended over the mash. These kettles were filled with cold water. When the vapor struck the cold surface of the copper condensation took place and raw whisky dropped into a funnel rigged under the kettles. They were of very crude construction, but were doing noble work.

Choy was arrested at Redlands Junction, where he had been passing out the whisky among Mexicans, who were having a dance at that place.

WHITTIER TO VOTE SCHOOL BOND ISSUE.

[LOCAL CORRESPONDENCE.]

WHITTIER, July 19.—Whittier is to vote on a $150,000 bond issue tomorrow, for the purpose of building another intermediate school. The money if voted will be distributed $100,000 for the building, $40,000 for land and $10,000 for furnishings and equipment.

This will make the fifth intermediate school building in the city. Aside from these intermediate schools, there is a high school group of buildings which ranks among the best in the State, and the Whittier College is now a fully accredited school and is a member of the Southern California College Conference.

The Friends Church at Whittier which was built in 1911, is the largest Friends Church in the world, in point of construction and membership. It is of brick with mahogany interior finish.

BIG PRICE FOR RANCH.

[LOCAL CORRESPONDENCE.]

VENTURA, July 19.—One of the largest real estate deals made in the county this year is the sale of the D. F. Sheldon ranch near Ventura, to V. E. Holehan, a cattleman of Inyo county. The sale price was $200,000. The ranch is divided into sixty-two acres of walnuts, twenty-two of lemons and fourteen of raw land.

While the ranch is known as the Sheldon ranch, Mr. Sheldon himself disposed of the property about a year ago, and since that time has been living in Pomona. B. F. Howell of Iowa has owned it for the past year.

POLICE SEEKING GUILTY PARENTS

Officers Find Body of Baby in Sewer Farm Tank.

Palm Spike Cause of Peculiar Pasadena Accident.

City Directors to Authorize Bridge Construction.

[LOCAL CORRESPONDENCE.]

PASADENA, July 19.—Pasadena police are endeavoring to locate the parents of the infant baby boy whose body was found today in the septic tank at the city sewer farm near here. The baby was newly born but the police believe it was killed after birth and placed in the city farm tank some time last night. They do not hold the theory that the babe was carried to the farm through the sewer. Thus far no clews to the parenthood of the baby have been learned.

While trimming a palm tree here today, Ernest Fraverel, 105 Summit avenue, suffered a peculiar accident. He slipped and ran a sharp-pointed palm through the calf of his right leg. The palm then broke, the sharp point remaining in his leg. It required the strength of the Emergency Hospital surgeon and an assistant to remove the spike.

HEADS DEPARTMENT.

William K. Dunn has been made the head of the physical education department of Pasadena High Schools for the coming year, to take the place of Cecil F. Martin, who has been promoted to be supervisor of physical education for all the Pasadena schools, the high school included.

Construction of the new Columbia street bridge over the Arroyo Seco leading to San Rafael Heights will be authorized by the Board of City Didectors tomorrow, it is expected. The bridge will cost $40,000. The board is also expected to authorize the extension of the sewer system in San Rafael Heights.

GIVES BAD CHECK TO JUSTICE COX.

LOS ANGELES GIRL MUST MAKE GOOD IMMEDIATELY OR GO TO JAIL.

[EXCLUSIVE DISPATCH.]

SANTA ANA, July 19.—Unless Miss Beatrice Zadeck, 708 Maple avenue, Los Angeles, makes good immediately a check for $25, she must return here to spend twenty-five days in the County Jail.

This was the edict today of Justice J. B. Cox, when informed that Miss Zadeck's check had been returned because of insufficient funds. The check was given Cox in payment of a fine, after the fair auto driver had been convicted of driving in a reckless manner, resulting in a collision with another car.

The judgment was $25 or twenty-five days, and therefore the twenty-five-day sentence will prevail unless the money is forthcoming, according to Cox.

At the time of pronouncing sentence, Justice Cox said he would recommend to the State Motor Vehicle Department that Miss Zadeck's license be revoked.

MEETING BOOSTS WHITTIER COLLEGE.

CHURCH SCHOOL CALLS LOCAL BUSINESS MEN TO ITS ASSISTANCE.

[LOCAL CORRESPONDENCE.]

WHITTIER, July 19.—At the Chamber of Commerce City Forum banquet given at the Woman's Clubhouse this evening, the subject chosen for open forum discussion was "What Does Whittier College Mean to the City of Whittier?" The subject is particularly pertinent as the local college is just inaugurating a campaign for more funds and is facing, as are other colleges throughout the United States, a grave situation; all need more room and more funds.

Dr. Cass Arthur Reed, a former student at Whittier, and later a graduate of Pomona, now an international figure as dean of the International College at Smyrna, Turkey, spoke on "The College and the Community." Dr. Reed returned from Turkey some months ago to take a post graduate and receive his doctor's degree from Harvard University.

Other speakers were Dr. Harry Noble Wright, president of Whittier College, who spoke on "Whittier as a College Location," and Mr. C. C. Barr, prominent business man, on "A College from the Business Standpoint." J. G. Swain was in charge of the entertainment and acted as toastmaster.

PAINFULLY INJURED.

[EXCLUSIVE DISPATCH.]

POMONA, July 19.—George W. McDermitt of 460 West Third street was painfully injured today at the Sunset Canning Company, when he accidentally stepped backward from a table on which he was standing, receiving a fracture of his right hip and a severe cut above his right eye. In falling he struck his head on a concrete floor four feet below. He is expected to recover.

Bullock's Los Angeles — Bullock's Will Be Open Until One o'Clock Saturdays — Bullock's Los Angeles

Lovely New Crepe Dresses

Irresistible at $10 Each

—Two Hundred New Crepe Dresses have arrived at Bullock's—and so charming are they that Bullock's considers them of really great import—when they are offered to the Misses and Women of Southern California at but $10.00 each! They will be on sale for the first time this morning—in Bullock's Section of Inexpensive Wash Dresses—and no Miss or Woman who has yet a Summer Wash Frock to provide should miss these Crepe Dresses at Bullock's!

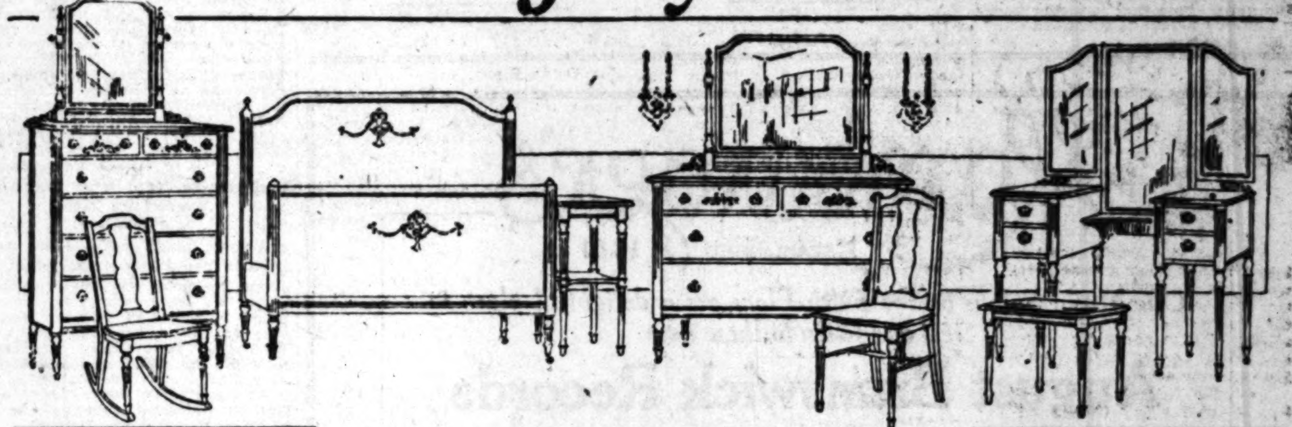
—The variety of styles is pleasingly great—and the range of sizes from 16 to 40, should insure satisfaction to all who would share. The colors and color combinations include the popular ones of the past — and many that are destined to captivate the Misses and Women of the Southland—with this, their first introduction!

—There are Dresses of two-toned Crepe finished with bits of hand-embroidery. Other Dresses have colored skirts and bodices with white blouses and novelty pockets formed of baskets of flowers—while others have deep side pockets with appliqued flowers. And the popular Wooden Beads have been used effectively on some of these Crepe Dresses as have many other original adornments. Some of the Dresses are combinations of cretonne and crepe with straps of Crepe over the shoulders, giving them the name, "Suspender Dresses."

—Bullock's has searched long and far among the Manufacturers of Crepe Dresses—and it is therefore with full confidence that Bullock's designates these Crepe Dresses—*"Irresistible at $10 Each!"*

—For the first time—today—on Bullock's Third Floor—Across the Bridgeway.

Bullock's July Furniture



Bedding

—For substantial Savings it would be difficult to enlarge upon those prevailing in Bullock's Bedding Section during July. Women who have already shared are returning to share again—and those who have not yet participated should hesitate no longer!

72x90 Sheets, 90c

—are bleached and seamless. They are equaled by the heavy Muslin Pillow Cases at 32½c and 35c—for the 42x36 and 45x36 inch sizes.

Bed Spreads, $2.75

—A very good grade of Crochet Spread is priced but $2.75 — and P. K. plain hemmed Summer Spreads are but $3.75—some Satin Finish Spreads of heavy weight at $4.95.

—Blankets, $2.25 Pr.—Both 60x76 and 64x76 Cotton Blankets included at this low marking. Of light weight so desirable for summer—in staple cotton plaids. These and many others — on Bullock's Sixth Floor.

This 8-Piece Bedroom Suite at $287.50

—In an announcement of this kind it is impossible to list *all* the Values that tend to make July a month of exceptional Furniture Opportunities at Bullock's—so Bullock's has selected but one Value *that is typical of the Many* and gives special mention to that one in order that it may indicate the Savings to be realized at Bullock's.

—The Suite at $287.50 is in the design of Louis XVI Period—is finished in Ivory Enamel—consists of Bed at $45.00—Dresser at $63.00—Vanity Dresser at $76.50—Chiffonier at $54.00—Chair at $11.75—Rocker at $12.75—and Night Stand at $12.75; a truly amazing value at $287.50 complete—on Bullock's Seventh Floor.

9x12 Axminster Rugs $38.75

—It is nothing but proper that Floor Coverings should receive special mention in connection with Bullock's July-Furniture—especially when the Value is so great as 9x12 Axminster Rugs at but $38.75! That's the price on 12 of them on Bullock's Sixth Floor—tomorrow. They are of heavy quality—in a good range of desirable patterns and colorings.

—Other Rug Values that deserve special mention are—9x12 foot Seamless Wilton Velvet Rugs at $39.50—11.3x12 foot Finest Grade Wilton Rugs at $165.00—and Heavy Grade Wool Wiltons in the 11.3x12 foot size at $121.00. Bullock's Sixth Floor.

Drapery

—Can you imagine Cretonnes at 20c yard? You can purchase good Drapery Cretonnes for that little price—on Bullock's Sixth Floor. They are worth far more—but to serve as a guide into other Cretonne Values they have been specially priced at 20c yard. But a limited yardage!

Cretonnes, $2.25

—If that seems a terrible price for Cretonnes you should *see* them—and you'd change your mind! These are 50 inches wide—in rich, velvety effects and unusual color combinations. Really priced *low* at $2.25 yard!

Floor Lamp Sale

—Are you aware of the Savings to be realized on your Floor Lamp if you buy it now on Bullock's Sixth Floor? A little over a week ago Bullock's received a shipment of very specially purchased Floor Lamps which were immediately placed on sale at almost unbelievably low markings. Many still remain on Bullock's Sixth Floor. You should no longer overlook the opportunity!

ALL-YEAR CLUB GAINS GROUND.

Drive for Southland Booster Fund is Prospering.

Three Hundred Thousand Goal is Growing Nearer.

Prominent Business Men to Enter Work Tomorrow.

At a meeting yesterday of the executive committee of the All-Year Club of Southern California, at which pledges approximating $1000 were added to the total in the club's drive for a three-year annual fund of $300,000 for the advertising of the Southland, arrangements were completed for a gathering tomorrow of more than a score of well-known business men of the city, who will assist in the continuance of the drive along new lines that have been laid down for the completion of the work.

This new phase of the All-Year Club campaign seeks to enlist the co-operation of the scores of firms and individuals who have not thus far been reached in the fund-raising effort. It is additional to the team campaign that is still in progress and in which twelve teams are making daily reports showing that the $300,000 goal is being steadily and surely approached.

ASSISTANCE GIVEN.

Great assistance has been given to the All-Year movement through the inception of this summer's advertising campaign, proofs of the copy having been prepared for use of the workers as presenting the best possible evidence of the inclusive all-Southland appeal that has actuated and that will continue to actuate it.

The subscriptions that were added to the total yesterday, came from Team Capts. Daniel H. Jones, Fletcher Ford and C. S. Walton and assistants, Clyde L. Potter and F. E. Seaver. They included pledges from the Southern Counties Gas Company, the Illinois Electric Company, Dearden's Furniture Store, the Grinnell Company of the Listenwalter & Gough, Inc., F. A. Clark and Arthur Avery.

With the contributions that they turned in yesterday, Charles Walton and his aides have secured for the All-Year Club the virtually complete support of the local gas and electric corporations and have made a strong beginning with the electrical supply and fixture houses.

MANY PLEDGES.

In addition to the subscriptions they reported yesterday, Mr. Walton and his assistants have secured the pledges of the Southern California Telephone Company, Southern California Edison Company, Los Angeles Gas & Electric Corporation, Southern California Gas Company, Beacon Light Company, Western Light & Fixture Company, C. B. Babcock Company, C. R. Kieruiff & Co., Electric Shop, Woodill-Hulse Electric Company, Franklin Booth Company, Sangamo Electric Company, International Electric Company, Brown & Pengilly, Advance Electric Company, C. R. Kieruiff & Company, J. M. Felderman Company, The Electric Corporation, Western Electric Company, Graham-Reynolds Electric Company, and Forve-Pettebone Company.

"We expect to continue our efforts until the quota set for our group is far exceeded," said Mr. Walton. "We are among those who believe that the All-Year fund will presently be found to have been oversubscribed, and we intend to do our part to accomplish this. In my judgment, this is probably the most notable community effort that has ever been put forth on behalf of Southern California."

PERILS LURELS OF NEW JERSEY.

Wilmington Sends Council Jar of Mosquitoes as Hint to End Pests.

The people of Wilmington are still trying to arouse the city government to the necessity of ridding that district of those pesky mosquitoes. After the problem had been bandied about between the health and harbor departments without obtaining relief, Secretary W. C. Edwards of the Wilmington Chamber of Commerce and Edward Fields appeared before the Council yesterday morning with a jar full of Wilmington mosquitoes and said, in effect: "Help! Help! Or, we perish of mosquitoitis."

The Councilmen looked at the mosquitoes—and referred the matter back to the harbor board.

INSPECTORS FINISH WORK AT POSTOFFICE.

REPORT OF EXAMINATION HERE WILL BE SENT TO THE FEDERAL DEPARTMENT.

The annual examination of the Los Angeles postoffice, which has been in progress since the 6th inst., with a force of seventeen postoffice inspectors, marshaled by Inspector Clark Webster, at work, closed yesterday, and the inspectors' report will be sent direct to the Postoffice Department in Washington.

Postmaster Brown has no knowledge of what recommendations, if any, are made by the inspectors in their report. If any changes are to be made his first knowledge will come through the First Assistant Postmaster-General's office.

It is known that the financial statement passed muster, and that every cent was accounted for by Cashier Anderson.

The stamp receipts of the office, which dropped somewhat during the first two weeks of this month, are again increasing, and Assistant Postmaster Foster is sanguine that the $5,000,000 mark will be reached by the close of the year. The money order and postal savings transactions during the past year amounted in round numbers to $25,000,000.

VACATION FOR COURT.

No More Jury Trials to be Held by Judge Bledsoe Until September.

Announcement was made yesterday that there will be no more jury trials in U. S. District Judge Bledsoe's court until September, as the entire month of August will be spent by the court on vacation. The term trial jury in that department will be drawn later for service, beginning the first week in September.

Judge W. H. Sawtelle of Arizona, who has been sitting in Judge Trippet's court during this month, will remain here until the conclusion of court next Wednesday. Judge Trippet will return from his two weeks' vacation ready for work the following Monday.

Judge Sawtelle has been asked to go to Seattle for several weeks' work, but he is in ill health, and is contemplating an extended trip to the mountains.

GUS MANN'S Pot and Spigot Grill, 611 South Spring, is justly famous for its good food, polite service and reasonable prices.

WAR MEMORIAL FOREST SOUGHT.

Dedication of State Trees to Heroes Asked.

Park Board, Other Agencies Consider Proposition.

Report to be Made Upon Plan for National Monument.

Numerous requests have come to the Chamber of Commerce to convert the Forest of States into a war memorial for the men who died in the service. The Park Board and other agencies interested in the grove have considered the change and will report upon the proposition if there is no strong sentiment against it.

As Los Angeles is made up of 96 per cent of residents born in other States than California it is considered appropriate that this city should make a national monument of the unique present of trees from the States.

The forest had its beginning in the Chamber of Commerce. Letters sent to the governors of every State in the Union and the Territories were promptly answered by the chief executives and over 50 per cent of the trees, natives of the different States, are flourishing in Exposition Park.

INTEREST KEEN.

Keen interest was shown in the selection of State trees, Utah's women representatives causing a near riot, according to press dispatches, when the question came up before the House. But Utah's tree was finally selected and a young box alder is planted in Los Angeles to fill the absent residents of Utah with memories of home.

Special historical interest is attached to the trees from Connecticut and Massachusetts. A granddaughter of the Charter Oak arrived in Los Angeles in the winter, or rather, a seedling of a seedling from the famous Connecticut tree. And from Massachusetts came the descendant of trees that shaded Miles Standish on his old estate. This tiny red oak is adapting itself nicely to the warm climate and rich soil of the Southland.

Considerable difficulty has been experienced by the chamber and park officials in making the different State officials understand that certain varieties of trees cannot be shipped into California, and that they must abide by the law.

STATES REPRESENTED.

In spite of obstacles, the following States are represented by typical trees in the Los Angeles grove: New York, pine; Missouri, walnut; Alabama, dogwood; Tennessee, American elm, sugar maple; Idaho, white pine; Michigan, red pine; Alaska, Sitka spruce, cypress; Arizona, silver cypress, palo verde; Utah, box alder; Nebraska, white cedar; Maryland, bald cypress; Nevada, yellow pine; Pennsylvania, white ash; Indiana, sugar maple, yellow poplar; Ohio, buckeye; Kansas, American elm; Massachusetts, red oak, white oak; Vermont, sugar maple; Colorado, blue spruce; South Dakota, spruce; Connecticut, (Charter Oak); Illinois, red oak; North Dakota, ash; Rhode Island, red oak; Minnesota, elm; Montana, larch; Wisconsin, pine; Maine, Pine; Philippines, candlenut, and from Canada, three maple trees and a sycamore.

When trees from all the States are planted, dedication ceremonies will be held and uniform bronze tablets bearing names of the trees and the "home State" will be placed at the foot of each.

THERE'S no other place just like Gus Mann's Pot and Spigot Grill, 611 South Spring. You will like it.

SPRINGS NEW PLAN TO GET EASY MONEY.

Man Accused of Renting Same House to Five Victims Hunted by Police.

How an investment of $10 netted the investor more than $100 in a short time was told to the police yesterday by five victims of a man said to be C. A. Johnson.

Johnson, posing as the owner of a house on North Sichel street, which he had rented by depositing $10 with the owner, Mrs. E. S. Brown, 2811 North Sichel street, advertised the house for rent, according to reports made to the police.

Five prospective tenants, according to their stories, paid him sums ranging from $30 to $45 each, either as a deposit or a month's rent on the premises, and each thought he or she was to take possession. When all five tenants endeavored to move in, their plight was discovered and they hurried to police headquarters to tell their story.

Those who told police they had been victimized are W. J. Johnson, 934 South Alameda street; Mrs. B. M. Frankel, 1604 West Pico street; Mrs. E. E. Lipps, 840 South Flower street; Mrs. K. A. Riley, 157 West Thirty-ninth street and T. W. Arnold, 525 East Sixteenth street.

A warrant charging petty larceny has been issued for Johnson, who told one of his victims he was leaving for Salt Lake City.

DESERTS BACHELORS.

Deputy Sheriff Bell Weds Mrs. Ruby Williams, Formerly of Texas.

Harvey W. Bell, debonair deputy sheriff, long touted as a runner-up for the bachelorship championship of Los Angeles county, and for years engaged in untangling enigmas, yesterday was himself the subject of a mystery, the inkling of which threaten to undermine his claims as a leader of the unmarried male sex.

On Monday Deputy Bell, accompanied by his partner, Deputy Couts, was trailing some bandits, but the fact was also unearthed that on Monday he had deserted the ranks of the bachelors and was wed to Mrs. Ruby L. Williams, aged 23, formerly of Texas. The ceremony was performed by Judge Conley of Madera, sitting in extra session here. Mrs. Williams is the daugther of Mr. and Mrs. O. C. Wilson of the Cable Apartments, this city. The couple, who will make their home at 913 Cypress avenue, have known each other for a year.

The whereabouts of Mr. and Mrs. Bell was, as the saying goes, shrouded in mystery until yesterday when Deputy Bell reported for duty. He said he had done fairly well by the bachelors, for he remained one for thirty-seven years.

COUNCIL POSTPONES SPEEDOMETER VOTE.

Consideration of Mayor Cryer's veto of the ordinance requiring speedometers to be installed on all motor-driven vehicles in Los Angeles was postponed yesterday by the City Council for two weeks, on account of the absence on vacation of Councilman Mallard, who originally favored the regulation.

There is a possibility that with Councilman Mallard voting in favor of the ordinance and all of the other Councilmen standing pat on their previous positions, the measure may be passed over the Mayor's veto.

Truck owners and the Motor Car Dealers' Association have expressed their opposition to the ordinance while City Prosecutor Widney and Police Judge Chesebro favor the regulation as a means of aiding in the conviction of speeders.

GIVEN COVETED PLUM.

Detective-Sergeant King Detailed to Woolwine's Office.

A post much coveted by detectives in the Police Department was given yesterday to Detective-Sergt. Edgar C. King, when he was detailed by Chief of Police Jones for duty in the office of Dist.-Atty. Woolwine, following a conference between the Chief and the District Attorney.

The post has been vacant since the advancement three weeks ago of Mr. Jones from Detective Sergeant to Chief of Police.

Detective Sergt. King has been in the Los Angeles Police Department eighteen years and has the distinction of not changing partners for more than ten years, he having worked with Detective Sergt. Oakes for that length of time.

ACID IN COLD CREAM.

Wife Charges Husband Also Put Pepper in Cosmetic; Wins Alimony.

Mrs. Ethel Martin yesterday secured an initial victory in her contest for separate maintenance against William H. Martin, before Judge Harvey. The court ordered the husband to pay $25 per month alimony and $100 attorney's fees and he was directed to remain away from his wife pending the settlement of the suit.

Mrs. Martin represented that her husband had put carbolic acid and red pepper in her face cream; that he threw a gallon of cold water on her, hurled a pot of coffee at her head and called her names. She was represented by Attorney Jones and Craig.

JAIL MEXICAN FOUND IN HOTEL WITH NIECE.

[EXCLUSIVE DISPATCH.]

CALEXICO, July 19.—Arrested at a hotel in this city in company with his niece, a 15-year-old girl, David Peralta is held in the County Jail in El Centro on a charge of violating the section of the immigration laws, which provides a penalty for bringing a female under age into the United States for immoral purposes. The child's mother complained to the immigration inspector, who made the arrest. The girl is held as a witness. The woman says her brother has resided at her home for several months. He was not suspected, and was permitted to take the girl away from home. Saturday, she says, she discovered her confidence had been abused, and ordered her brother from her house. He went, but returned later in her absence and induced the child to accompany him to Calexico, she says.

LOSES FAT ROLL.

Sleeper Who Left Door Open Wakes to Find His Money Gone.

Charles Luskewitz like Abou Ben Adem awoke yesterday from a sweet dream of peace, but instead of finding an angel in his room, he discovered that a sneak thief had been there and now Mr. Luskewitz is mourning the loss of $1400, which, he told the police, he had left on his dresser.

There were eight $100 bills and thirty $20 bills in his bank roll. He went to bed at 7 a.m. and awoke at 11 o'clock. He left his door open, he says.

TEACHERS POSTPONE PLAN FOR CLUBHOUSE.

The Los Angeles City Teachers' Association, at its regular meeting at Trinity Auditorium yesterday afternoon, postponed action on the plan to conduct a campaign for funds for a new clubhouse. The matter was scheduled to come up for discussion at yesterday's meeting, but only a few teachers attended. Not until a larger number is present will the plan be discussed, it was announced.

PROBATION VIOLATOR IS IN TOILS OF LAW.

Andrew McDonald, who was out on probation and who failed to appear for trial when his case was called two years ago, is again in the toils of the law. After wandering to Mexico and South America he returned to Los Angeles to be recognized at a baseball game by a policeman. His trial was set yesterday for August 19 before Judge Willis to answer to a second charge of burglary. He has already pleaded guilty to a simiiiar charge, but was allowed to go on probation.

Blaze Sweeping Near Bakersfield Does Much Damage.

[EXCLUSIVE DISPATCH.]

BAKERFIELDS, July 19.—Fire starting at the William Metzel sheep camp on the old Hugh Goff place about forty miles east of Bakersfield has been sweeping the high mountains during the past three days, threatening Havilah, former county seat of Kern county, endangered thousands of dollars' worth of ranch property, destroyed timber, menaced the safety of cattle and sheep and forced summer campers to desert their camps for places of safety, according to word received from the mountains today.

A large force of fire fighters called from all over the hill country is employed and there is some hope of getting the flames under control. The high wind which has been blowing for several days had somewhat subsided this afternoon. District Ranger Wesley Rhodelhamel, in charge of the fire fighters, was badly burned when he attempted to rescue sheep from the Menzel camp and only the timely arrival of aid saved him from possible death.

The fire swept down Clear Creek and burned around the Polkingham place, at times the flames licking into the yard. Dry feed in the pasture was destroyed. Sunday night the flames had reached the county road below Hobo Springs and extended over the east side of Bald Mountain, crossed the road and it is now burning on the south side of Juniper Hill.

STORY OF ABUSE WINS DIVORCE FOR WOMAN.

Mrs. Ira Catherine Miller was granted a divorce yesterday by Judge Summerfield from William Theodore Miller after she and other witnesses testified her husband abused her and used profane language in her presence. The specific abuse was "striking her across the face and arm." The Millers were married in 1916 and separated on last April 26.
